Baby Animals

DK Publishing, Inc.

Baby farm animals

Spring is a busy time on the farm. Many baby animals are born. Which is your favorite baby farm animal?

woolly
coat

leg

grass

More baby farm animals

chicks

foal

piglets

calf

ear

lambs

Puppies

Woof! Woof! A baby dog is called a puppy. Puppies have soft fur and like to play, especially with balls. Sometimes they chew their favorite ball, too!

I spy...

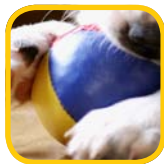

paw

nose

eye

ball

Kittens

A baby cat is called a kitten. Kittens have very soft fur and they make a gentle purring sound. They are very playful and like to chase, pounce, and jump!

I spy...

whiskers

ear

paw

(c) 2011 Dorling Kindersley. All Rights Reserved.

Bunnies

Bunnies can't see or hear when they are born. They stay in their warm nest and sleep. After two weeks, the bunnies begin to see and hear and can start exploring!

I spy...

nose

ears

fur

eye

Hatching eggs

Some animals, like these baby ducklings, are born, or hatch, from eggs. Do you know any other animals that hatch from eggs?

duckling

chicken

chicken egg

python

python egg

Baby birds

These young birds, or chicks, are hungry! Their mouths are a bright color so that their mommy and daddy can easily see where to drop in their food.

I spy...

moorhen and chick

gosling and goose

Baby noises

Baby animals make noises to let their mommies know that they are hungry or frightened. Sometimes the noises just mean that they are playing or saying hello.

roar!

lion cub

Which animals are making the wrong sounds?

Elephant calves

Baby elephant calves live in big family groups and are cared for by their mom and aunts.

They are very playful, too.

trunk

rhinoceros

tiger cub

giraffe
calf

Zebra foals

Zebras are wild, striped animals. A baby zebra is called a foal. A foal can stand up soon after it is born and likes to stay close to its mommy when young.

I spy...

ear

mane

stripes

legs

Lion cubs

A lion cub grows up in a big group called a pride. A mommy usually gives birth to a few cubs at a time, so cubs have brothers and sisters to play with!

I spy...

fur

paw

mouth

ear

Joeys

A mommy wallaby carries her baby joey inside her pouch. When the baby is born it is the size of a bean. Then it wriggles into its mommy's warm, safe pouch.

I spy...

Polar bear cubs

The cubs are born in a snow den and they feed on their mommy's milk. When they leave the den, the cubs stay close to their mom and learn how to hunt for food.

bear cubs

Find mommy

Mommies are very important. They look after their baby animals by feeding them, keeping them warm, and protecting them.

cub

ewe

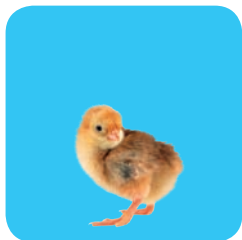

foal

zebra

Can you
help the
babies find
their moms?

chick

hen

lamb

tiger

Match up!

Look back through the book and see if you can find the baby animals that match the black shapes on the opposite page.

Try to match the bunny and rhinoceros pictures first!
