See how they go

Trucks

Big rig!

I AM AN ARTICULATED TRUCK

SEE HOW I GO!

I am a truck in two sections.
My rig, or tractor unit,
is the powerhouse
where my engine
is and where my
driver sits.

EXHAUST PIPE

HEADLIGHTS

AIR INTAKE

Behind my rig is the long trailer that carries my load. It attaches to my rig with a swivel joint.

GAS TANK

DRIVER'S
SLEEPING
COMPARTMENT

This swivel makes my trailer articulated, or flexible, so I can bend and turn around tight corners.

Monster mixer!

I AM A CONCRETE MIXER

SEE HOW I GO!

Look at me with that large drum on my back. Inside the drum is tons of concrete I carry to construction sites.

My drum is like a giant mixer. It turns and churns and mixes the concrete with water as I drive.

When I get to a building site, I pump out a full load of concrete in just three minutes.

ENGINE
UNDER CAB

Then I rinse out my drum with water and head back to my depot for another load.

Tree trunk truck!

I AM A LOGGING TRUCK

SEE HOW I GO!

Look at me, I'm
long and strong.

SLEEPING
COMPARTMENT

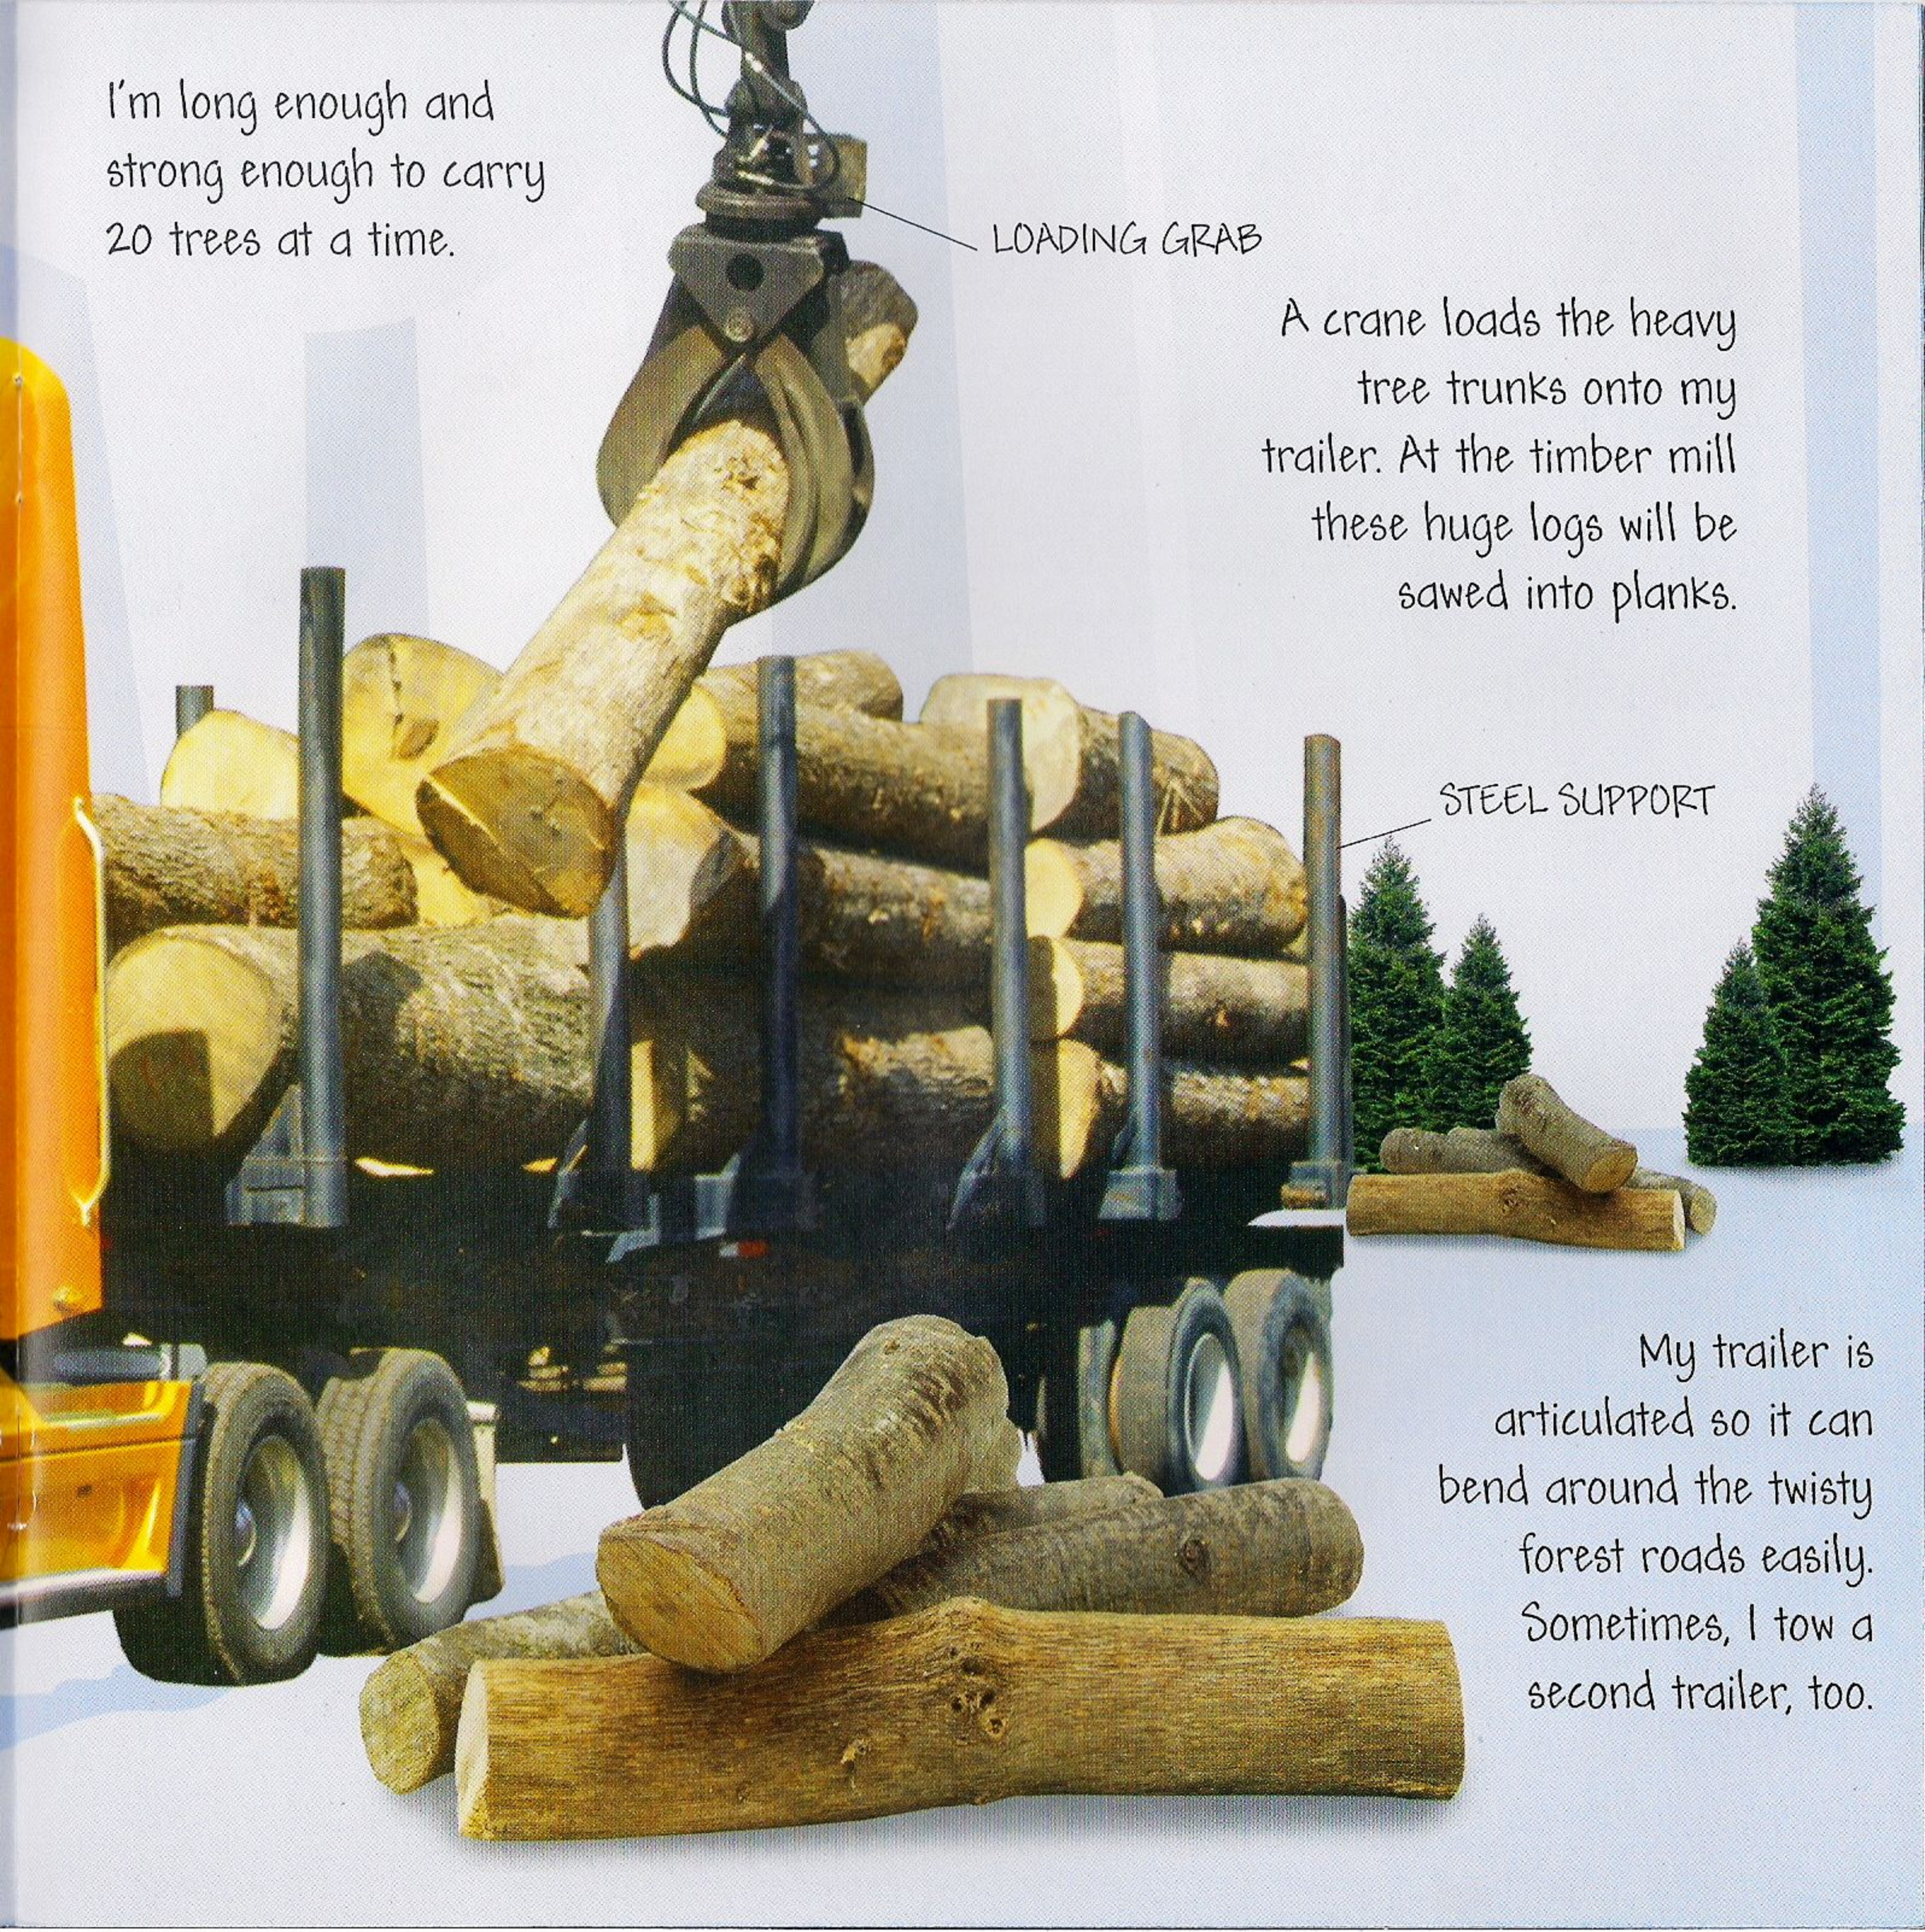

I'm long enough and strong enough to carry 20 trees at a time.

LOADING GRAB

A crane loads the heavy tree trunks onto my trailer. At the timber mill these huge logs will be sawed into planks.

STEEL SUPPORT

My trailer is articulated so it can bend around the twisty forest roads easily. Sometimes, I tow a second trailer, too.

Super dump truck!

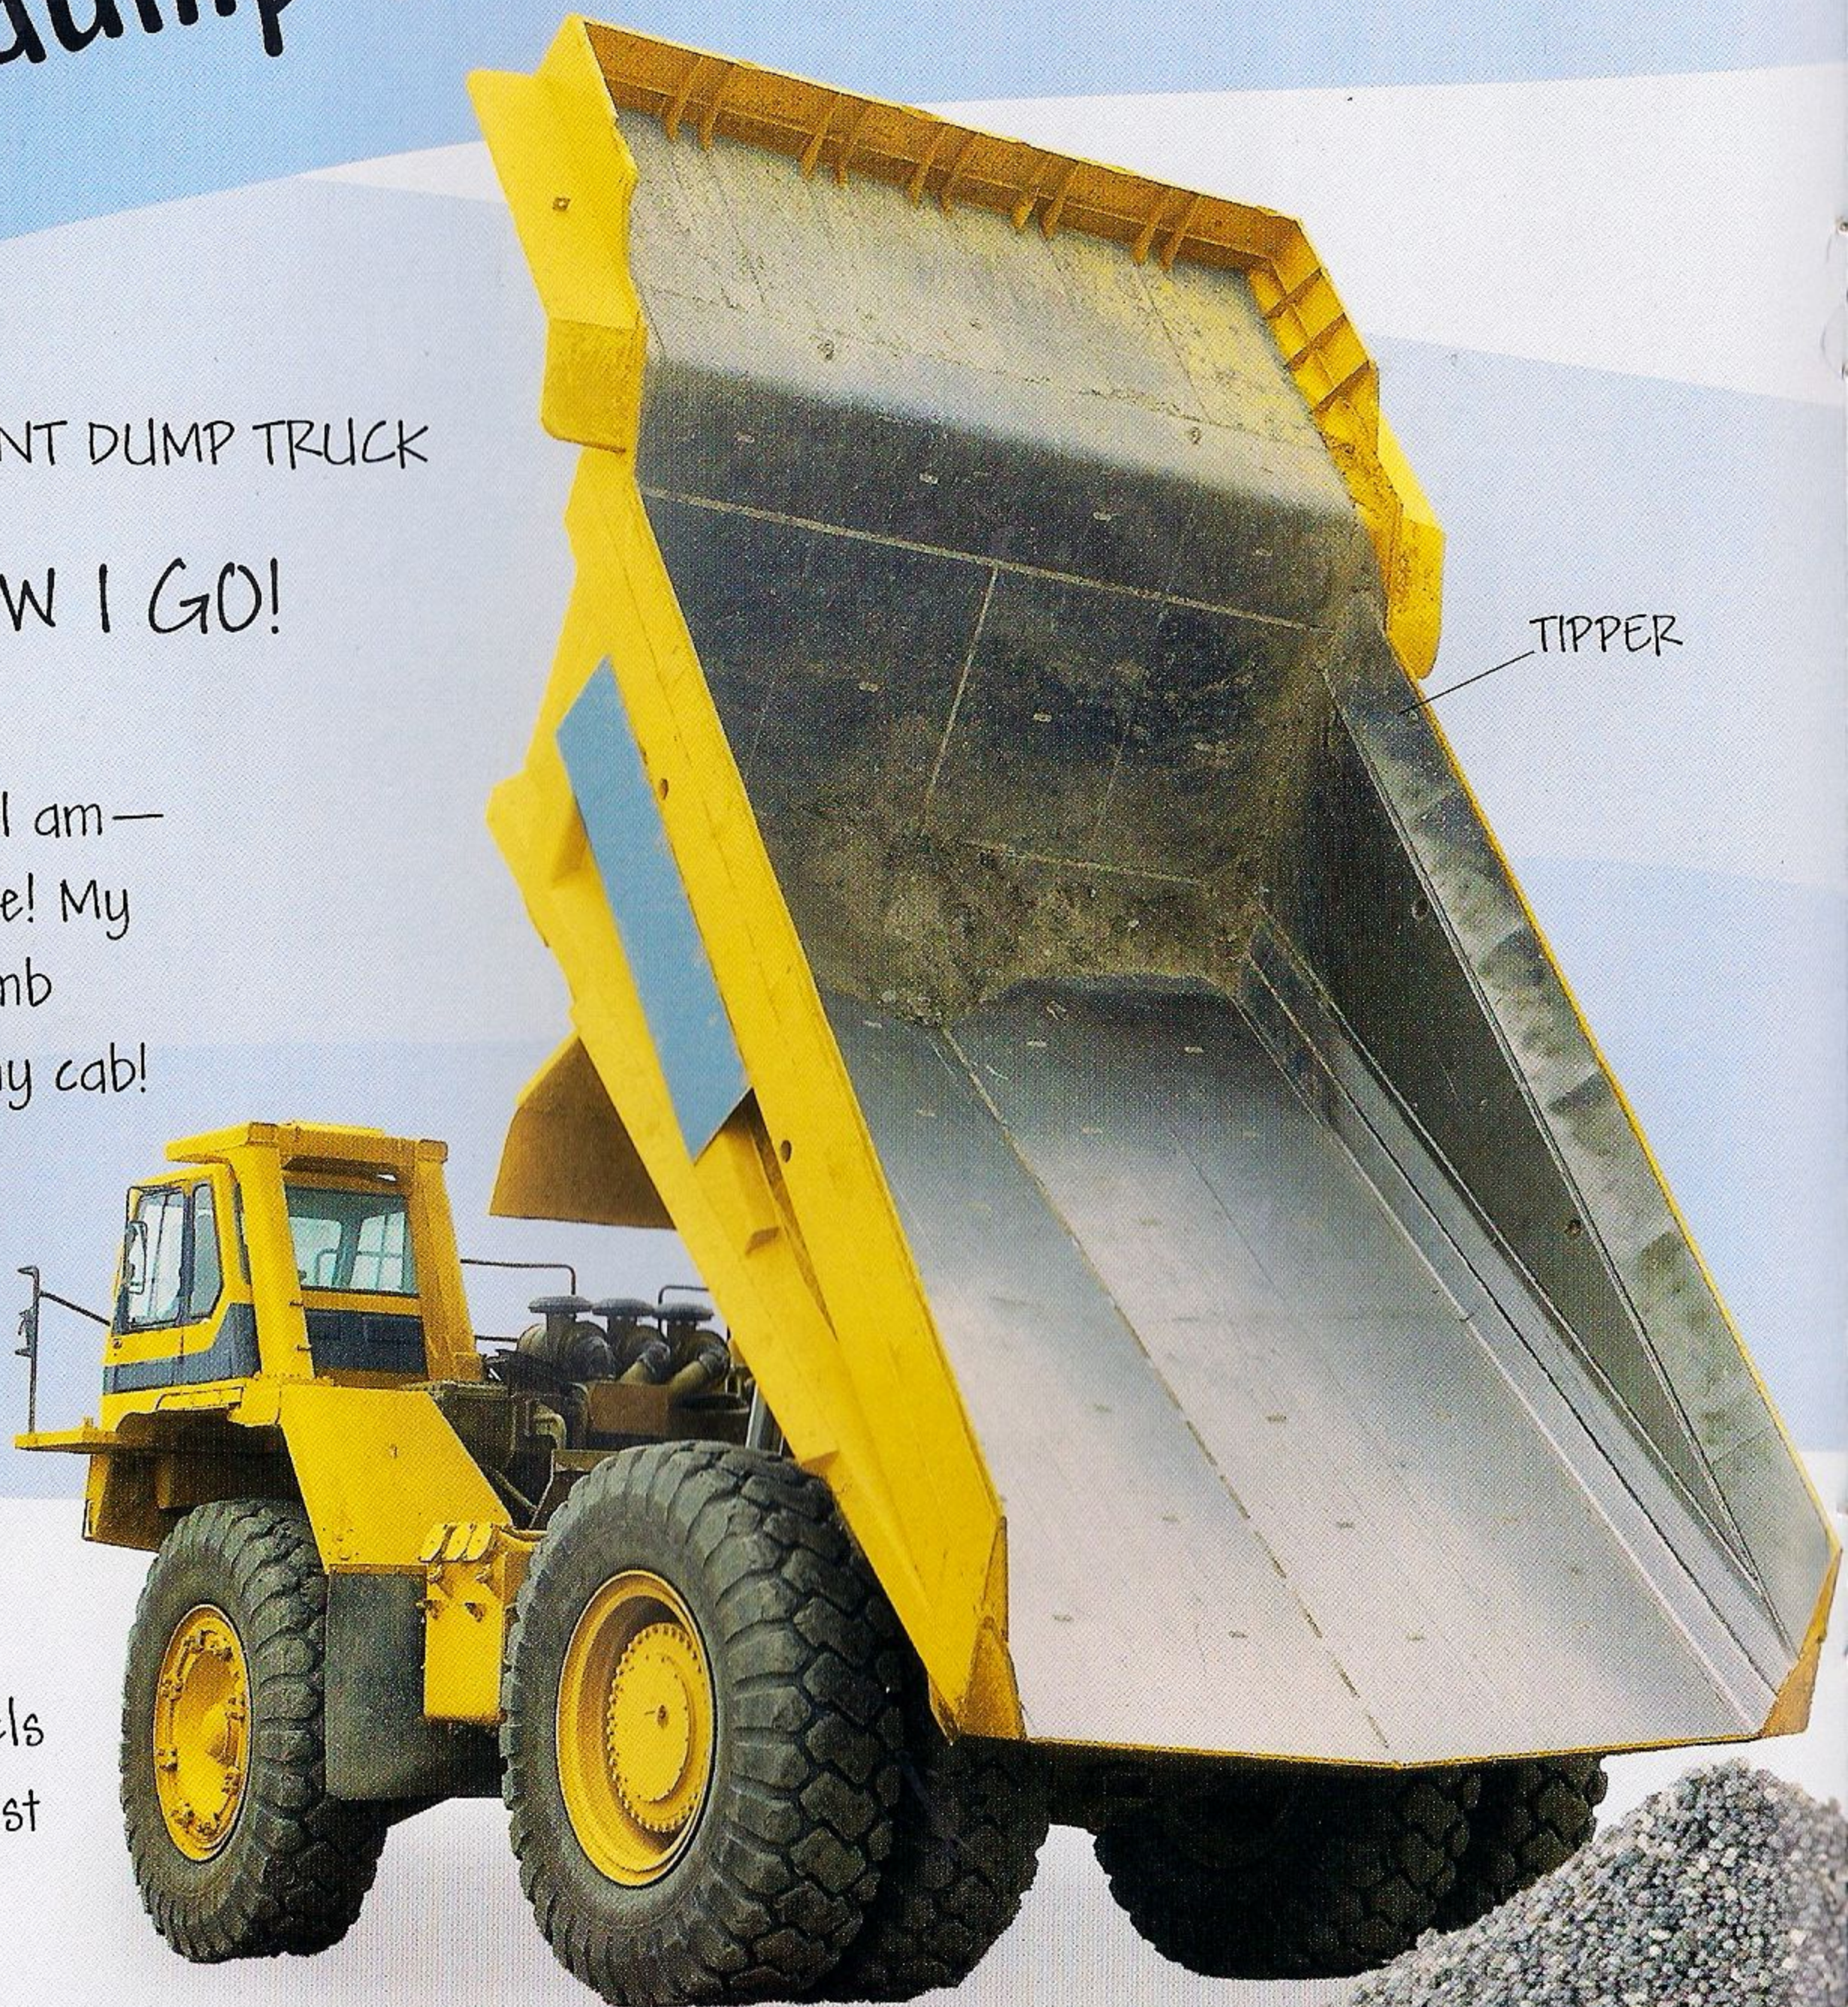

I AM A GIANT DUMP TRUCK

SEE HOW I GO!

Look at how big I am—
as tall as a house! My
driver has to climb
stairs to reach my cab!

Each of my wheels
is taller than most
grown-ups!

TIPPER

I work in quarries or giant construction sites where loaders and excavators fill up my tipper with huge loads of rubble.

I'm so big, I can't drive on the highway.

Gas trucks bring me fuel, and if I need any repairs my mechanics come to me with a mobile workshop.

Gasoline machine!

I AM A GAS TRUCK

SEE HOW I GO!

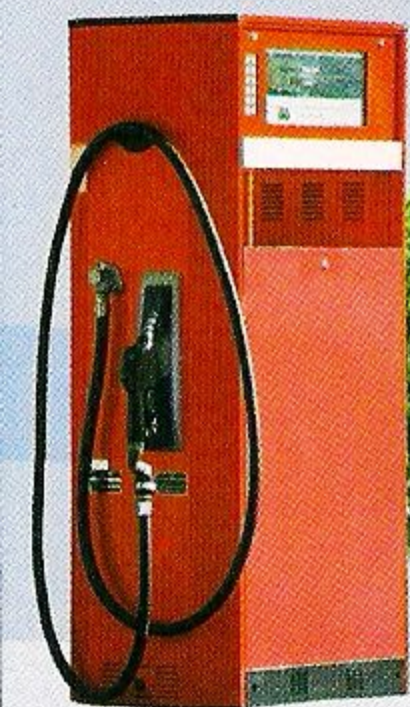

RADIATOR
GRILL

RADIO ANTENNA

HORN

BIG BATTERIES

My trailer carries a huge tank—just like the gas tank on a car, only about 1,000 times bigger!

The inside of my stainless steel tank is clean.
Cars can't run on gasoline with dirt mixed into it.

Tanker trucks like me carry other loads, too: oil, liquid plastic, milk, and water are just a few.

Look out for a tanker the next time you ride in a car or a bus, and see if you can tell what's inside it.

Super snowplow!

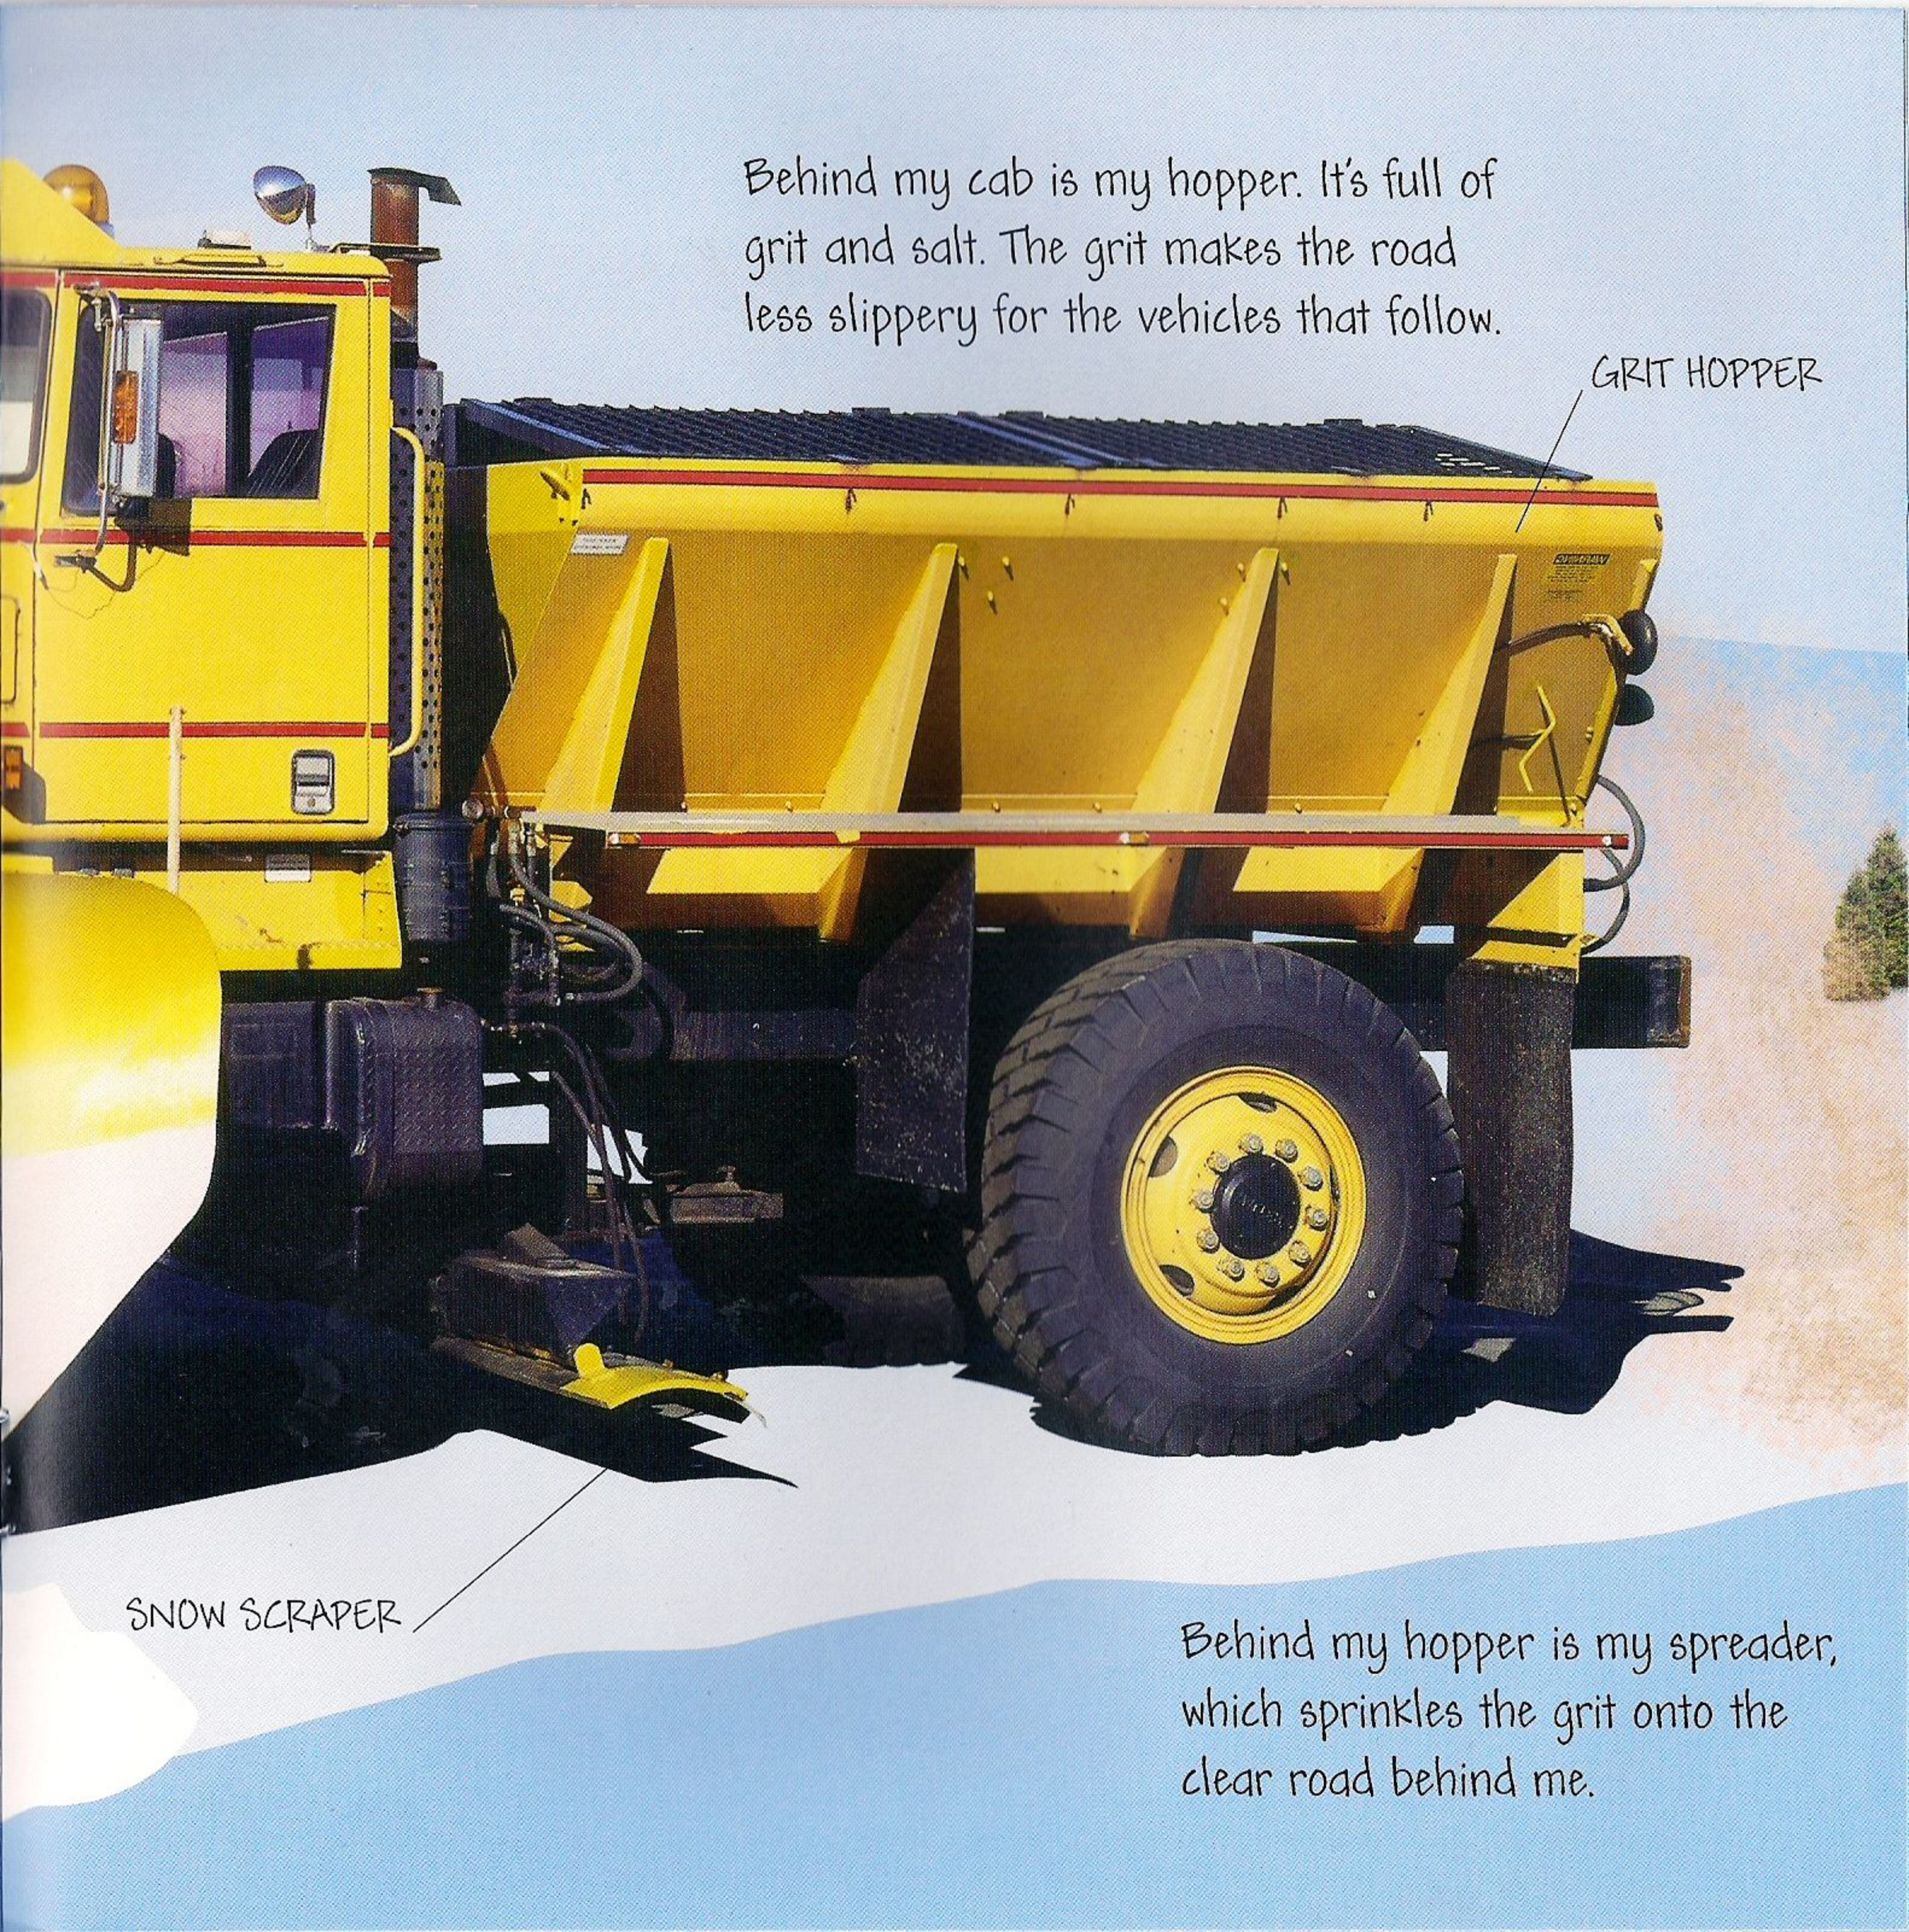

I AM A HIGHWAY SNOWPLOW
SEE HOW I GO!

Look at me driving in
the snow and clearing
the road as I go.

PLOW BLADES

The plow on my front is like a bulldozer
blade. It cuts through the snow and pushes it
to the side of the highway. Whoosh!

Behind my cab is my hopper. It's full of grit and salt. The grit makes the road less slippery for the vehicles that follow.

GRIT HOPPER

SNOW SCRAPER

Behind my hopper is my spreader, which sprinkles the grit onto the clear road behind me.

Two-tier transporter!

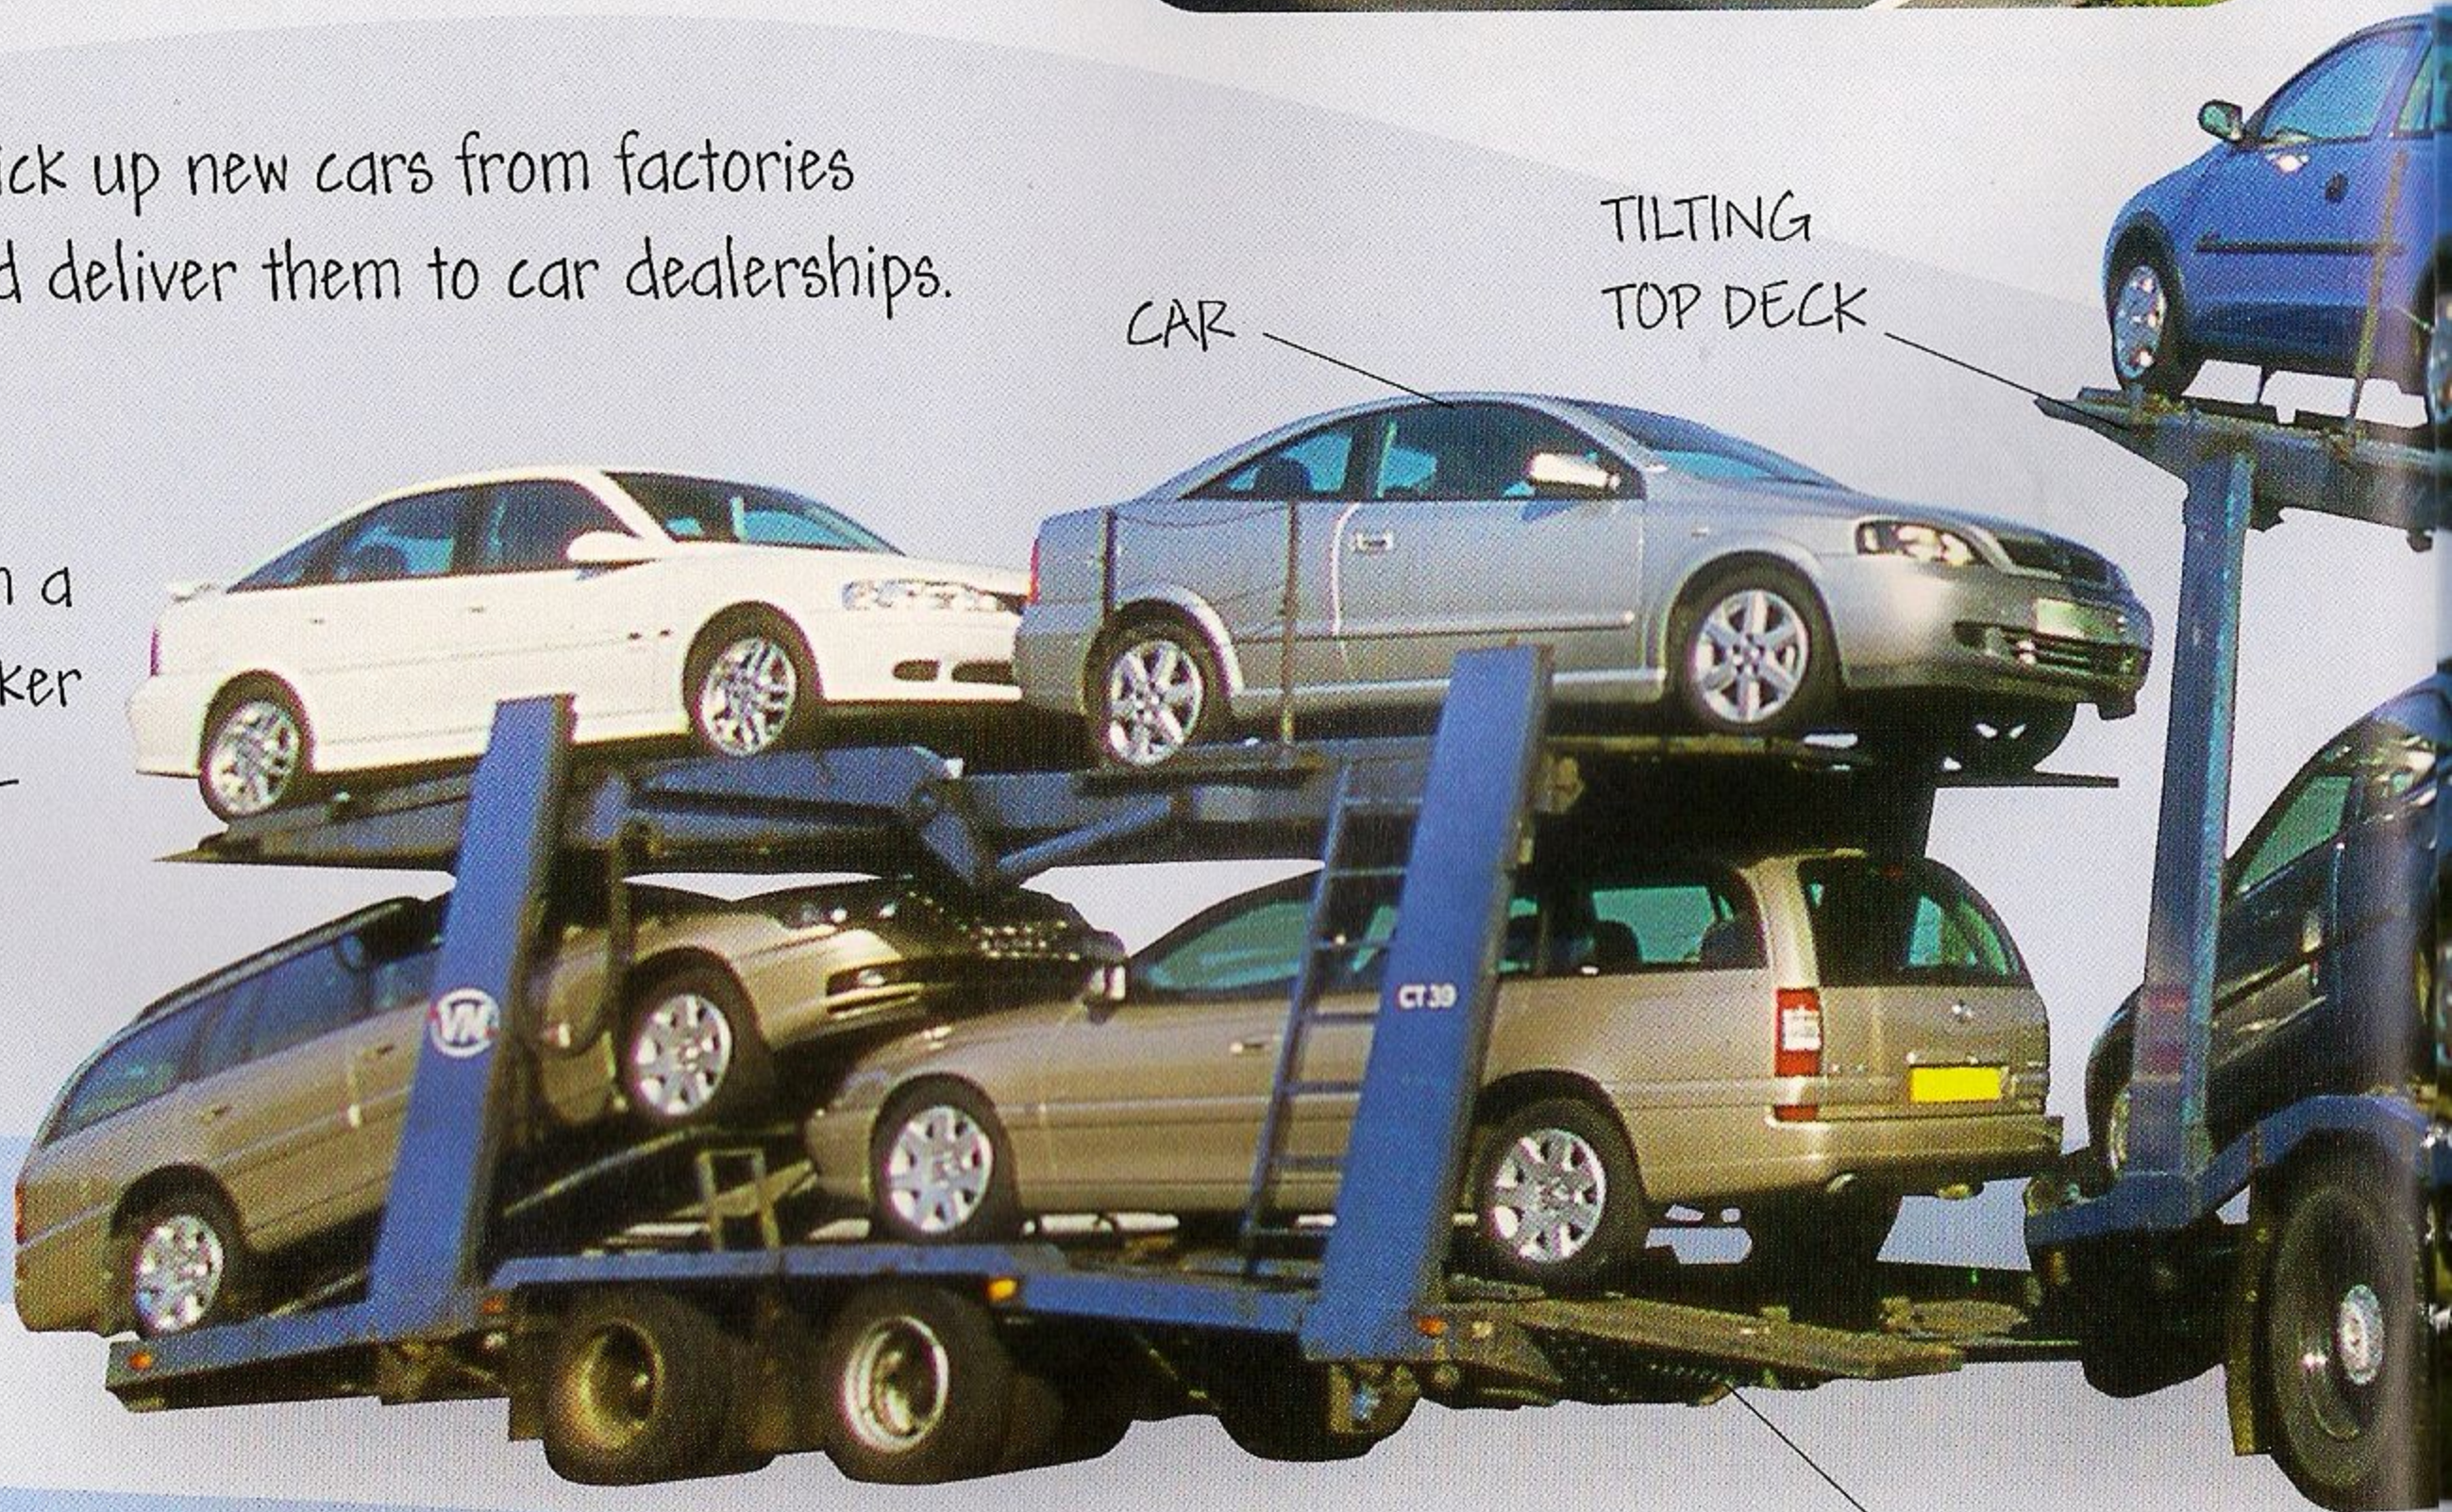

I AM A CAR TRANSPORTER

SEE HOW I GO!

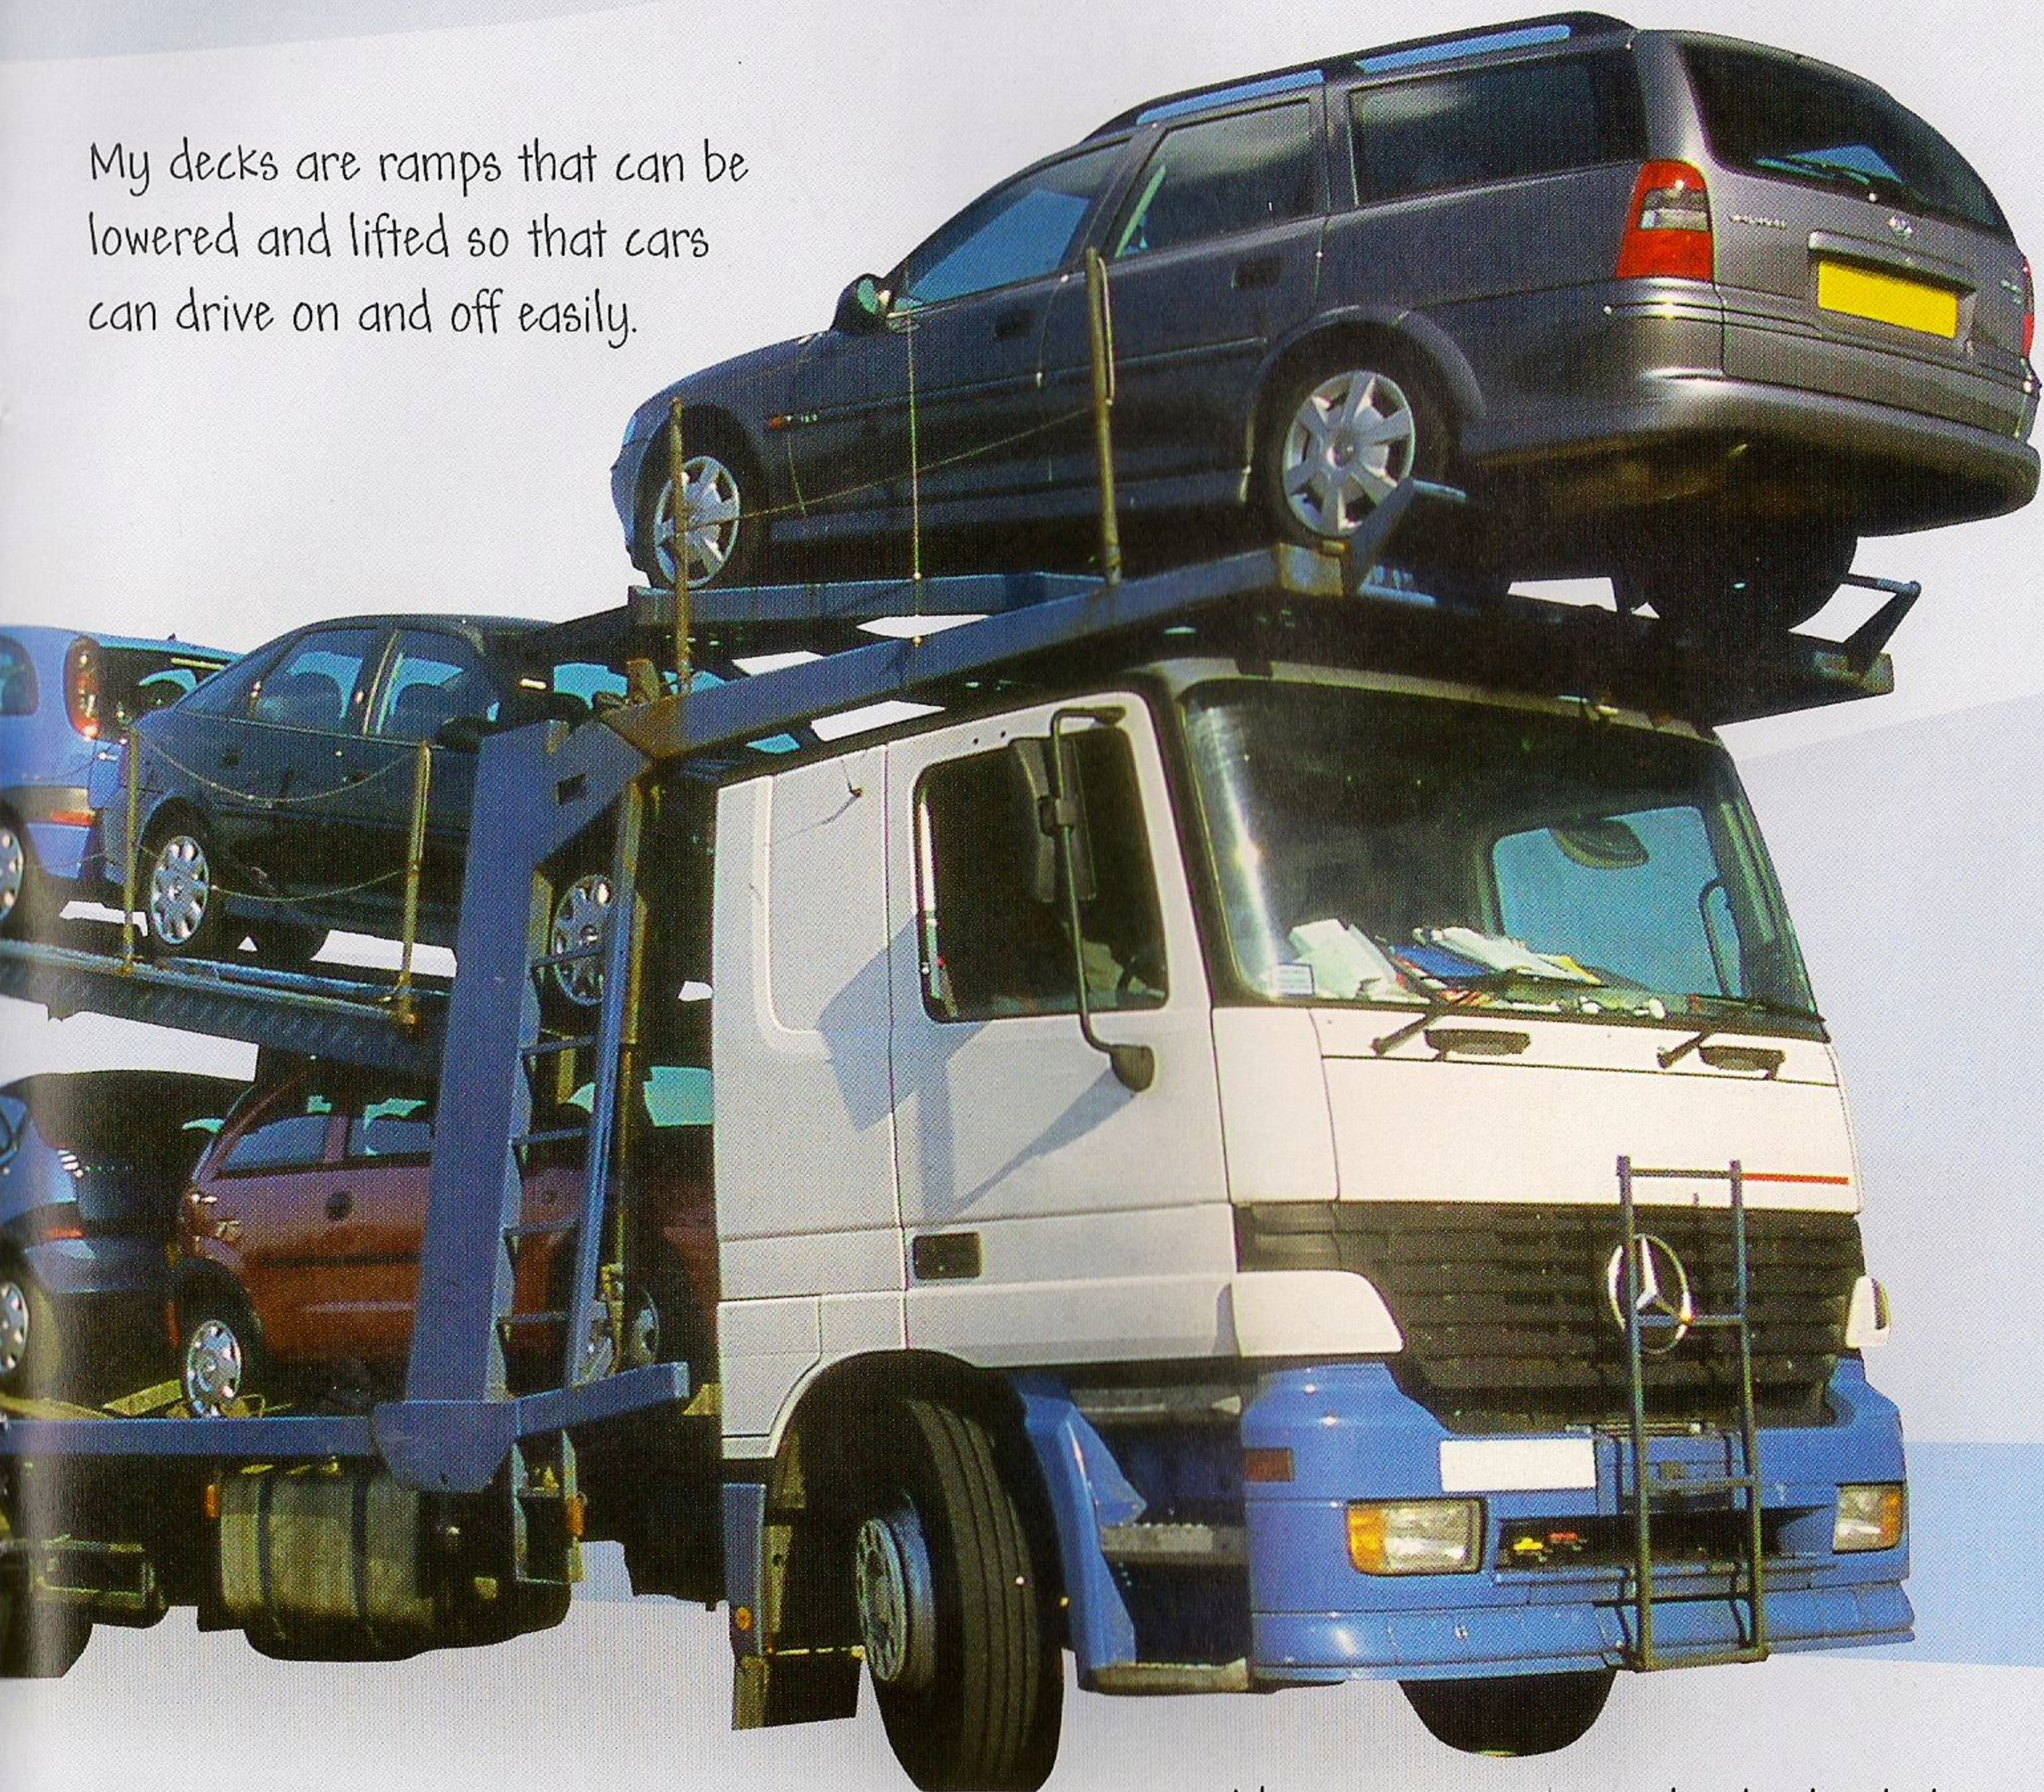

I pick up new cars from factories and deliver them to car dealerships.

Look at me, I am a long double-decker truck with a two-tier trailer.

I can carry 9 or 10 cars at a time — that's twice as many as a truck with a flat trailer can handle.

My decks are ramps that can be lowered and lifted so that cars can drive on and off easily.

I have to make sure they're loaded in the right order. Do you know why?

See how they go!
