# Bugs Are Best!

宇航出版社

Far away, there is a little planet.

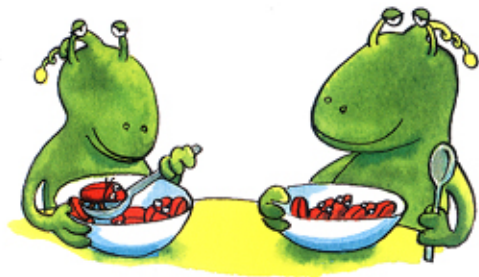

Prickly plants grow there.

Bugs eat the plants.

Aliens eat the bugs.

They eat red bugs for breakfast

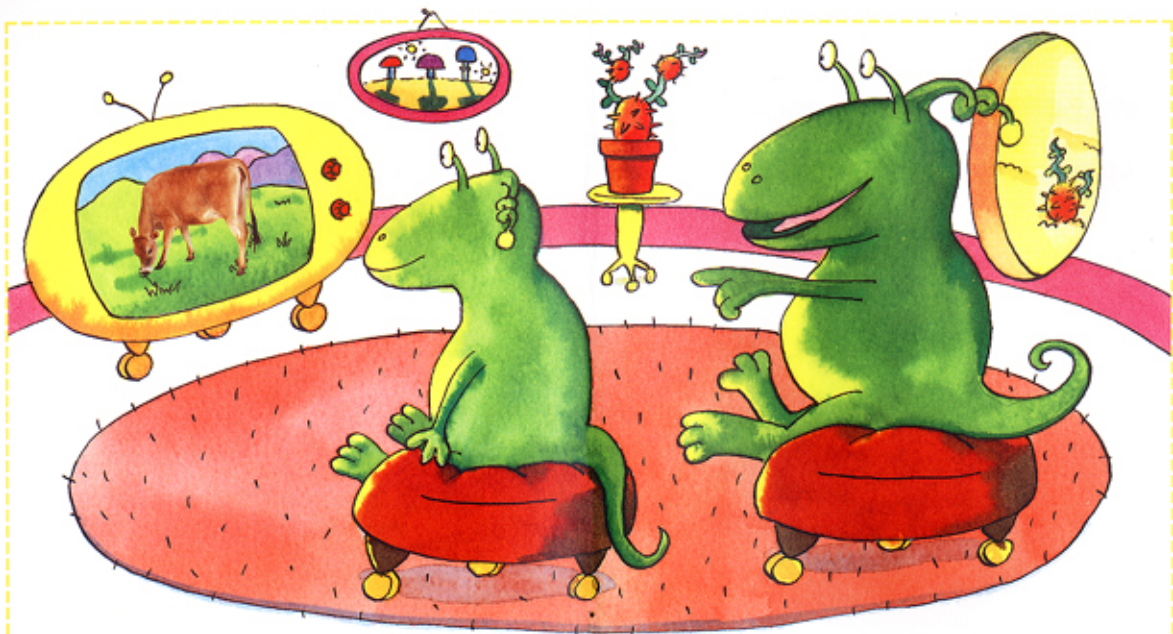

They eat blue bugs at supper time

and green bugs for lunch.

and spotted bugs at bedtime.

One day, two aliens were  
watching television.

“Let’s go and try that food,”  
said the big alien.

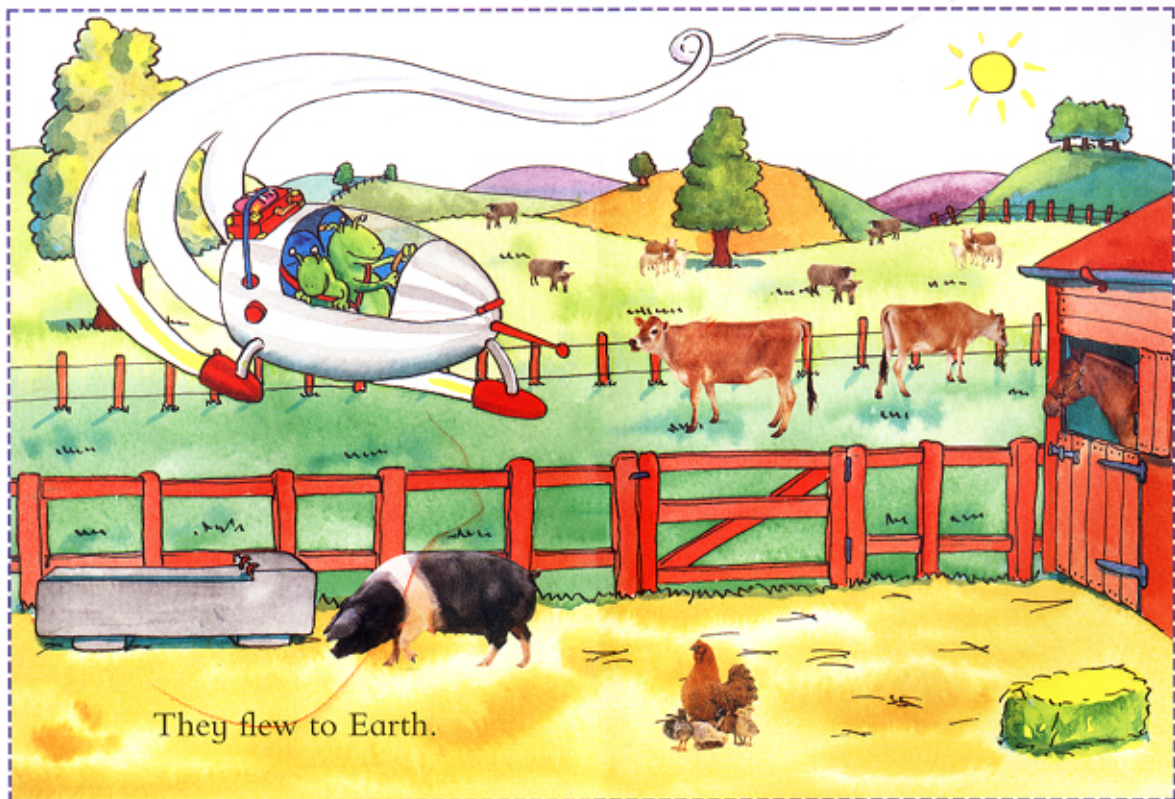

So the aliens got into a spaceship

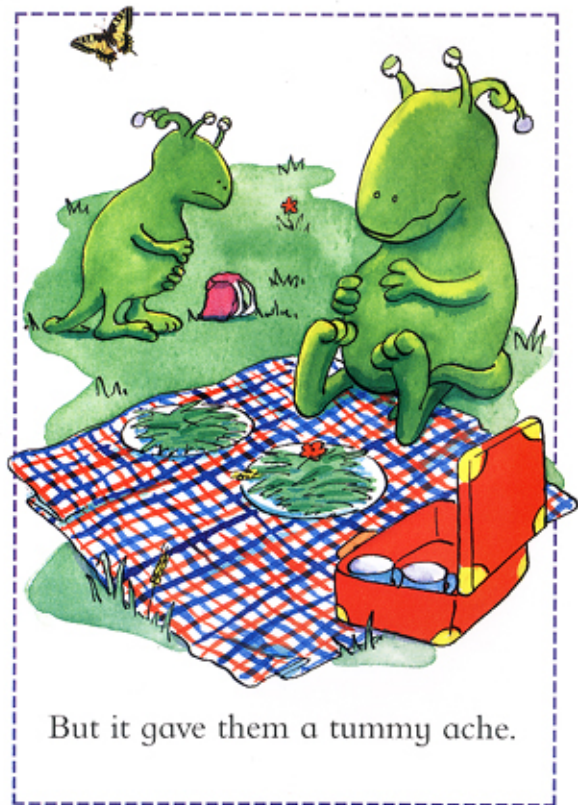

and flew off.

They flew to Earth.

They saw hens eating.  
"Let's try that food," they said.

But it made them sneeze.

Then they saw pigs eating.  
"Let's try that food," they said.

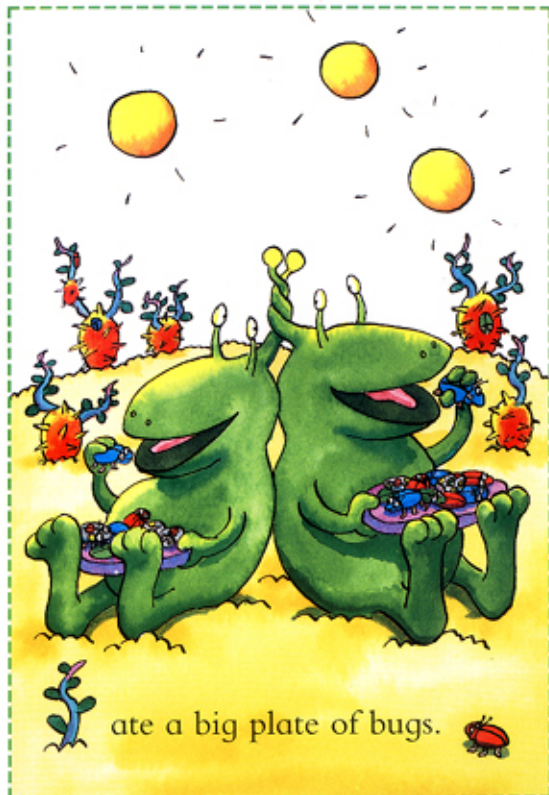

"Yuck!" they cried.

So they flew home and

ate a big plate of bugs.
