PUERTO RICO'S TOP 10

TOP 10 Puerto Rico's Highlights

Puerto Rico packs tremendous diversity into a relatively small space. From exquisite coral reefs and white-sand beaches to lush rain forests, desert-dry coastal plains, and a rugged mountain spine, this isle enraptures with physical beauty. Past and present intertwine too, as pre-Columbian sites, massive castles, and charming colonial buildings contrast with hip restaurants, hotels, and nightclubs. Spanish-speaking yet inarguably American in style, the people are equally diverse, reflecting a potpourri of bloodlines – indigenous, African, and European – and a creativity expressed in colorful culture and arts.

1 Old San Juan
This blue-cobbled historic district of restored colonial buildings is the jewel in the capital city's crown. Its delightful plazas, centuries-old cathedrals, and dramatic castles are well-preserved reminders of a bygone era (see pp8–9).

2 Castillo de San Cristóbal
This fortress, which has been restored to its former grandeur, has bulwarks looming over the shoreline, cannons, and other interesting exhibits (see pp10–11).

3 Condado
San Juan's lively beachfront is lined with trendy cafés and restaurants, fashionable boutiques, and high-rise hotels interspersed with parks (see pp12–13).

4 El Yunque
The only tropical rain forest within US territory offers great hiking along mountain trails. Waterfalls and coqui frogs are among the many lures of this natural paradise (see pp14–15).

5 Vieques

This island, off the east coast of Puerto Rico's main island, is surrounded by idyllic beaches. It has become a magnet for independent travelers seeking a laid-back lifestyle and trendy boutique hotels (see pp16–17).

6 Culebra

Boasting the most spectacular beach in Puerto Rico, this small island is popular with day-trippers and is easily reached by ferry. It also delights snorkelers and surfers (see pp18–19).

7 Parque de las Cavernas del Río Camuy

Only an hour's drive from the capital, the world's third-largest known cavern system is accessible through guided tours. Floodlights illuminate the dripstone formations (see pp20–21).

10 Museo de Arte de Ponce

This world-class museum displays artworks from the 14th to the 20th centuries, including works by Rossetti, Constable, and Reynolds (see pp26–7).

9 San Germán

The best-preserved colonial town outside Old San Juan retains its yesteryear mood. Historic buildings here include Puerto Rico's oldest church, which is full of interesting religious antiquities (see pp24–5).

8 Centro Ceremonial Indígena de Tibes

This pre-Columbian ceremonial site displays well-preserved *bateyes* (ball courts) and sacred petroglyphs. It is the perfect place to learn about ancient Taíno culture (see pp22–3).

Old San Juan

Old San Juan (*San Juan Vieja*) is the historic heart of Puerto Rico's capital city. This intimate quarter boasts an astonishing wealth of well-preserved castles, cathedrals, and convents, as well as colorful mansions and other important buildings spanning five centuries. The footsteps of friars and conquistadores seem to echo down cobbled streets and plazas that exude plenty of colonial charm. Easily walkable, the narrow, shaded streets of Old San Juan are lined with museums, hotels, restaurants, boutiques, and trendy bars. No museum piece, this lively quarter is a thriving community where families gather to enjoy the irresistible ambience.

Statue of an immigrant at Plaza del Inmigrante

Shorts are fine for exploring the old city, but should not be worn in churches or upscale restaurants. Women should cover their shoulders and dress modestly when entering churches.

The El Patio de Sam (see p64) is ideal for a cool drink, snack, or simple meal.

1 Casa Blanca
 Considered the oldest continually occupied structure in the western hemisphere, Casa Blanca (1521) (*below*) was built for Ponce de León (*see p30*). It now houses a museum.

Castillo de San Cristóbal 3

This massive fortress, built between 1634 and 1783, features seven convoluted lines of defence connected by moats and tunnels (*right*). It contains cannons as well as an interesting museum (*see pp10–11*).

2 Fortaleza San Felipe del Morro

This fortress (*main image*) guards the entrance to San Juan's harbor and took over 200 years to complete. Its stone ramparts rise six levels, and feature cannons that point out to sea. A museum displays military uniforms and weaponry.

4 Plaza de San José
This delightful cobbled square is dominated by a bronze statue of Ponce de León (*left*). The square's restaurants, bars, and cafés come to life at night and are great for people-watching.

5 Plaza del Inmigrante

A wide, cobbled square by the port, Plaza del Inmigrante features stunning Art Deco and Neo-Classical buildings, and a bust that commemorates all those who came to start life anew in Puerto Rico.

6 Paseo de la Princesa

This promenade (*below*) runs west from Plaza del Inmigrante. The Raices Fountain at its far western end celebrates the island's indigenous, African, and Spanish heritage.

7 Catedral de San Juan Bautista

The cathedral, completed in 1852 with a part-Neo-Classical, part-Baroque facade and restored in 1917, houses the tomb of Ponce de León. It has a beautiful parquet floor and a trompe l'oeil ceiling.

8 Plaza de Armas

A former parade ground, this leafy plaza is the city's most lively social gathering place by day. It has four statues (*right*) representing the four seasons, and is surrounded by elegant buildings.

Blue Cobblestones

Old San Juan is paved with oblong cobblestones that were brought over as ballast in Spanish galleons. Cast from furnace slag, they are tinted blue, unlike the gray- and red-tinted cobbles of English-speaking Caribbean islands. Although many streets have been paved over since, recent restoration has revealed the original cobbles anew.

9 Parque de las Palomas

Named for the pigeons that flock here, this park atop the city walls is home to Capilla del Cristo – a chapel with an altar that is adorned with silver *milagros* (offerings left in gratitude for favors granted by saints).

10 Instituto de Cultura Puertorriqueña

Housed in a grandiose Neo-Classical building, the institute has a magnificent museum and art gallery featuring exhibits from pre-Columbian times through the colonial and post-colonial periods.

TOP 10 Castillo de San Cristóbal

This enormous cliff-top fortress, built in stages between 1634 and 1783, covers 27 acres (11 ha) and is one of the largest Spanish castles built in the Americas. Towering 150 ft (45 m) above the Atlantic, this wonderfully preserved marvel of military engineering was connected to Fortaleza San Felipe del Morro (see p8) by bastions stretching along more than half-a-mile (1 km) of shore. Following the Spanish-American War (see p31), this fortress was occupied by the US Army until 1961. Now a UNESCO World Heritage Site, it is managed by the US National Parks Service, whose rangers lead free tours.

The interior of the fort's officers' quarters

Watch for interesting re-enactments in period uniforms, such as the British invasion of 1797, by The Fixed Regiment of Puerto Rico living history group (www.puertorico1797.com).

Yeyo's, near the fortress at Calle San Francisco 353 (787 725 9362), is a tiny working-class restaurant serving tasty *criolla* dishes, such as *mofongo* (see p50), at bargain prices.

1 Entrance Gate
 Approached via a long, sloping ramp that curves through almost 90 degrees, the arched entrance gate (*below*) dates from 1783 and is topped by a decorative cornice with twin globes.

Devil's Sentry Box **3**
 The lonesome Garita del Diablo (*right*), built in 1634, overhangs the ocean at the tip of the triangular Fuerte del Espigón (Fort of the Point). Guards were stationed here to keep watch for approaching enemy intruders.

2 Plaza de Armas
 The fortress's parade ground was completed in 1783. It is lined with load-bearing casements which were used as barracks, powder magazines, and officers' quarters fronted by a loggia (columned balcony).

4 North Battery

This battery took its present form in the 1890s, when gun emplacements were added in preparation for the Spanish-American War. The officers' quarters were added later.

5 Chapel

The simple Capilla de Santa Bárbara, on the west side of Plaza de Armas, is dedicated to Santa Bárbara (left), the patron saint of artillerymen, to whom troops prayed for their safe-keeping.

6 Main Battery

This battery is the highest of seven lines of defence intended to protect the city from a land invasion. In 1797, its cannons (below) were instrumental in repelling a British invasion led by Sir Ralph Abercrombie.

7 Barracks

The barracks, on the east side of Plaza de Armas, were built atop five massive cisterns. Even today, the soldiers' uniforms hang in the rooms, just as they did in the 18th century.

Haunted Sentry Box

Puerto Rican legend has it that the Devil's Sentry Box is named for a sentry who was snatched by the devil, and left behind only his musket and uniform. The truth seems to be that the soldier craftily abandoned his post for his loved one, but many locals still believe that the *garita* is haunted.

8 Ordóñez Cannon

This artillery piece, developed by Spanish Captain Salvador Díaz Ordóñez, fired the opening shots of the Spanish-American War on May 12, 1898, against the USS *Yale*.

9 Great Moat

The 16-ft (5-m) thick walls rise over a wide moat intended to slow the advance of invaders and expose them to deadly fire from the sentry boxes above.

Tunnels

An extensive tunnel system (right) connected the center of the fort to the defensive elements and allowed protected movement of troops and artillery. The tunnels were mined and could be detonated to deny the enemy access.

TOP 10 Condado

The fast-moving metropolis of San Juan is at its most glamorous in Condado, a beachfront zone that extends east from the old town along miles of shorefront lined with condominiums, hotels, and casinos. Condado melds into two other beach neighborhoods, Ocean Park and Isla Verde, forming an upscale residential district. This bustling area, which occupies a slender isthmus wedged between the Atlantic Ocean and Laguna del Condado, teems with Art Deco and modernist structures. This is the place to be on weekends when the young and young-at-heart flock to sun themselves by day and to party by night.

Avenida Ashford

⚠ Be cautious where you swim. Many parts of the beaches are rocky, and some areas have dangerous undertows. Ask your hotel concierge for local conditions.

🍷 When you want to splurge, dine at Tangerine (see p65) – try the signature Coco-Nuts martini.

1 Beaches

Unfurling along more than 5 miles (8 km) of shorefront, the talcum-white beaches of Condado draw locals on weekends to sunbathe, kite-surf, and mingle beneath the palms (above). Most of the beaches have food stalls.

2 Avenida Ashford

This major thoroughfare runs parallel to the shore and is San Juan's tourist strip. The road is lined with towering high-rise condominiums, hotels, and upscale boutiques.

3 Watersports

The breezy beaches of Condado are ideal for watersports. Windsurfers (left) skim the waves here, kite-surfers perform aerial acrobatics, and parasailing (see pp36–7) is a fun way to get a bird's-eye view of the coast. Laguna del Condado is good for kayaking.

4 Laguna del Condado

Remnant mangrove forests line the shores of this tidal saltwater lake inland of Condado. Worshippers of the goddess Yemayá baptize themselves by plunging backwards into the lake's waters on June 23 each year.

5 Juan Bobo Statue

This statue in Parque Antonia Quiñones portrays a legendary Puerto Rican *jibaro* (farmer), shown trying to carry a basket of water (left). The park is a good place to get a taste of local life.

6 La Ventana al Mar

Lawns, contemporary sculptures, and a fountain make this waterfront plaza an attractive setting for the free folkloric performances held here.

7 Art Deco Architecture

Art Deco flourished in San Juan from 1930 to 1950, and Condado boasts many fine architectural examples (above), especially along Avenidas Ashford and Magdalena.

8 Fine Restaurants

San Juan is lined with fine restaurants offering a variety of cuisines (left). Many of the city's best restaurants are in Condado and Isla Verde, where upscale hotels lead the way (see p65).

9 Ocean Park

Some of the area's best beaches are found in this classy residential neighborhood. Favored by beach-going youngsters, Ocean Park is also the setting for some of the trendiest hotels.

10 Casinos

Many deluxe hotels here have casinos, some of which are quite plush. Patrons, who must be at least 18 years old to enter, get dolled up in their *Miami Vice* best for a fun night out.

TOP 10 El Yunque

The 44-sq mile (114-sq km) El Yunque National Forest, formerly the Caribbean National Forest, is the only tropical rain forest within the US national park system. The rain-sodden wilderness rises to an elevation of 3,533 ft (1,075 m) at its highest point, Cerro El Toro, and features various ecosystems, including mountain cloudforest and dwarf forest on the highest slopes. The park has miles of hiking trails and spectacular waterfalls plunging down steep ravines. The region offers hikers some of the best bird-watching and wildlife-viewing on the island.

La Mina Trail signage

4 When picnicking, carry along your rain gear and use only designated sites. Avoid picnicking near forest streams due to the potential danger of flash floods.

5 The picnic sites have barbecue pits but you'll need to bring your own charcoal and meat to grill.

1 El Gran Portal Rain Forest Center

The main visitor center offers splendid interactive exhibits (*below*) on local geology, geography, and ecosystems. Pick up maps and literature on tropical forests here.

3 La Coca Waterfall

This is the first major attraction you come across in El Yunque. La Coca Waterfall (*right*) features a beautiful cascade tumbling 85 ft (26 m) onto boulder rocks. These can be slippery, so avoid the temptation to clamber.

2 Tropical Rain Forest

Various types of subtropical rain forest (*main image*) carpet the lower- and mid-level slopes of El Yunque, with trees such as mahogany towering up to 164 ft (50 m). Their spreading crowns form a dense, broad canopy.

4 El Yunque Trail For the best views over the park (weather permitting), take this 2½-mile (4-km) trail (left) from the Palo Colorado Visitor Center. It climbs steeply through various ecosystems to El Yunque's summit, Cerro El Toro.

5 Dwarf Forest

Found at elevations above 3,280 ft (1,000 m), this elfin woodland is sodden by mists. The stunted trees rarely exceed 12 ft (3.5 m) in height.

6 Sierra Palm Visitor Center

This center displays a video introduction to the local ecosystems. Endemic Puerto Rican parrots are often seen outside the El Yunque Restaurant (above).

Birds 8

A fabulous venue for bird-watchers (see p36),

El Yunque is home to many endemic bird species, including the endangered Puerto Rican parrot (right), the Puerto Rican lizard cuckoo, and the elusive elfin wood warbler.

7 La Mina Trail

Follow the river along this downhill trail from the Palo Colorado Visitor Center to reach La Mina waterfall. It is one-way, but links with other trails.

What's in a Name?

The region was originally called *yuque*, after the Taíno god, Yuquiyu. Spanish conquistadores confused this with *yunque*, their word for anvil, and understandably so – the park's tallest peak, Cerro El Toro, is flat-topped and resembles an anvil when seen from a distance.

9 Picnics

Local families flock here on weekends and holidays to hike and picnic. Shaded benches, potable water, and rest rooms are located at the Palo Colorado and Sierra Palm Visitor Centers.

10 Coquíes

These little frogs (below) are the national emblem and are named for their two-note chirp – “ko-KEE” – heard here at night. Puerto Rico has 16 species (see p54).

TOP 10 Vieques

Vieques is the largest of the 24 isles and islets comprising the Spanish Virgin Islands, just off the east coast of Puerto Rico. Culturally and politically part of Puerto Rico, this tropical paradise moves to its own lackadaisical pace, drawing tourists seeking off-the-beaten-track charm. Hotels here are small-scale and trendy, and all-inclusive resorts are entirely absent. Vieques Wildlife Refuge offers nature-lovers plenty of thrills, not least as a nesting site for marine turtles. Much of the island is off-limits, following five decades in which it was a bombing range for the US Navy. However, its newly accessible beaches are among the most gorgeous in Puerto Rico.

Laguna Kiani mangroves

A great way to explore the island is by bicycle. Rent a bike from Vieques Adventure Company (see p105), or join a guided cycling tour.

While exploring Isabel Segunda, break for lunch at Bravo Beach Hotel (bbh) for the best of fine dining with a view (see p99).

1 Esperanza

This former sugar port, now a sleepy hamlet, overlooks a scenic bay that is popular with yachters (*main image*). Its scrub-covered, shorefront hills are home to several boutique hotels.

2 Isabel Segunda

Most of the isle's 30,000 or so people live in this small town, which remains charmingly old world and has little traffic. The town's lighthouse (*left*), built in 1896, adds to its charm.

Fort Conde Mirasol and Vieques Art & History Museum 3

This hilltop fort, built in the 1840s, was the last Spanish fort constructed in the Americas. It now houses the Vieques Art & History Museum, which has displays from pre-Columbian times through the island's colonial years (*right*).

4 Bahía de Fosforescente

This bay (*above*) seems to come alive at night – bioluminescent micro-organisms glow when the water is disturbed. Go on a kayak trip to see for yourself (*see p110*).

5 Vieques Wildlife Refuge

Covering 28 sq miles (72 sq km), this preserve protects beaches, coastal lagoons, mangrove wetlands, and upland semi-deciduous forests.

6 Green Beach

This strip of white sand fringes turquoise, coral-filled waters that are great for snorkeling and kayaking (*below*). Beware currents that can pull swimmers into the Pasaje de Vieques channel.

7 Blue Beach

Once a setting for the US Navy's amphibious assault manoeuvres, this stunning beach (*below*) is now entirely peaceful. Rent a kayak and row out to a serene cay.

8 Siddhia Hutchinson Art Gallery

The studio-gallery (*left*) of local artist Siddhia Hutchinson is a good place to purchase prints, textiles, and ceramics inspired by the natural world of Puerto Rico.

Red Flag Day

Vieques was used for decades by the US Navy for gunnery practice. On days when shooting was in progress, red flags were hoisted to warn locals that the beaches were off limits. The residents protested for years, and the disagreement came to a head in 1999 after a local guard was killed by an errant bomb. The bombardment ceased in 2003 when the navy pulled out of Vieques.

9 Scuba Diving

Dive sites off the south shore include Blue Tank Reef, a 2-mile (3-km) coral reef in clear waters, and Las Tres Rocas, where the reef is packed with corals and sponges and inhabited by moray eels.

10 Laguna Kiani

This wetland ecosystem comprises a large mangrove forest. Manatees (*see p54*) can sometimes be seen in the water here, and bulldog bats skim the surface for fish at night.

TOP 10 Culebra

The second largest of the Spanish Virgin Islands, this somnolent crab-claw-shaped island is renowned for its scintillating beaches, including indisputably Puerto Rico's finest: Playa Flamenco, a popular weekend getaway for locals from the main island, who arrive by ferry from Fajardo. The island is indented with pristine, sandy coves where marine turtles come ashore to lay eggs – an annual ritual that also occurs on the unpopulated outlying isles that make up much of Culebra National Wildlife Refuge. Culebra's many offshore coral reefs are a delight for snorkelers and divers to explore.

A souvenir kiosk at Dewey

Fight the temptation to go hiking off the beaten track and stick to well-trodden trails instead – Culebra is littered with unexploded ordinance, courtesy of the US Navy.

The Dinghy Dock (787 742 0233) is a good place to mingle with locals and boaters over a cool beer and fresh, delicious seafood.

1 Dewey

The island's only town is named for the US admiral who seized Culebra in 1898. Visitors – both male and female – are expected to wear a shirt while exploring the town, on pain of a fine.

2 Playa Flamenco

This broad sweep of pure-white sand draws day-trippers from the main island on weekends. The sensational beach is washed by powerful ocean waters good for surfing. World War II Sherman tanks (*below*) add interest.

3 Marine Turtles

Four species of marine turtles – green, hawksbill, leatherback, and loggerhead – crawl ashore to nest from April through August on the beaches, notably along the north shore and on Culebrita.

4 Playa Soldado
The coral reef at this rocky beach, a snorkeler's delight, is only 66 ft (20 m) from shore and 10 ft (3 m) beneath the calm surface (*above*).

5 Playa Carlos Rosario

This beach, connected to Playa Flamenco by a hiking trail, has a coral reef within a few feet of shore and is popular with yachters. Water-taxis run here from Dewey.

6 Playa Brava

A remote beach accessible by dirt road from the southeast side of the island's airport, Angry Beach is named for the rough waves that pound ashore. The sands are protected as a marine turtle nesting site.

7 Culebra National Wildlife Refuge

Covering a quarter of the island, this 245-sq mile (627-sq km) wildlife refuge protects breeding habitats of marine turtles, manatees (*above*), and avian species, such as red-billed tropic birds.

8 Cayo Luis Peña
A craggy coral cay, Cayo Luis Peña is an important habitat for seabirds, including red-billed tropic birds. It is enclosed by a fringing reef, with sheltered waters that are excellent for snorkeling.

9 Culebrita
This tiny uninhabited isle, half-a-mile (1 km) east of Culebra, has beautiful beaches shelving into electric-blue waters. It is perfect for picnicking and snorkeling. Water-taxis (*below*) will ferry you from Dewey.

10 Bonefishing
The reef-protected, crystal-clear, sand-bottomed shallows off Culebra are an angler's delight. Silvery, well-camouflaged bonefish hook easily, but once caught on the line, put up a fight to remember.

Leatherback Turtles

The critically endangered leatherback turtle is found in all the world's oceans, and travels great distances using its thick layer of fat for insulation in cold waters. Unlike other turtle species, it has no external skeleton or shell. Its streamlined body is covered by a leathery skin, hence the name. Females lay their eggs on tropical beaches, like those of Puerto Rico.

TOP 10 Parque de las Cavernas del Río Camuy

This park comprises part of the world's third-largest cave system, *Cavernas del Río Camuy*, which has more than 220 underground caverns. One of the chambers is so large, it could swallow a 30-story building. Spotlights illuminate fantastic stalactites, stalagmites, and other dripstone formations, some of which are etched with pre-Columbian Taíno motifs. Bats flit about overhead, tarantulas crawl underfoot, and a blind endemic fish species swims in the underground river, *Río Camuy*. These caves were only discovered in the 1950s and are today under the care of Puerto Rico's *Compañía de Parques Nacionales*.

The walkways can get slippery, so wear comfortable shoes with good grip. A sweater or light jacket can come in handy against the chill of the caverns.

The visitor center has a snack bar and the gift shop sells snacks. A campsite in the park has toilets and showers.

1 Cueva Clara de Enpalma

This massive cavern soars 170 ft (52 m) high and extends lengthways for more than 1,970 ft (600 m) to a vast sinkhole – the *Sumidero Enpalma* (below). Concrete paths snake along the cavern's floor, providing a fascinating loop trail.

Dripstone Formations 3

Many of the stalactites (right), stalagmites, and other calcite formations in the caves resemble familiar shapes, such as animals and church organs. Visitors will have fun identifying the forms, some of which are floodlit.

2 Taíno Pictographs

Ancient indigenous people daubed symbolic spiritual figures onto the cave walls using mixtures of charcoal, bat droppings, and animal fat. These have survived millennia thanks to the natural humidity and coolness of the caverns.

4 Trolley Ride

Your visit begins with a ride in a trolley (*above*) that snakes downhill past bamboo and banana trees to the cave entrance. The return journey passes by the Tres Pueblo Sinkhole.

5 Tres Pueblo Sinkhole

This massive depression (*main image*) plunges 400 ft (120 m) and was formed when the ceiling of an underground cavern collapsed. The Río Camuy at its base can be seen emerging from one cavern and entering another.

6 Bats

More than 100,000 bats roost in the caves, where they cling to rooftop crevices by day, before swarming out in hordes at dusk to forage for insects.

7 Río Camuy

This river weaves its way through the cave system. It has been carving out the subterranean landscape for millions of years, assisted by rainwater that seeps into the limestone, weakening the structural joints (*below*).

8 Tarantulas

These huge, hairy, long-legged spiders are numerous in the cool, damp interior of the caves. They play an important part in the local ecology and are harmless unless provoked.

9 Cueva Catedral

This cavern (*below*) contains more than 40 pre-Columbian pictographs. Reaching the entrance requires a rappel down a rock wall and should be arranged with local tour operators.

10 Visitor Center

Information panels are on display in the timber-and-fieldstone visitor center. A short film on the cavern system and its formation is shown prior to the guided tour.

Sacred Caverns

The Taíno never lived in caves, which they considered sacred portals to the spirit world. They drew pictures of fearsome gods to guard the entrances, and only high-ranking community figures, like shamans, were allowed to enter. These people believed that their ancestral spirits lived in caves and only emerged at night to eat fruits. Legend has it that the spirits were so occupied in gorging themselves that they were still outside the caves when the sun came up, turning them into human beings.

TOP 10 Centro Ceremonial Indígena de Tibes

This archaeological site in the hills on the northern outskirts of Ponce is the most important pre-Columbian site in Puerto Rico. Remarkably, it was only unearthed in 1975, when devastating floods exposed extensive Taíno ruins that notably include bateyes (ball courts), burial grounds, and granite boulders etched with petroglyphs. The ruins date back about 2,000 years and form the only known site also occupied by the Igneris – a pre-Taíno tribe about which little is known, except that they were overrun by the Taíno (see p30) in around AD 1000. The site is still being excavated.

Main entrance of the park

Be sure to make a reservation before you visit the park, as tours often sell out and you cannot explore the site unaccompanied.

A small café here serves snacks. There are also picnic benches by the river, so consider bringing your own lunch to enjoy under the shade trees.

1 Zemis
These sacred effigies of Taíno gods (*below*), in the form of wooden and stone statuettes, were believed to be empowered. *Zemis* were created and worshipped by the Taíno to bless the land with good harvests, and its people with fertility and health.

2 Petroglyphs
The Taíno etched large rocks here with depictions of spiritual figures, including one of a bat – the Taíno messenger of death. Many of the rocks are believed to have been transported from far away.

Bateyes
These plazas of paved stone (*right*) were used for ball games and ceremonial dances.

Tibes has 12 *bateyes* – each is about the size of a basketball court and is ringed by large boulders.

4 Museum

The small on-site museum's exhibits (*right*) include axe-heads, pottery, *zemis*, and even a skeleton, all of which were excavated here. A 30-minute video helps put the displays in perspective.

5 Guided Tour

A 90-minute guided tour takes you through subtropical forest, a replica village, and the *bateyes*, as the guide explains aspects of indigenous life. Re-enactments in costumes (*right*) are also occasionally staged.

6 Ceramics

Hundreds of interesting Igneri and Taíno ceramics have been unearthed here, including pots (*below*), *zemis*, and headless figures with their hands tied behind their backs, suggesting execution.

7 Replica Village

A reconstruction of a *yucayeque* (Taíno village) (*main image*) features a rectangular *caney* (the village chief's house) and circular, thatched *bohíos* (huts that were used by the villagers). These help visitors understand the Taíno way of life.

Ball Games

The Taíno played violent ritual ball games in which competing teams could use any part of their body, except their hands. The balls were solid and players wore protective pads. The games were played for sport as well as for diversion, religious purposes, and even to make judicial decisions, including whether prisoners of war should be freed or killed.

8 Botanical Garden

Tibes features a garden of plants and trees that were used by the Taíno. These include yucca, tobacco, and corn, as well as the local *guanábana*, *higüero*, and calabash, a large gourd (*left*).

9 Star-Shaped Plaza

One of the *bateyes* is, as its name implies, shaped like a star. It is thought to have been used as an astronomical compass, with stones laid in the form of triangles corresponding to cardinal points in the universe.

10 Cemetery

The main *batey* was built atop a cemetery, where 186 skeletons from both the Igneri and Taíno cultures were found. Most were curled into a fetal position, in the belief that they would be reborn.

TOP 10 San Germán

This quaint hillside town, known locally as “Ciudad de las Lomas” (City of the Hills), was founded in 1573 and boasts the island’s most intact colonial core outside Old San Juan. Its leafy plazas are surrounded by exquisite colonial buildings in eclectic architectural styles – reminders of the wealth generated by the 19th-century coffee boom. In all, the 36-acre (15-ha) historic core has 249 buildings listed on the National Register of Historic Places, including a 400-year-old church, Iglesia Porta Coelí, containing the nation’s most important religious art museum. The town is named after Germaine de Foix, the second wife of King Ferdinand of Spain.

The Museo de Arte Religioso, within the Iglesia Porta Coelí, exhibits religious statuary, precious paintings (right), and the nation’s largest collection of santos (statues of saints) (see p33).

1 Plaza Santo Domingo

The elongated Plaza Santo Domingo, once a marketplace, is paved with red brick and lined with historic buildings and attractively restored, Victorian-inspired, 19th-century mansions.

4 Casa Morales

The Victorian-inspired photogenic Casa Morales (*main image*), a private residence built in 1898, stands on a corner of Plaza Santo Domingo. Its design reflects the US influence on the island.

5 Plaza Francisco Mariano Quiñones

This oblong square, a popular spot for locals to gather and gossip, features topiary and is graced by wrought-iron benches and an 18th-century church.

6 Casa Lola Rodríguez de Tió

Built in the 17th century, this mansion was occupied by family members of explorer Ponce de León (*see p30*), and by patriot-poet Lola Rodríguez de Tió (1843–1924), who designed the Puerto Rican flag.

7 Iglesia de San Germán de Auxerre

This Neo-Classical church, which rises over Plaza Francisco Mariano Quiñones, was completed in 1848. It boasts an impressive crystal chandelier (*below*) and trompe l'oeil.

8 Evening Paseo

Locals gather at dusk to promenade along the town's twin plazas, both of which have cobblestone streets and shady trees that lend San Germán a romantic yesteryear air.

9 Casa Acosta y Forés

Considered one of the most beautiful homes in Puerto Rico, this mansion exemplifies the island's Art Nouveau architecture era with its Victorian-inspired elements.

Pirate Past

Supposedly, many of San Germán's wealthy inhabitants derived their income as pirates, or as wreckers who lured ships onto the rocks, although this is more apocryphal than fact. The township was founded in 1511 at the mouth of the Río Guaorabo, but attacks by French corsairs in 1528, 1538, and 1554 forced the residents to re-establish their town at the present site.

10 Casa Juan Ortíz Perichi

Built in 1920, this home, which is one block south of Plaza Santo Domingo, is a classic example of ornamental architecture and features elegantly curved balconies and a pitched roof (*above*).

TOP 10 Museo de Arte de Ponce

The superb exhibits at this world-class museum range from works by Gainsborough, Delacroix, and Gustave Moreau to avant-garde Puerto Rican artists and span Western art from the Middle Ages to the 19th century, with most major schools represented. The permanent collection comprises more than 3,000 paintings, sculptures, and works on paper. Much of it was amassed over four decades, beginning in 1957, by Don Luis A. Ferré, former governor and patron of the arts. The museum, which boasts 14 galleries, also features temporary exhibitions and works on loan. In 2008 it closed for a two-year, multi-million-dollar renovation.

1 The Building
Completed in 1965, the Museo de Arte de Ponce is housed in a two-story modernist structure designed by Edward Durrell Stone. It has hexagonal galleries with ceilings of hexagonal skylights.

2 Vestibule
The museum's lobby features a light-filled circular atrium with a glazed coral stone floor. The upper level is accessed by two sweeping staircases (below). The centerpiece, an eye-catching sculpture by Rodin, gives visitors a taste of things to come.

3 Temporary Exhibits
The museum has a full calendar of visiting exhibitions showcasing works that are rarely on view to the public. These have included an exhibition on muralist Diego Rivera (1886–1957), as well as *The Age of Rodin* and *The Santos Tradition in Puerto Rican*, which displayed carved wooden saints (see p47) – the hallmark of Puerto Rican popular art.

4 The English Room

The works of the British school in this gallery are superb and include pieces by the Pre-Raphaelites, such as Rossetti and Edward Burne-Jones, as well as works by Lord Frederic Leighton, Reynolds, Constable, and the portrait artist Gainsborough.

5 Flaming June

The museum's sensual showpiece (*above*), *Flaming June* is Lord Frederic Leighton's Classicist-inspired, Victorian-era masterpiece of a damsel in a flaming orange robe languorously basking in the Mediterranean sun.

6 Puerto Rican Art

Puerto Rico's finest artists, such as José Campeche and Francisco Oller, are well represented in works spanning the 18th century to the present day.

7 Italian Art

The museum's many works by Italian masters occupy three galleries and concentrate on the Baroque period, with a fine collection of Florentine School pieces by Bernardo Strozzi (*above*), Francesco Furini, and Luca di Tommè.

8 North American Art

Frederic Edwin Church's *Morning in the Tropics* (1872) and *The Glass Blowers* (1883) by Charles Frederick Ulrich are highlights of the museum's excellent North American art collection.

9 Sculptures

Only a fraction of the museum's 800-plus sculptures (*left*) are currently displayed, including a magnificent collection of works by Auguste Rodin (1840–1917). His notable piece, *Apollo Crushing the Serpent*, was acquired by the museum in 1962.

Edward Durrell Stone

A renowned American architect, Stone (1902–78) was an early exponent of modernism and later of the post-modernist style. His first major commission was the lobby and grand ballroom of the Waldorf-Astoria hotel in New York City, where he also designed Radio City Music Hall and the Museum of Modern Art. He is also acclaimed for Washington, D.C.'s Kennedy Center for the Performing Arts.

10 Guided Tours

Guided tours are offered in both English and Spanish, and add immeasurably to your understanding of the museum's wide-ranging collections. Please note that reservations are required.

TOP 10 Moments in History

1 First Settlers

It is thought that Puerto Rico's earliest settlers may have arrived from Florida about 5,000 years ago. These hunter-gatherers were later displaced by the Igneris, an Arawak tribe from the Orinoco basin of South America.

2 Taíno Arrival

After a long migration up the Caribbean chain, the Taíno people arrived on the island, which they called Borinquen, in around 500 BC. This peaceful society lived on fishing and farming, worshipped gods of nature, and lived in villages led by chieftains.

3 Columbus' Arrival

The Genoese explorer first set foot on the island during his second voyage in 1493, and christened it San Juan Bautista. His discovery led to Spanish rule of the island and the rapid enslavement of the Taíno. By 1508, the island was renamed Puerto Rico – Rich Port – by conquistador Ponce de León.

A mural depicting Columbus' arrival in Puerto Rico

4 San Juan Founded

In 1521 the first Spanish settlement, Caparra, was abandoned and Ponce de León established a new town on a peninsula that protected a huge bay. San Juan was constantly under pirate raids and was briefly occupied by English forces in 1598. Fortifications were added to safeguard the port.

5 Haitian Rebellion

A slave rebellion in Haiti in 1791 led to the demise of the island's French sugar trade. Fears of a similar uprising in Puerto Rico prompted Spain to loosen the island's restrictive trade laws, resulting in an economic boom as US investors poured money into the sugar industry.

6 El Grito de Lares

The *criollo* (island born) craved independence from Spain, but nationalist aspirations were brutally suppressed. *Independentistas* launched "The Cry of Lares" (see p68) in September 1869, which resulted in liberal reforms.

7 The Fight for Autonomy

In 1895 Puerto Rican exiles allied with Cuban nationalists during Cuba's second war of independence from Spain. A liberal government took over in Spain and

Fiftieth anniversary as a US Commonwealth

Luis Muñoz Rivera petitioned for Puerto Rican autonomy. On July 17, 1898 an independent legislature convened.

8 US Take-Over
Covetous of Spain's colonies, the US found a pretext to declare war on the country on April 25, 1898. San Juan was bombarded by US warships and marines landed at Guánica. Spain sued for peace and the US took control of Puerto Rico.

9 Citizenship Granted
US investors poured money into Puerto Rico, which was ruled by governors imposed by Washington. Although Puerto Ricans were granted US citizenship in 1917, self-government was denied, spawning a nationalist movement that culminated in an assassination attempt in 1950 against President Truman.

10 Commonwealth Status
On July 25, 1952, the island became the Commonwealth of Puerto Rico, with its own anthem, flag, and judiciary. Islanders, however, could still not vote for the US president. The economy subsequently witnessed a boom-and-bust cycle and the island became dependent on federal subsidies and US investments.

TOP 10 Musicians

1 Pablo Casals (1876–1973)
 Spanish-born Casals began playing musical instruments at the age of four. He made his debut at Carnegie Hall in 1904 and thereafter built a reputation as the world's premier cellist. He settled in Puerto Rico in 1956, where he later established the annual Casals Festival (see p42).

2 Santos Colón (1922–98)
 This salsa singer, also known as "Santito," produced many popular albums. He also performed with Tito Puente's orchestra, with whom he contributed the easily recognizable "Aha! Aha!" in the original version of the song *Oye Como Va*. Colón is best known for his haunting bolero songs and Spanish interpretations of English-language classics.

3 Tito Puente (1923–2000)
 Born in New York to Puerto Rican parents, Ernesto Antonio Puente studied at the Julliard School of Music after serving in the US Navy during World War II. He helped popularize mambo, and later, salsa, and earned the nickname "King of Latin Music" for his sensuous, fast-paced mambo and Latin-jazz compositions. He won five Grammy Awards.

4 José Feliciano (b. 1945)
 Feliciano, a blind guitarist from Lares, began performing professionally at 17. He had huge hits with bolero and folk-pop-soul

albums, and in 1969 won Grammy Awards for Best New Artist of the Year and for Best Pop Song of the Year. His most famous album is *Feliz Navidad*.

5 Jennifer Lopez (b. 1969)
 This multi-talented entertainer, nicknamed J.Lo, enjoys great success as a singer, song-writer, and actress. She has sold more than 50 million albums worldwide and has her own perfume brand and fashion line. She is married to Marc Anthony.

6 Marc Anthony (b. 1968)
 A singer-songwriter and actor, Marc Anthony has cross-over success in both English and Spanish markets for his salsa and Latin-pop renditions. He started as a back-up singer and released his first album in 1993. Anthony married Jennifer Lopez in 2004.

 Puerto Rico is a world-class golf destination with more than 23 courses designed by celebrity golfers. Most are ocean-front courses associated with large resort hotels, although all are also open for public play.

5 Surfing
 Surf aficionados proclaim Rincón to be one of the world's finest surf spots, with waves topping 33 ft (10 m) in winter (see p110). Aguadilla (see p78) and Playa de Jobos (see p68) also offer superb surfing, while the beaches of Dorado (see p67) and Luquillo (see p96) are good for beginners.

6 Swimming
 Many of Puerto Rico's beautiful beaches (see pp38–9) are protected from rough waves by coral reefs, but strong undertows are potential dangers. It is wise to check the swimming conditions with the locals before you step into the waters.

Hiking through Bosque Estatal de Guánica

7 Hiking Puerto Rico's mountainous interior is ideal hiking terrain, with El Yunque (see pp14–15), which boasts a variety of trails, being the most popular place. Bosque Estatal de Guánica (see p83) offers relatively flat trails that are good for beginners.

8 Parasailing This watersport involves attaching yourself to a harness and giant kite. You are then towed by a speedboat and rise upward, gaining an exhilarating bird's-eye view of the coastline. Parasailing is popular at the north-coast resorts.

9 Bird-Watching With 350 bird species, the island brings bird-watchers flocking. Spotting birds in the island's national parks and preserves is easy, especially with an experienced guide close at hand (see p110).

10 Spelunking The island is riddled with caverns, and spelunking (caving) is a popular activity. Some caves require rappel access and many are prone to flash flooding, so explore with a reputed adventure company. ☎ *Aventuras Tierra Adentro* • 787 766 0470 • Adm • www.aventuraspr.com

Top 10 Nature Trails

1 Bosque Estatal Cambalache A hiker's delight with eight trails, a bike trail, and camping facilities (see p69).

2 Bosque Estatal de Guajataca Twenty-five miles (40 km) of trails through dramatic karst landscapes (see pp68–9).

3 Kayak Trail A kayak trail that penetrates the mangrove-lined estuaries of Bahía de Jobos preserve (see p86).

4 Bosque Estatal de Guánica A dry forest with 36 miles (58 km) of trails through four ecosystems (see p83).

5 El Yunque Trail A climb from Palo Colorado Visitor Center to El Yunque's summit (see p15).

6 Paseo Piñones Recreational Trail A paved coastal trail for walkers, bicyclists, and roller-skaters. ☎ *Map L2*

7 Playa Carlos Rosario Trail A short trail leading over an isthmus separating Playa Flamenco and Playa Carlos Rosario. ☎ *Map Q3*

8 Culebra National Wildlife Refuge A trail with boulders studding dry forest and leading to Playa Resaca (see p19).

9 Bosque Estatal Toro Negro The island's highest peak, with trails surrounded by dense vegetation (see p90).

10 Cerro de Punta A steep hike leading to the summit of Puerto Rico's highest peak (see p90).

TOP 10 Beaches

1 Playa Ocean Park
Fronting the upscale neighborhood of Ocean Park (see pp12–13), this is the preferred beach for the city's youth, who gather here on weekends to mingle and party. Beach volleyball is popular, as is parasailing (see p36). Many of the area's middle-class mansions have now been turned into guesthouses for beach-loving vacationers. 📍 Map X1

2 Playa Isla Verde
This beach, to the east of Condado and Ocean Park, was named "Green Island Beach" for an uninhabited isle just offshore. Lined with trendy hotels, casinos, restaurants, and nightclubs, it is the most glamorous beach in San Juan. El San Juan Hotel & Casino (see p114) here is a destination in its own right (see p62).

3 Green Beach
At the western extreme of Vieques, this lovely beach offers fabulous views across the Pasaje

de Vieques to the main island. Snorkeling is superb in the shallow water, but avoid the northern end, which has strong currents. Avoid the beach entirely around dusk, when thousands of no-see-ums (see p109) are prevalent (see p17).

4 Playa de Jobos
This dazzling beach, west of Isabela, is hemmed by limestone headlands that channel the Atlantic waves onto the shore. Several modest hotels and simple seafood restaurants cater to surfers here. The eastern headland has a blowhole – El Pozo de Jacinto – and is a spectacular vantage point for watching surfers, but be cautious when stepping over the jagged rocks. 📍 Map C1

5 Blue Beach
For four decades, this sensational beach on the south coast of Vieques was used by the US Navy for amphibious assault training. Curving around Bahía de la Chiva (Goat Bay), the lovely stretch of sand is backed by sea-grapes and cooled by strong winds that can pump high surf ashore at the west end. The rest of the bay is usually calm and good for kayaking. The waters around Isla Chiva, just offshore, offer fabulous snorkeling (see p17).

Serene Green Beach

6 Playa Flamenco

This beach, which stretches for more than a mile (2 km), is considered to be the most beautiful in Puerto Rico. Its pure-white sands melt into vivid blue waters that are good for surfing on windy days. It has campsites, bathrooms, and picnic facilities under shade trees. World War II Sherman tanks, once used for target practice, stud the sands. The beach is a mere 2-minute taxi ride from the airport or 5 minutes from the ferry dock (see p18).

Playa Flamenco, with its clear turquoise water

7 Playa Barrero

Brightly colored fishing boats are often drawn up on the sands of Playa Barrero, where fishermen repair their nets beneath trees. In winter, whales can often be seen close to the shore. Playa Barrero's west-facing position makes it one of the best places on the island from which to enjoy fiery sunsets. Map A3

8 Playa Dorado

This beach is named for its golden sands, most of which are taken up by resorts, such as the colorful Embassy Suites Dorado del Mar (see p116). The palm-shaded sands extend west

to the popular Balneario Cerro Gordo beach (see p70), which has bathrooms and showers.

Map H2

9 Playa El Combate

This beach can get crowded with Puerto Rican families on weekends and public holidays, when many arrive on speedboats and jetskis, but the beach is long enough that you can escape the crowds. Salt pans (*salinas*) inland offer excellent bird-watching if you tire of the beach (see p78).

10 Playa Piñones

Only a few miles east of the capital, this sweeping stretch of golden coastline can be reached by a walking and cycling track – a quicker route than the traffic-clogged coastal highway on weekends. Food shacks on the beach serve interesting dishes such as fried yucca stuffed with crab, and watersports are available (see p95).

TOP 10 Festivals and Holidays

1 Noches de Galerías
San Juan's art galleries stay open until late into the evening for "Gallery Night," often tempting patrons with free wine and hors d'oeuvres. Neighboring bars and restaurants follow suit, live entertainers often perform, and artists set up their artwork.
🕒 *First Tue of month, Sep–May*

2 San Sebastian Street Festival
Puerto Ricans dressed in multi-horned devil masks and colorful costumes take to the streets for this exuberant parade in Old San Juan. After dusk, musicians perform and DJs spin merengue and salsa tunes, turning the streets into a riot of sound and motion.
🕒 *Jan; dates vary*

3 Puerto Rico Heineken Jazz Festival
This week-long festival is one of the Caribbean's top jazz events and attracts thousands of visitors

Musicians performing at a *fiesta patronale*

and locals alike, as Puerto Rican and big-name international jazz artists perform at various venues in San Juan.
🕒 *May–Jun*

4 Casals Festival
Noted cellist Pablo Casals (see p34) founded this festival in 1957 to bring the world's best performers and guest conductors to Puerto Rico. Performances are usually hosted in the University of Puerto Rico Theater.
🕒 *Feb–Mar*

5 Fiesta de Reyes
"Three Kings' Day" commemorates the day the three wise men brought gifts to the baby Jesus. It rounds off the Christmas and New Year festivities and is a present-giving event – the governor of San Juan hands out gifts to children at his home on La Fortaleza street.
🕒 *Jan 6*

6 Fiestas Patronales
Every town celebrates its own patron saint festival with

religious processions, live music, parades, beauty contests, and often *topes* – displays of horsemanship. A *fiesta patronal* occurs somewhere on the island every week.

7 Loíza Carnaval
Puerto Rico's liveliest annual folk and religious ceremony honors Loíza's patron saint, John (*Santiago*) the

Apostle, as well as the town's African heritage, with processions featuring masked figures called *vejigantes* and *bomba* dancers performing to an Afro-Caribbean rhythm. 📅 *Late Jul*

8 Carnaval Ponceño
Many Puerto Rican towns organize some sort of carnival in the last week of February, but Ponce has the island's liveliest one. *Vejigantes* parade around, hitting people with *vejigas* (brightly painted balloons or dried pigs' bladders), while merry-makers enjoy live music and revelry in the streets. 📅 *End of Feb*

9 Eugenio María de Hostos Day
The birthdate of the 19th-century educator, philosopher, and nationalist Eugenio María de Hostos is a national holiday. Families flock to the beach to relax and party. The town of Mayagüez, his birthplace, has a special ceremony. 📅 *2nd Mon of Jan*

10 Puerto Rico Discovery Day
Puerto Ricans commemorate the "discovery" of Borinquén in 1493 by Christopher Columbus on "El Día de Descubrimiento." Parties take place on all of Puerto Rico's beaches at this time. 📅 *Nov 19*

Top 10 Local Customs

1 Politeness
Old-fashioned Hispanic courtesy is important, especially greeting people with formalities when introduced or entering a room.

2 Dress
Scruffiness is not appreciated. Even less well-to-do locals make an effort to dress as smartly as possible.

3 Hurrying
Not a Puerto Rican trait, and locals appreciate foreigners who know how to relax.

4 Machismo
Totally ingrained among local men, who like to flirt but expect their own women to be demure (see p103).

5 Jokes
Puerto Ricans like to joke and also often make fun of unusual physical traits, but rarely with malice.

6 The Church
A large majority of Puerto Ricans are Catholic, although few attend church regularly.

7 Siestas
Elderly people and country folk like an afternoon nap, although most offices and businesses stay open all day.

8 Politics
Party rivalry is keen and partisan positions are sharply defended. Avoid raising the issue of independence.

9 Punctuality
While buses, ferries, and tours normally leave on time, punctuality is less important at social gatherings.

10 Santería
The majority of Puerto Ricans put their faith in saints to whom they pray, even if they don't always admit it.

TOP 10 Children's Attractions

1 Castillo de San Cristóbal
With its cannons, eerie tunnels, and museum of antique weaponry and military costumes, this castle makes history come alive. Guided tours put the past in perspective, and occasional re-enactments add thrilling drama (see pp10–11).

2 Parque de las Cavernas del Río Camuy
Children will enjoy identifying make-believe figures in the drip-stone formations here, and spotting blind fish and blue-eyed crabs in the underground river. The massive cave system is also home to millions of bats. A trolley ride makes for a fun beginning and end to the tour (see pp20–21).

3 Museo del Niño
Housed in a colonial mansion in Old San Juan, this museum will keep children enthralled for hours with its interactive

educational displays, which include NASA Space Place and exhibits on subjects ranging from human biology to hurricanes.

7 Luis A. Ferré Science Park

The Luis A. Ferré Science Park is San Juan's most extensive facility for families. It offers wide-ranging amusements that include a small zoo, military aircraft, seven themed museums, and a planetarium. You can also rent a pedal-boat for some family fun at the park's man-made lake (see p62).

8 Playa Flamenco

This spectacular beach on Culebra has lots of space for kids to run free. There are calm sections of shallow water which are ideal for wading, although it is always wise to supervise children while in the ocean.

Marine turtles can sometimes be seen laying eggs here, and World War II Sherman tanks, rusting in the sand, make for an interesting opportunity to teach children about history (see p18).

A hippopotamus at Dr. Juan A. Rivera Zoo

9 Dr. Juan A. Rivera Zoo

This well-run zoo, the largest in Puerto Rico, is home to African wildlife, including lions, elephants, and gorillas. It also has Bengal tigers and a wealth of butterflies, while parrots and other tropical birds flit around in a large bird enclosure. Kids can hop aboard camels for rides on weekends (see pp74–5).

10 Coquí Water Park

The thrilling water park at El Conquistador Resort (see p116) makes a splash with its lazy river, winding tube slides, and vertical drop slides. A rope bridge, rapids, and waterfalls add to the drama, and there's a special section for very young children. 📍 *Map N2*

Top 10 Souvenirs

1 Carnival Masks These frightening papier-mâché demon masks (*caretas*) make great wall-hangings. The best come from Ponce.

2 Coffee Puerto Rico's mountain-grown coffee, hard to find off the island, can be bought at local specialty shops.

3 "Maboiti" Birds These life-size bird figurines, hand-carved by Elpidio Collazo González (1937–2007), are now collectors' items.

4 Santos These folksy hand-carved figures of Catholic saints are the quintessential Puerto Rican craft item.

5 Mundillo Lace Delicate lace clothing and cloths handmade in Moca are eagerly sought by collectors.

6 Jewelry San Juan is a great place to buy designer watches and jewelry at duty-free prices.

7 Music DVDs There is a vast choice of merengue and salsa albums. Look for traditional *jibaro* country music too.

8 Taíno-Inspired Ceramics Well-crafted replicas of artifacts unearthed at Centro Ceremonial Indígena de Tibes (see pp22–3) can be bought in museums and craft stores.

9 Cigars Hand-rolled Puerto Rican cigars are good value, as are Dominican imports, but Cuban cigars are not sold here.

10 Guayaberas These tropical shirts for men are not only stylish, but also perfectly suited to the hot climate.

TOP 10 Puerto Rican Dishes

1 Piñon
A form of vegetable and ground beef casserole, *piñon de amarillos* contains no fewer than a dozen vegetables, herbs, and spices, including garlic. A key ingredient is fried plantain, layered with meat, shredded cheese, and scrambled egg. It is baked and broiled, and served with white rice.

2 Mofongo
A plantain-based favorite, *mofongo* is considered the national dish. Plantains are fried, mashed, and mixed with olive oil, crushed garlic, and sometimes pieces of bacon, and served as breakfast, or as a side dish. This creation can also be served stuffed with shrimp, but tastes just as good on its own.

Mofongo with shrimp

3 Salmorejo
Originating in southern Spain, *salmorejo* is a thick crabmeat stew made with chopped and sautéed onions,

Salmorejo

peppers, and olives. It is usually served with fried plantains or *guineos verdes* – stewed green bananas, and is often sold at beachside kiosks.

4 Lechón a la Barra
Like most Latins, Puerto Ricans are crazy about pork, especially when it is fresh off the spit and served, still sizzling, with white rice, red beans, and fried plantain. This local delicacy is normally reserved for holidays and celebrations, but is also a weekend favorite, when whole pigs are slowly roasted over charcoal fires.

5 Bistec Encebollado
Puerto Ricans put their own twist on beefsteak with onions. The steak is prepared with a vinegar and garlic “rub,” and then smothered in caramelized onions. It can be served with any type of rice. Green salad and *tostones* (see sidebar) make a good accompaniment too.

6 Mondongo
Not to be confused with *mofongo*, this is a formidable dish comprising cow’s (and sometimes pig’s) stomach (tripe), diced and slowly stewed in a tomato and garlic sauce. It is a popular dish for Sunday brunches – Puerto Ricans believe that it can help cure a hangover.

Arroz con gandules

7 Arroz Con Gandules
Rice with pigeon peas is a staple of any special occasion in Puerto Rico, and has many variations. This dish is usually seasoned with *sofrito* – an aromatic mix of herbs and spices – and diced ham. A dash of tomato sauce helps impart a lovely flavor.

8 Serenata de Bacalao
This original Puerto Rican dish – saltcod salad – is eaten as an appetizer or light lunch. Flakes of faintly salted cod are tossed in a light vinaigrette with sliced onions, potatoes, and other vegetables, and then laid on a bed of lettuce and garnished with hard-boiled egg and olives.

9 Tembleque
No wedding, child's birthday party, or other special event would be complete without this rich, creamy coconut pudding. It quivers like jelly, hence the name *tembleque*, which means "jiggling." The delicious dessert resembles a custard and is served topped with cinnamon.

10 Almejas Casinos
A Puerto Rican seafood favorite, baked stuffed clams are found on many restaurant menus. The freshly caught clams are prepared in their shells and garnished with parsley, bacon, butter, and dry white wine. They are then baked and served with hot clam juice.

Top 10 Puerto Rican Snacks

1 Tostones
A side dish of unripe plantains that are fried, pounded flat, and then refried.

2 Alcapurrias
A mixture of ground plantain and *malanga* filled with crab meat or ground beef and deep fried.

3 Bacalaitos
Fried fritters made with a mix of cod, garlic, cilantro, and other seasonings.

4 Almojábanas
Delicious cheese-flavored rice fritters deep-fried and sometimes served with hot chocolate or avocado sauce.

5 Arañita
Shredded and deep-fried plantains usually eaten with garlic sauce. These look like spider legs, hence the name "little spiders."

6 Pasteles
Fold-over pasties made of various types of dough filled with ground meat, diced meat, or vegetables, and then fried.

7 Sorrellitos
Fried cornmeal fritters traditionally stuffed with cheese and sometimes dusted with powdered sugar.

8 Setas
Mushrooms are never more popular than when sautéed with garlic, olive oil, white wine, and parsley.

9 Batatas
Boiled or roasted yam (sweet potatoes) served with butter, garlic, and parsley.

10 Papas Rellenas
Mashed and fried potato balls stuffed with seasoned beef – these make a very popular side dish.

TOP 10 Trees and Flowers

1 Royal Palms
The stately *palma real* towers 82 ft (25 m) and has a silvery trunk that is slightly bulbous at the top. Its fronds are used for thatch, its seeds are used as pig feed, and the soft and succulent palm heart from the center of the trunk is a delicacy used in salads.

2 Sierra Palms
The "mountain palm" is indigenous to the region and lives above an elevation of 1,640 ft (500 m). Its exposed buttress roots, similar to those of mangroves, are an unusual feature that help the sierra palm cling to steep terrain and unstable soil.

3 Coconut Palms
The undisputed symbol of the Caribbean is the slender coconut palm, which thrives in

moist, sandy soils and is found all along Puerto Rico's shores. Native to Asia, it was introduced to the Americas in 1542. Virtually every part of the coconut palm is used by humans, including the large nut with its delicious meat and refreshing juice.

A pink poinsettia

4 Poinsettias
Originally indigenous to Mexico, these perennial flowering shrubs, also known as euphorbia, are popular during Christmas because of their flame-red and green leaves, although they can also be white or pink.

5 Mangroves
Five species of mangroves (*manglares*) thrive along the island's shores, forming tangled forests that trap sediment and prevent coastal erosion. Their stilt roots rise above the water, forming labyrinthine creeks that are vital nurseries for marine life.

Coconut palms on the coast

6 Jacarandas
Remarkable for their springtime flowering, when purple-blue blossoms burst forth, with a peak in April, jacarandas are often used to brighten up Puerto Rico's urban parks and highway medians. The trees' prized timber is coveted by carpenters.

A sprig of orchids

7 Orchids

Puerto Rico boasts hundreds of species of orchids, including many endemics. These plants are renowned for their exquisite flowers, and many wild orchid species are endangered by illegal collecting. The San Juan Orchid Society holds a Festival de Orquideas each March. ☎ *San Juan Orchid Society • 787 758 9981*

8 Gumbo-Limbos

A hardy species with huge branches, gumbo-limbos are also known as “naked Indian trees” – their reddish-brown, paper-thin bark peels off in sheets like sun-burnt skin. These trees readily sprout from branches stuck into the ground.

9 Ceibas

Sacred to the Taíno, silk-cotton trees grow to 230 ft (70 m) and have straight, branchless trunks studded with spines. Buttress roots help to stabilize these massive trees, the branches of which form wide canopies.

10 Epiphytes

These plants take root on the branches of other trees. Many species, such as Spanish moss, put down hanging roots, while some, like bromeliads, gather water in cisterns formed by tightly overlapping leaves.

Top 10 Fruits

1 Guanábana

Also called soursop, this fruit makes a slightly sour, creamy drink when juiced.

2 Papaya

This tear-shaped fruit has delicious yellow flesh. Its seeds are used as a folk remedy for intestinal parasites.

3 Mamey

A melon-like fruit with a yam-like flavor, mamey is mainly used for ice creams and *batidas* (milkshakes).

4 Custard Apple

The moderately sweet flesh of this fruit is used to make a popular drink with medicinal properties.

5 Guava

This small fruit has slightly acidic flesh and many small, hard seeds. It is commonly used in jellies or as a dessert with cheese.

6 Tamarind

This tree's pendulous fruit is too tart to eat. The pulp is often used to make juice.

7 Passion Fruit

This golf-ball sized fruit is known as *parcha* – its yellow flesh is tart and makes a delicious topping for desserts.

8 Banana

Known worldwide, this curved fruit with yellow skin has cream-colored flesh loaded with vitamins, making for a healthy snack.

9 Breadfruit

This fruit can grow as large as a basketball. Its flesh is cooked and mashed, often with coconut milk.

10 Mango

Mangoes have highly fragrant, pulpy, and slightly fibrous flesh that is deliciously sweet and juicy.

TOP 10 **Animal Life**

1 Leatherback Turtles
 These are the largest of the five marine turtle species that nest on Puerto Rican beaches, notably on Vieques and Culebra. Unlike other turtles, which have internal skeletons, leatherbacks have bony plates covered with an external leathery skin. They feed mainly on jellyfish.

2 Sapo Conchos
 These endemic toads have a long, curved snout and horned protuberances above the eyes. Once widespread, they are now restricted to the Bosque Estatal de Guánica (see p83) and are threatened with extinction, partly due to competition from the toxic marine toad, introduced to the island in the 19th century to control insects.

3 Manatees
 Manatees are gentle marine mammals resembling a tuskless walrus, and weigh up to half a ton (500 kg). They propel themselves with a spatulate tail and

feed on aquatic vegetation. The West Indian manatee is endangered – many are killed by collisions with speedboats.

4 Ponce Anoles
 These bright-green, tree-dwelling lizards are nicknamed *lagarjito gigantes* (giant lizards). Like all anoles, they mark their territory by extending a fan-like dewlap beneath the neck and by bobbing up and down. Keep an eye out for ponce anoles performing this comic behavior on tree trunks.

5 Coquí
 These thimble-sized frogs are the nation's unofficial mascots. Inhabiting various ecosystems, from coastal dry forest to rain-soaked El Yunque, they are more often heard than seen, thanks to their nocturnal two-note cheep – “ko-KEE”.

6 Dolphins
 Several species of these endearing, sociable, and highly intelligent marine mammals swim in the ocean waters surrounding Puerto Rico. They often accompany passing boats, such as the Fajardo-Vieques ferry (see p98), and are popular in marine parks, where many are trained to perform amazing acrobatics.

Manatee

7 Puerto Rican Boas
 These endangered, non-venomous snakes, endemic to the island, can grow to 9 ft (3 m). They are found mostly in the karst region of Puerto Rico, where they feed on bats. In sunlight, their skin gives off an iridescent blue sheen.

8 Humpback Whales
 The Mona Passage, which separates Puerto Rico and Hispaniola, is a migratory path for these marine mammals, which can grow to a staggering 50 ft (15 m). It is enthralling to see a humpback leap clear out of the ocean (*see p110*).

Humpback whale

9 Bats
 Puerto Rico has 13 species of bats, which represent 80 percent of the island's mammal species. Most live in caves and emerge at night to feed on mosquitoes, fruit, and nectar; the bulldog bat also catches fish.

10 Mona Iguanas
 This species of iguana is found only on Isla Mona (*see p75*) and can reach 3 ft (1 m) in length. Despite their dragon-like appearance, mona iguanas are harmless vegetarians. They bask in the sun to become active and live on very sparse vegetation.

Top 10 Birds

1 Cattle Egrets
 These heron-like, snow-white birds can be seen in almost any field, especially around flea-ridden cattle.

2 Yellow Warblers
 Nicknamed "mangrove canaries," these mangrove-dwellers are excellent singers.

3 Lizard Cuckoos
 Listen for the tell-tale guttural laugh of these tawny endemics, which are identified by their red eye-rings.

4 Emerald Hummingbirds
 The *zumbadorcito*, the world's second-smallest bird, was once worshipped by the Taíno as a "god bird."

5 Puerto Rican Parrots
 The island's green endemic parrots are critically endangered and fewer than 50 remain in the wild.

6 Puerto Rican Woodpeckers
 These woodpeckers, found throughout the island, can be heard using their sharp beaks to drill holes in tree trunks.

7 Puerto Rican Screech Owls
 These small birds, nicknamed "coo-coos" for their call, can often be heard at dawn.

8 Red-Billed Tropicbirds
 These graceful, snow-white seabirds have a long, forked streamer tail and a pin-sharp red bill.

9 Frigatebirds
 Black birds with a massive wing-span, frigatebirds roost atop mangroves and steal from other seabirds.

10 Pelicans
 These birds, identified by their long beak with a pouch, skim the ocean surface.

San Juan

FROM THE ATMOSPHERIC CHARM OF THE OLD CITY to the sophistication of Condado and Isla Verde, San Juan is a lively city that mixes history with contemporary chic. Old San Juan is a lived-in museum of colonial cobbled streets and plazas replete with cathedrals, convents, and colorful mansions, many of which are now boutique hotels, restaurants, and bars. Gorgeous beaches just a few minutes away are lined with luxurious resort hotels and casinos. The city's museums, theaters, art galleries, and lively festivals satisfy the most demanding of culture enthusiasts.

Fortaleza San Felipe del Morro

A cruise ship anchored at Old San Juan

1 Old San Juan

There's a good reason more cruise ships anchor at Old San Juan than at any other port in the Caribbean – this charming quarter has something for everyone. Steeped in history, Old San Juan is packed with interesting things to see, from its quaint, cobbled streets overhung with wooden balconies to its massive fortresses and ancient city walls. The National Historic Zone has more than 900 buildings of historic importance, as well as tiny plazas with bohemian cafés and stylish bars that burst into life at night (*see pp8–9*).

2 Condado

East of Old San Juan, the Condado district is reminiscent of Miami's South Beach, not least for its Art Deco buildings. Beautiful beaches that stretch for 3 miles (5 km) are a very popular venue for locals, especially on holidays and weekends. Avenida Ashford runs parallel to the shore and is lined with gleaming, high-rise condominiums and upscale hotels needling the sky. The boulevard also teems with chic, modern fashion outlets, cosmopolitan restaurants, lively casinos, and sophisticated nightclubs that exemplify the city's cool, sophisticated Latin vibe (*see pp12–13*).

3 Castillo de San Cristóbal

This imposing bastion dominates the eastern approach to the city and was intended to guard against invasion by land. Cannons sit proudly atop the ramparts, pointing toward the ghosts of pirates past.

Restoration work has added to its majesty, and the barracks have been turned into a museum showing how they would have looked in colonial times. Free guided tours help bring the past to life (*see pp10–11*).

4 Paseo de la Princesa

Leading west from Plaza del Inmigrante, this pedestrian-only promenade, lit by antique street lamps, is ideal for an evening stroll. It ends at the base of Fortaleza San Felipe del Morro, where waves crash against the seawall. Stop to admire the Raíces Fountain, which celebrates the island's multicultural heritage. Musical performances are held here on Sundays, and stalls are set up on weekends (*see p9*).

Segway Tours

A fun way to explore Old San Juan is atop a self-balancing Segway Personal Transporter (*see p110*). This exciting mode of transport guarantees you won't get tired feet. Certified guides escort you to the key sites as you wheel around the old city on either the 45-minute or the 2-hour tour.

5 Plaza del Inmigrante

Also known as Plaza de la Marina because it opens onto the cruise port, this sloping cobbled plaza was built in the 19th century and boasts several impressive buildings. Soaring over the north side is the Banco Popular, a graceful Art Deco structure built in 1939 and adorned with faces of ancient gods. On the east side, the stately Antiguo Edificio de Correos (post office) and Neo-Classical Edificio Federal (Federal Building) add stature to the tree-shaded square (*see p9*).

6 Fortaleza San Felipe del Morro

Building work on this fortress began in 1539 and was completed in 1786. It was

designed to guard the harbor entrance and connected to Castillo de San Cristóbal by massive walls. Today a National Historic Monument restored and maintained by the US National Parks Service, it displays colonial weaponry and uniforms in the former barracks, and cannons can be admired in their embrasures. A lighthouse, built here in 1843, offers fine vistas over the Campo del Morro, a swathe of greenery separating the fortress from the heart of Old San Juan (*see p8*).

Plazuela de la Rogativa's statue

7 Plazuela de la Rogativa

This tiny square offers excellent views over Paseo de la Princesa and the harbor, and is a good place to take photographs at sunset. Its focal point is a statue of a bishop and three women bearing lit torches, which commemorates a night in 1797 when the local bishop led a torch-lit procession that

fooled an invading English fleet into believing that Spanish reinforcements had arrived. 🗺 *Map T6*

8 Museo de Arte de Puerto Rico

This vast museum, housed partly in a former hospital and in a recently added modernist wing, is one of the largest art galleries in the Caribbean, with 1,100 works on display. It exhibits Puerto Rican art, from 16th century religious works to contemporary masterpieces. Be sure to explore the sculpture garden

9 Calle del Cristo
The pretty Calle del Cristo is paved with blue-tiled cobblestones and lined with charming two-story townhouses graced by wooden balustrades that today double as art galleries, boutiques, and cafés. The Catedral de San Juan Bautista (see p9), the city's ecclesiastical 1852 masterpiece, presents a striking facade. The street ends at the tiny Capilla del Cristo (Christ Chapel). 📍 Map U5–6

10 Plaza de San José
With its neatly clipped trees and quaint colonial buildings, this ancient plaza is one of Old San Juan's most delightful areas. At its center stands a life-size statue of Ponce de León. Browse Museo Pablo Casals (see p62) and step inside Iglesia San José to admire its muraled ceiling. Calle San Sebastián's bars and restaurants have a great atmosphere, especially at night (see p9).

A Morning Walk Around Old San Juan

Early Morning

 After a hearty breakfast, head to **Plaza del Inmigrante**. Admire the buildings surrounding the square and then walk west along **Paseo de la Princesa**, pausing to photograph the **Raíces Fountain**. If it's a weekend, then browse the arts and crafts stalls set up here. Passing through the **Puerta de San Juan**, the old city gate, turn left for **Plazuela de la Rogativa**, and admire the fine view toward the harbor. Follow Calle Las Monjas east one block to view the **Catedral de San Juan Bautista** (see p9) before following cobbled Calle del Cristo uphill to **Plaza de San José**. Step inside **Iglesia San José** to admire its beautiful ceiling and then explore the **Museo Pablo Casals** (see p62). Stop to take a coffee break at one of the plaza's many cafés and indulge in some leisurely people-watching.

Mid-Morning

 Refreshed, walk west along Calle San Sebastián to visit the **Casa Blanca** (see p8), now a museum. Retrace your steps to Parque de Beneficencia and turn left. The huge Neo-Classical building ahead houses the **Instituto de Cultura Puertorriqueña** (see p9). Call in to see its eclectic exhibits before continuing north across the wide open Calle del Morro to the **Fortaleza San Felipe del Morro**. This massive fortress will take the better part of an hour to explore before the airy stroll back to **Plaza de San José** for lunch.

North Coast

WEST OF SAN JUAN, THE ISLAND'S *palm-studded north shore is lined with glorious beaches, the most beautiful of which are found around Dorado. Scenic mountains that have been eroded into a dramatic karst landscape of rugged gorges, spectacular caves, and sculpted rock formations called mogotes rise inland from the narrow coastal plain. This rugged scenery is at its finest around the Arecibo Observatory – the world's largest radio telescope – and nearby Parque de las Cavernas del Río Camuy. Several forest preserves tempt hikers, and one of the nation's most impressive ceremonial sites can be explored at Caguana. The mountain drive to reach it leads through several villages renowned for arts and crafts.*

1 Parque de las Cavernas del Río Camuy

The third-largest cave system in the world, this vast underground complex consists of hundreds of caverns. Fascinating guided tours begin and end with a tram ride and lead through the largest cave of all, which is full of weird and wonderful dripstone formations. Paths run alongside an underground river to the base of an enormous sinkhole. Visitors come away with an appreciation of the natural processes that have shaped this rugged region (see pp20–21).

2 Dorado

This town is best known for its golden beaches lined with palm trees – remnants of a former coconut plantation. The town's Hyatt Hacienda del Mar boasts some of the best stretches of beach, and golfers can tee off at the resort's three championship golf courses. The main square, Plaza de Recreo, has a monument honoring the island's ethnic diversity.

3 Arecibo Observatory

Resembling a James Bond movie set (in fact, it appeared in *GoldenEye*), the world's largest radio telescope comprises a 1,000-ft- (305-m-) wide spherical bowl made of 40,000 perforated aluminium panels and suspended across a huge

limestone sinkhole. A triangular platform hanging 1,300 ft (400 m) above the dish houses receivers that monitor emissions, such as radio waves, from the earth's outer atmosphere to sources at the outer limits of the universe. The Angel Ramos Foundation Visitor Center provides audio-visual displays and interactive exhibits on the observatory, and on atmospheric and space sciences in general. 📍 *Map E2*

4 Arecibo

Founded in 1616, this large coastal town is today a major manufacturing center that retains many wooden colonial structures, notably on Calle Alejandro Salicrup. The delightful Plaza Luis Muñoz Rivera is worth visiting for its 19th-century Neo-Classical cathedral and city hall, but most intriguing is the Logia Tanamá, a grandiose Romanesque

building that serves as a Masonic hall and is fronted by an impressive bronze statue of a leaping dolphin. 📍 *Map E2*

El Grito de Lares

The island's movement for independence from Spain was initiated in September 1868 when about 600 islanders gathered at an estate near Lares to launch an insurrection and announce a provincial government. The rebellion – The Cry of Lares – was quickly suppressed by Spanish authorities. Nonetheless, Spain subsequently granted Puerto Rico liberal reforms that included representation in the Spanish Cortes (parliament).

5 Karst Country

Covering a sixth of the island, this distinctive landscape of sheer-sided *mogotes* (rock formations) and plunging canyons is the remnant of a great limestone plateau that rose from the sea in the Jurassic era and has since been worn away by water. The region is stippled with free-standing formations rising 985 ft (300 m) or more, and riddled with caverns and sinkholes.  Map E3

6 Parque Ceremonial Indígena Caguana

A great starting point for learning about the island's indigenous culture, Caguana was one of the most important Taíno ceremonial sites in the Caribbean. The site, which was first excavated in

1915, features 12 *bateyes* (ancient ball courts) walled by slabs etched with petroglyphs, including the *Mujer de Caguana* – a female fertility figure with legs outspread. Taíno ceramics and other artifacts are displayed in a tiny museum here.  Map E3

7 Playa de Jobos

Prime surf washes ashore at this windswept beach favored by surfers. Its laid-back appeal is enhanced by its many simple seafood restaurants and bars. You can watch surfers pass by the rugged limestone headland, Punta Jacinto, where spray blasts from a blowhole. The snorkeling is good in sheltered coves, and horseback rides on the beach add further thrills.  Map C1

8 Bosque Estatal de Guajataca

This 6-sq mile (15-sq km) preserve is laced with close to 28 miles (44 km) of trails that weave through karst terrain. Before you begin your hike, pick up a map at the ranger station, from where a short trail leads to a *mirador* (lookout tower). Follow the more challenging 8-mile (13-km) Sendero Cabralla to Lago de Guajataca, a peaceful reservoir

9 Lares
The scenic drive to reach Lares is reason enough to visit this small mountain town, which is famous for El Grito de Lares (The Cry of Lares), the nationalist uprising that launched the island's independence movement. A 19th-century cathedral stands over Plaza de la Revolución, but the square's most popular building is the Heladería de Lares, where you can buy tropical fruit-flavored ice creams. 📍 *Map D3 • Heladería de Lares: Calle Lecaroz, Lares; 787 897 3290*

10 Bosque Estatal Cambalache
This forest preserve is ideal for hiking and mountain biking with just 4 miles (6 km) of level trails among royal palms, teak, and trees endemic to the island, such as *matabuey*. The karst scenery is spectacular, with trails winding along canyon bottoms at the base of soaring *mogotes*. Bird-watchers can spot endemic species such as the Puerto Rican bullfinch. Bats are numerous and swarm out of their caves at sunset. 📍 *Map F2 • Carretera 682 Km 6.6 • 787 881 1004 • Open 9am–4pm*

A Drive Through Karst Country

Morning

🕒 Begin your drive at the coastal town of **Arecibo**. After exploring the city's main sites, head south along Carretera 129, and then follow the signs that lead uphill to the **Arecibo Observatory**. After two hours of exploring the visitor center and admiring the radio telescope and the spectacular setting here, drive down south toward the **Parque Ceremonial Indígena Caguana**. About one hour is required to explore this fascinating Taíno ceremonial site. Then follow Carretera 111 west to the charming mountain town of **Lares** where you can have lunch. Try the tropical fruit-flavored ice cream at **Heladería de Lares**.

Afternoon

Continue your drive northward on Carretera 129 for **Parque de Las Cavernas del Río Camuy**, where you can take a guided excursion into the caverns; it can be cool, and the walkways are slippery, so carry along a sweater and wear shoes with good grip. Then press on westward on Carretera 119 for **Lago de Guajataca**, a man-made lake, and the **Bosque Estatal de Guajataca** – you can stop here for a short hike or fish for bass. Don't forget to keep an eye on the road as you take in the wonderful karst scenery along Carretera 113. Pass through the town of **Quebradillas** and continue northwest to **Playa de Jobos**. This beach is a good place to surf. You can also sample some local cuisine at **Happy Belly's** (see p71).

West Coast

THIS WILD AND DRAMATIC REGION BOASTS *some of the most beautiful coastal scenery in Puerto Rico. To the north lies Rincón, a resort town known for its stunning sunsets, excellent whale-watching during winter, and world-class surfing. Uninhabited and rugged Isla Mona is a wildlife refuge*

Iglesia de San Germán de Auxerre

surrounded by coral reefs that draw divers, while bird-watchers flock to Boquerón Bird Refuge and the salt flats around Cabo Rojo. The village of La Parguera offers exciting boat trips to Bahía de Fosforescente, named for its bioluminescent waters. Moca, which lies inland, is a center for traditional lace production, Mayagüez has a fine plaza and zoo, and the town of San Germán draws visitors keen on colonial architectural gems.

1 San Germán

Puerto Rico's second-oldest town, the "City of the Hills" dates from 1573, although most of its lovely colonial buildings were built during the 19th-century coffee boom (see p90). The quaint plazas and narrow streets that make up the historic center are lined with ornate mansions and centuries-old churches, including the Iglesia Porta Coeli, which houses the island's pre-eminent religious museum. The town comes to life every July with its *fiesta patronal* (see p42) – a festival honoring its patron saint (see pp24–5).

Lighthouse at Rincón

Christopher Columbus stepped ashore in 1493, although the residents of Aguadilla (see p78) make a similar claim. In the center is the Iglesia San Francisco de Asís, with its lovely stained-glass windows, and the former train station which is now home to the Museo de Aguada, an impressive history museum. If possible, time your visit for mid-

November, when locals parade to honor Columbus' arrival.

📍 Map B2 • Museo de Aguada: Av Nativo Alers 7; 787 868 6300; open 8am–noon & 1–4pm Mon–Fri

2 Rincón

This resort town occupies a triangular peninsula facing the Mona Passage. It is a great base in summer for snorkeling and diving, and in winter for whale-watching. Rincón is home to some of the Caribbean's best surf breaks, and boasts great beaches, from wave-washed Playa María to reef-protected Playa Barrero (see p39), where colorful fishing boats line the sands. Accommodations range from simple campsites to chic boutique hotels, including the stately Hotel Horned Dorset Primavera (see p115), while lively beach bars and eateries provide great perches from which to enjoy the sunsets. 📍 Map B3

4 Plaza Colón, Mayagüez

A large square in the center of Puerto Rico's third-largest city, Plaza Colón is adorned with a magnificent Neo-Classical town hall and a clock tower, a large statue of Christopher Columbus, and various other bronze statues. Locals gather to play dominoes in the shade of jacaranda trees that burst into purple bloom in spring. The Teatro Yagüez, a block north, is worth a visit for its Neo-Classical pillars and Art Nouveau windows and dome. 📍 Map B4

5 Horned Dorset Primavera This hacienda-style hotel, which is part of the prestigious Relais & Chateaux chain and is named for a species of English sheep, stands over its own small beach at Rincón. You don't have to stay in the luxurious accommodations here to enjoy the sea-front restaurant, which serves gourmet cuisine and has a formal dress code. Visitors can also sign up for a yoga class in the open-air pavilion (see p115).

Humpback Whales

These marine mammals can grow to 50 ft (15 m) long and weigh up to 40 tons. Virtually the entire population of 12,000 North Atlantic residents migrate to warm Caribbean waters during the winter to mate and give birth. Humpbacks frequently “breach,” or throw their bodies out of the water and splash down on their backs. Males also sing during the mating season; the complex songs change every year. In summer, the creatures return north to feed on krill and small fish.

is still made in a traditional manner at family workshops (see pp46–7). The Museo del Mundillo explores the centuries-old art-form, which has been revived in recent decades. The town hosts the Mundillo Festival each June and the main plaza honors the tradition with a Monument

to the Lace Weaver. Map B2 • Museo del Mundillo: Calle Barbosa 237; 787 877 3815; open 9am–4pm Tue–Sun; adm; www.museodelmundillo.org

7 Whale-Watching Humpback whales pass through the Mona Passage from December to March en route to and from warm-water mating and calving zones. Whale-watching trips depart Rincón (see p110), but the giant marine mammals can also be seen from shore. You can use the giant binoculars at El Faro lighthouse, where whales are often seen within 660 ft

(200 m) of shore. There are few wildlife experiences as thrilling as this. Map A3 • El Faro: Area Recreativa del Faro, Rincón; currently closed for renovation

8 Dr. Juan A. Rivero Zoo This spacious, imaginatively landscaped zoo delights visitors with its collection of more than 300 species of animals and birds from throughout the tropics. Elephants, rhinos, and zebras wander a safari park here, while lions, leopards, and Bengal tigers prowl their own arenas. An enclosure for chimpanzees, a

children's park, and camel rides help keep kids enthralled. 📍 *Map B4 • Carretera 108, Mayagüez • 787 834 6330, 787 834 8110 • Open 8:30am–4pm Tue–Sun • Adm*

9 Isla Mona
This uninhabited isle a few miles west of the main island is fringed by soaring cliffs. The wildlife refuge protects the nesting sites of boobies, tropic-birds, and other seabirds, as well as marine turtles. Iguanas crawl the sun-baked surface of the island, which is studded with cacti and riddled with caves. One of two trails leads past a former mine, and you can camp overnight with a permit. The crystal-clear waters and coral reefs guarantee good diving. Hire a boat in Rincón for the short trip here. 📍 *Map A4*

10 Cabo Rojo
“Red Cape,” named for its reddish cliffs, is topped by a hexagonal Neo-Classical lighthouse, Faro Los Morrillos, built here in 1881. The wave-battered cape shelters a rocky, white-sand beach that is backed by marshy salt flats offering great bird-watching opportunities. It is advisable to stay away from the unstable clifftops. 📍 *Map B6*

A Walk Around San Germán

Early Morning

🕒 Half a day is enough to see the main sights of this historically significant town. Begin on the east side of **Plaza Santo Domingo** (see p24) with a trip to the Spanish-mission style **Iglesia Porta Coelí** (see p24). View the fascinating collection of carved wooden saints in the religious art museum housed here. Afterwards, admire some of the restored 19th-century gingerbread-style mansions in the streets around the plaza and on nearby Calle Dr. Santiago Veve and Calle Ramos. A highlight is **Casa Morales** (see p25), a quintessential Victorian design, on the northeast corner of the plaza.

Mid-Morning

Back in the plaza, walk west along Calle Ruiz Belvis to **Plaza Francisco Mariano Quiñones** (see p25), passing the *alcaldía* (town hall) en route. The tree-shaded plaza is graced with wrought-iron lamp posts and has benches where you can relax, study the park's topiary bushes, and take in the local life. Enter the **Iglesia de San Germán de Auxerre** (see p25), which dates from 1739 – be sure to note the church's beautiful *tromp l'oeil* ceiling. Continue along Calle Dr. Santiago Veve to view the **Casa Lola Rodríguez de Tió** (see p25), home of patriot-poet Lola Rodríguez de Tió. After all the sight-seeing, head to the popular **Mike's Steak House** (see p79) for its excellent chargrilled steaks and seafood, or to **Chaparritas** (see p79) for some Mexican fare.

TOP 10 Wildlife-Viewing

1 Whale-Watching

The gargantuan humpback whales feed in the Northern Atlantic but migrate in winter to warm Caribbean waters to mate and give birth. February is the peak month for viewing them in the Mona Passage (*see p110*).

2 Boquerón Bird Refuge

This coastal wetland, part of the Bosque Estatal de Boquerón, is a superb place for spotting migratory waterfowl, wading birds, and hawks. Blinds (covered areas to disguise bird-watchers) enhance your experience. 📍 *Map B6 • Carretera 301 Km 5.1, Boquerón • 787 851 7258 • Open 8am–4pm Tue–Sun*

3 Bahía de Fosforescente

This lagoon, not to be confused with a bay of the same name off Vieques, glows due to the microscopic organisms that emit light when disturbed. Glass-bottomed boat trips depart La Parguera (*see next page*).

4 Manatees

These huge vegetarian marine mammals (*see p54*) can be seen swimming in coastal lagoons around Boquerón and La Parguera. They are difficult to spot, so a sighting is a rare treat.

5 Mona Iguanas

The charcoal-brown Mona Iguana (*see p55*) is endemic to Isla Mona. This egg-laying reptile is easily spotted as you walk the island's trails.

6 Red-Footed Boobies

Isla Mona is a nesting site for red-footed boobies – large seabirds with salmon-colored feet. They nest on the ground and display relatively little fear of humans.

7 Marine Turtles

Several beaches on Isla Mona and Isla Magueyes are nesting sites for leatherback and other marine turtles (*see p54*). These endangered creatures face numerous threats, including marine pollution.

8 Tropical Agricultural Research Station

This facility on the University of Puerto Rico's western campus occupies a former plantation. Self-guided trails lead through one of the world's largest tropical botanical gardens. 📍 *Map B4 • Av Pedro Alvido Campos 2200, Mayagüez • 787 831 3435 • Open 7am–noon & 1–5pm Mon–Fri*

9 Dolphins

These charming and playful marine mammals (*see p54*) are a joy to see. They accompany fast-moving boats, leaping in and out of waves at the bow.

10 Corals

The waters around Isla Desecheo (*see p70*) abound with colorful coral species, including brain corals, boulder corals, and 6-ft- (2-m-) tall sea fans. Sponges are a highlight here. 📍 *Map B1*

TOP 10 Outdoor Activities

1 Surfing

Rincón is the perfect place for surfing, and its mix of breaks makes it ideal for beginners or experts. Several outfitters rent boards and offer lessons for all levels (see p110).

2 Kayaking

Several hotels in Rincón, such as the Horned Dorset Primavera (see p115), provide one- and two-person sea kayaks for paddling around reef-protected ocean waters. Map A3

3 Jogging at Rincón

Rincón's endlessly long beaches are ideal for casual runs, with the bonus of fantastic scenery and plenty of waterfront bars and restaurants along the way if you need to take a break (see p73).

4 Scuba Diving

Isla Desecheo (see p70) is a favored spot for diving, although it requires an hour-long boat ride from Rincón. A B-29 bomber off Aguadilla is closer to shore and equally exciting (see p110).

5 Hiking on Isla Mona

This island has two hiking trails, which are good for viewing mona iguanas, red-footed boobies, and frigatebirds up close, as well as century-old mining equipment. Visit some of the island's remote beaches between May and October to spot marine turtles nesting.

6 Bird-Watching at Las Salinas

The seasonal lagoons of the Las Salinas salt flats draw American oystercatchers and thousands of other waterfowl. There is a watch-tower that provides good views. Map H5

7 Strolling Playa El Combate

Stretching for several miles, this slender beach is a pleasure to walk along, but you'll want to avoid dusk when no-see-ums (see p109) are active. Map B5

8 Jet-Skiing at La Parguera

On weekends and holidays, locals flock to this coastal resort village, where jet-skis can be rented to buzz around the inshore lagoons. Map C5-C6

FRAMED TO THE NORTH BY THE CORDILLERA CENTRAL, *the narrow and relatively dry southern coastal plain has only a few good beaches, but draws nature-lovers with its wildlife-rich Bosque Estatal de Guánica and Bahía de Jobos, a mangrove forest best explored on a kayak. Ponce, the island's second-largest city, delights with its restored historic core and world-class art museum. Divers marvel at The Wall – a dramatic coastal drop-off with dozens of excellent dive sites that teem with marine life. History fans are drawn to the indigenous ceremonial site at Tibes, the time-warp sugar-processing town of Aguirre, and antique coffee plantations such as Hacienda Buena Vista.*

1 Centro Ceremonial Indígena de Tibes

This pre-Columbian site in the hills north of Ponce was only unearthed in 1975, when floodwaters revealed the Taíno ruins. Guides take visitors on tours that lead past 12 *bateyes* – ceremonial ball courts – as well as petroglyphs and an ancient cemetery. The site was inhabited by the Igneri, a pre-Taíno tribe, and artifacts of both cultures are exhibited in a museum here, which shows a 30-minute video and displays an adult skeleton in the fetal position (see pp22–3).

2 Museo de Arte de Ponce

More than 3,000 works of art by European masters and well-known painters from North and South America, along with Puerto Rican art spanning three centuries, are displayed at this spectacular museum. Works by Rodin, Delacroix, Gainsborough, and Puerto Rico's foremost artists are among the permanent displays, but the museum is most famous for Lord Frederic Leighton's eye-catching *Flaming June* (see pp26–7).

3 Catedral de Nuestra Señora de la Guadalupe

This grand cathedral, with its striking, twin-spired, Neo-Classical facade, was designed by architects Francisco Porrata

Doría and Francisco Gardon in the 1930s and built on the site of a building that was destroyed in the 1918 earthquake. Rising over Plaza Las Delicias, the white and duck-egg-blue church honors the city's patron saint, the Virgin of Guadalupe. The interior boasts stained glass windows, a grandiose alabaster altar, and a huge pipe organ installed in 1934. ☉ *Map F5 • Plaza Las Delicias, Ponce • Open 6am–1:30pm Mon–Fri, 6am–noon & 3–8:30pm Sat–Sun*

4 Bosque Estatal de Guánica

Guánica State Forest protects acres of dry deciduous forest spanning the east and west shores of Bahía Guánica. Its mosaic of habitats comprises moist and shady ravines and exposed ridges, and the flora and fauna is replete with mangrove swamps. Spanish moss and mistletoe festoon tree branches, and agaves and cacti pierce the sun-baked soils. More than 100 bird species flit among the branches, thimble-size frogs hop around underfoot, iguanas scurry about the leaf litter, and marine turtles lay their eggs in pristine sands. The forest has 36 miles (58 km) of trails. ☉ *Map D6*

Ponce Massacre

Nationalist sentiment against US occupation boiled over on March 21, 1937 during a pro-independence rally in Ponce's Plaza Las Delicias. When the nationalists began singing the Puerto Rican national anthem, armed police opened fire, killing 17 civilians. Two policemen were also killed in the melee, now known as the Ponce Massacre.

5 Museo Antiguo Parque de Bombas

This photogenic Arabesque structure, on the east side of Plaza Las Delicias, served as the city's fire station for over a century. Now a museum, it hosts an antique fire truck and 19th-century hand-pulled water tanks. Other exhibits poignantly recall a fire in the US Army's artillery store in 1899 that threatened to destroy Ponce; the fire-fighters disobeyed orders to retreat and saved the city. ☎ *Map F6 • Av Marina and Av Cristina, Plaza Las Delicias, Ponce • 787 284 3338 • Open 9am–5:30pm*

6 Hacienda Buena Vista

This coffee plantation in the hills north of Ponce dates from 1833. Recently restored, it displays the original hydraulically operated processing mill, with its

giant water wheel and water-powered turbine. The former slave quarters, storage sheds, and the owner's house are all furnished with original 19th-century pieces. The gift shop sells coffee and preserves from fruit still grown here. ☎ *Map F5 • Carretera 123 Km 16.8 • 787 722 5882 (Mon–Fri); 787 284 7020 (Sat–Sun) • Open Wed–Sun; guided tours by appointment • Adm • www.fideicomiso.org*

7 Museo Castillo Serralé

This majestic Spanish Renaissance-style mansion stands atop El Vigía Hill, high above Ponce. It was built in the 1930s by the Serralles family, owners of the Don Q rum distillery. Guided tours lead through rooms filled with hand-carved period furnishings and paintings, and a permanent exhibit explores Puerto Rico's sugarcane and rum industries. The lush, landscaped gardens and courtyards offer panoramic vistas over Ponce. ☎ *Map F5 • Calle Vigía 17 • 787 259 1774 • Open 9:30am–5:30pm Tue–Sun • Adm*

22 miles (35 km) of coast between Ponce and La Parguera (see p78), and offers great diving. Beginning at a depth of just 50 ft (15 m), the steep drops and canyons, which are studded with coral formations, teem with marine life. 📍 *Map C6-F6*

9 Gilligan's Island This uninhabited mangrove-fringed cay, named for its similarities to the island in the popular US sitcom *Gilligan's Island*, lies less than half-a-mile (1 km) offshore of Bosque Estatal de Guánica. It is rimmed with beaches that dissolve into turquoise shallows where conditions are perfect for snorkeling. Restrooms and picnic tables serve day-trippers, who flock here on weekends. 📍 *Map D6*

10 Central Aguirre Built around the Central Aguirre Syndicate sugar refinery near Salinas in the late 19th century, this once-thriving company town had plantation-style houses, a theater, bowling alley, hotel, hospital, and even a golf course. The company closed in 1990 and the town has since been left to decay, but its ruins serve as a legacy of a once-glorious era. 📍 *Map H6*

Walk Around Ponce

Early Morning

 Begin your half-day tour at **Plaza Las Delicias**, where you can admire the fountain and various statues, and explore the **Museo Antiguo Parque de Bombas** and **Catedral de Nuestra Señora de la Guadalupe**. Stroll around the plaza's perimeter to admire the 1847 townhall on the south side, and Romanesque 1899 **Casa Armstrong Proventud** on the west. Turn south along Calle Marina for the **Casa de la Masacre de Ponce** (see p86). This lovely colonial structure is now a museum honoring the 17 nationalists killed by police during the 1937 demonstration. Retrace your steps to Plaza Las Delicias and turn right onto Calle Cristina. Walk down a block to admire the imposing Neo-Classical **Teatro La Perla** (see p86), erected in 1941.

Mid-Morning

One block further east, turn left onto Calle Salud. Ahead, on the southeast corner of Calle Isabel, and peruse the **Museo de la Música Puertorriqueña** (see p86). This museum is housed in an exquisite Art Nouveau building and displays fine exhibits tracing Puerto Rican music through the centuries. Walk west along Calle Isabel to the **Museo de la Historia de Ponce** (see p86), which features a scale model of the city among its historical exhibits. Back in the park, turn left for a gourmet lunch at the renowned **Mark's at the Meliá** (see p87). Don't forget to leave room for ice cream at **King's Cream** (see p87).

The Cordillera

ENCOMPASSING THE MOUNTAIN SPINE that runs the length of Puerto Rico, the Cordillera is accessed by a maze of winding roads that form the Ruta Panorámica. This well-signed route runs past historic plantation homes, lush forest preserves, and pretty lakes, and boasts fabulous views. Although the area's old-fashioned country way of life has given way to modernity, the pace here remains sleepy, enhancing the pleasure of a leisurely drive. The towns of Orocovis and Utuado are famous for their artisans, while Jayuya is a center of ancient Taíno culture. Although accommodations are few, Hacienda Gripiñas, a historic coffee estate, makes a great base for hiking up Cerro de Punta, the island's highest peak. To the west lies Maricao, a center of coffee-production renowned for its annual coffee festival.

Bosque Estatal Toro Negro

1 Reserva Forestal Carite

Combining primary and secondary forests, this preserve protects an important watershed in the Sierra de Cayey range. Feathery groves of bamboo and mist-shrouded dwarf forest here are festooned with mosses. This lush world entices with roadside picnic sites and 25 miles (40 km) of trails that are good for hikes and spotting around 50 species of birds, including the endangered endemic mountain hawk. Its proximity to San Juan draws crowds on weekends. 📍 *Map K4*

2 Aibonito

At 2,400 ft (730 m) above sea level, this is the island's highest town. It is surrounded by alpine pastures – hence its nickname, “Switzerland of Puerto Rico” – and flower-growing is a major industry here. The Neo-Classical Iglesia San José (1897) graces the town's main square and features a gold-leafed wooden altar. The best time to visit is between late June and early July, during the flower festival, when Aibonito is ablaze with anthuriums, begonias, orchids, carnations, and roses. 📍 *Map J4*

Reserva Forestal Carite

3 Orocovis

This town is famous for its wood-carvers who produce *santos* (see p47). Visit the tiny Museo Orocoveño, which honors the craft of saint-carving and also exhibits Taíno artifacts. South of town, the Mirador Orocovis-Villalba is a lookout tower with stunning views of the coast. 📍 *Map G4* • Museo Orocoveño: Carretera 155; 787 455 4217; by appointment

4 Barranquitas

This pretty town is the birthplace of Luis Muñoz Rivera and his son Luis Muñoz Marín (see p31). The elder's home, Casa Muñoz Rivera, is now an interesting museum. The Baroque Iglesia San Antonio de Padua, standing over the town's plaza, has a noteworthy arched ceiling and fine stained-glass windows. 📍 *Map H4* • Casa Muñoz Rivera: 787 857 0230; open 8:30am–4:20pm

Coffee

Puerto Rico's gourmet coffee, introduced to the region by Corsican immigrants in the early 1800s, is considered one of the best in the world. The cool, sun-kissed mountains of the southwest boast well-drained, fertile soils – perfect conditions for coffee production. Puerto Rico produces and exports millions of pounds (kilos) of coffee beans.

5 Hacienda Gripiñas This former coffee estate, built in 1863, enjoys a magnificent setting at a 3,280-ft (1,000-m) elevation, at the base of Cerro de Punta. Hikers will love this delightful base for exploring the mountains. The plantation home is now a *parador* (see p112) that offers guided hiking excursions, and coffee grown on the estate is served in the charming restaurant here. Evoking the atmosphere of yesteryear, this farm-hotel is worth a visit for a meal, even if you don't choose to stay (see p117).

6 Bosque Estatal Toro Negro This forest preserve protects over 10 sq miles (28 sq km) of rain-drenched cloudforest, whose waters feed tumultuous rivers and the sierra palms that line the

roadside. Trails penetrate the forest from the Doña Juana Recreation Center, where you can pick up area maps. *Coquí* frogs abound, and the endangered Puerto Rican parrot is among the 30 or so bird species to be seen while hiking. Anglers with permits can fish for bass in the numerous lakes. 📍 *Map F4*

7 Utuado This peaceful town was an important 19th-century center for coffee production, which funded the building of the Neo-Classical Iglesia San Miguel Arcangel, completed in 1878, on the main square. Nearby Lago Caonillas, a serene lake, is a popular weekend escape for city folk seeking peace in the mountains. Reach it via the scenic Carretera 140. En route, stop off at the studio-home of artist couple Miguel and Olga Guzman. 📍 *Map E3* • *Studio of Miguel & Olga Guzman: Carretera 140 Km 17.7; 787 894 8765; by appointment*

8 Cerro de Punta At 4,390 ft (1,338 m), this is the tallest peak on the island. It features a *mirador* (lookout tower) from which to enjoy spectacular 360-degree vistas. The steep and

narrow access road off Carretera 143 is daunting; park in the gravel lot at the base and hike the 656-ft (200-m) path to the top. The peak is studded with unsightly radio towers, but remains attractive thanks to an abundance of hibiscus bushes. 📍 *Map F4*

9 La Ruta Panorámica

A scenic route running across the island's mountainous interior, La Ruta Panorámica comprises dozens of roads spanning 166 miles (266 km) between the towns of Yabucoa and Mayagüez. Although convoluted, and with many junctions, the route is well-marked with brown "La Ruta" signs as it dips and rises and twirls through the spectacular landscape. Allow two days to cover the route end to end. You can enjoy simple meals and stock up on snacks at roadside *colmados* (see p112) along the way. 🗺 Map B4-L5

10 Maricao

This pleasant town on the western flanks of the cordillera is nestled in the valley of the Río Maricao and surrounded by glossy coffee bushes that carpet the hillsides like green corduroy. Time your visit for mid-February and the annual Festival de la Cosecha del Café (coffee festival), when the town bursts into colorful life with folkloric dancing. Allow time for an intriguing side-trip to the local fish hatchery (Vivero de Peces Maricao), where fish are raised to stock the island's lakes. 🗺 Map C4 • Maricao Fish Hatchery: Carretera 410 Km 1.7; 787 838 3710; open 8:30–11:30am & 1:30–3:30pm Thu–Sun

Scenic Drive on La Ruta Panorámica

Day One

📍 Begin at Yabucoa, in the southeast of the island, and head west along Carretera 182 to 181. From here, follow the "La Ruta" signs as you climb up into the **Sierra de Cayey** and through **Reserva Forestal Carite**, before dropping down to **Cayey** (see p92). Crossing the highway, turn left onto Carretera 1. The route ascends to **Aibonito** – explore the town center before continuing north to **Barranquitas**, with a diversion along Carretera 725 to **Cañon de San Cristóbal** (see p92) on the way. Explore the sites at **Barranquitas**, then head west along Carretera 143 to **Bosque Estatal Toro Negro**. Turn north onto Carretera 149 to see the **Salto de Don Juan Cascade**, which can be viewed from the road. A short distance further, turn left onto Carretera 144 for **Hacienda Gripiñas** and stay overnight.

Day Two

Retrace your route to Carretera 143, stopping to visit the **Museo Indígena Cemí** outside **Jayuya** (see p92). Back on Carretera 143, head west to **Cerro de Punta**. Hike the access path for good views, then continue along La Ruta to **Adjuntas** (see p92) – exit the town on Carretera 518. A web of well-signed, scenic roads leads to **Reserva Forestal Maricao** (see p92), where you can park at trailheads and hike. Descend on Carretera 120 to visit **Maricao** before ending your trip at **Parador Hacienda Juanita**, a charming old coffee estate (see p92).

East Coast & Islands

THE EASTERN SIDE OF THE ISLAND is dramatically different from the rest of Puerto Rico in several regards. It receives the brunt of the rainfall, feeding the lush rain forest of El Yunque, a tropical paradise that offers the island's best hiking. This is the domain, too, of high-end all-inclusive hotels, which are concentrated around Palmas del Mar in the south. The boating center of Fajardo is the gateway for excursions by ferry to the laid-back isles of Vieques and Culebra, which boast Puerto Rico's most sensational beaches and exquisite boutique hotels, and are fast evolving as centers for nature-focused adventure trips.

A hiking trail at the lush El Yunque

1 Vieques

This idyllic island is fringed by fabulous beaches, the best of which have only recently become accessible to the public, after 50 years of use by the US navy. Parts of the island's wildlife refuge can be accessed by hiking and mountain-biking trails. In the island's only town, Isabel Segunda, locals on horseback outnumber cars, and there is a fort, lighthouse, and an art gallery. Try paddling a kayak at night at Bahía de Fosforescente for an experience you'll always remember. Better yet, take a nocturnal dip in the waters and watch yourself glow (see pp16–17).

2 Culebra

Life on this lovely island, Vieques' smaller twin, revolves around the sleepy village of Dewey. US expatriates operate most businesses in town, many of which offer world-class diving and snorkeling trips. The island's many white-sand beaches include Playa Flamenco (see p39), which is considered to be Puerto Rico's most beautiful. A quarter of Culebra is a wildlife refuge, and is good for spotting marine turtles and birds, and manatees (see pp18–19).

3 El Yunque

Less than an hour's drive from San Juan, the El Yunque National Forest draws scores of city folk on weekends and holidays to hike well-maintained trails that lead through sodden forests. The lowland rain forest and upland cloudforests teem with birds and

riotously noisy coquí. A splendid visitors' center sets the scene for hikes along 36 miles (58 km) of trails, one of which ascends to El Yunque's highest point. Carry along some rain gear when hiking as clouds can form without warning and sudden deluges are common, notably in the afternoon (see pp14–15).

4 Playa Piñones

Join the picnickers from San Juan at this popular beach on weekends, and dig into local favorites, such as *alcapurria* (see p51), served at the food shacks here. Traffic jams can be a nightmare, but the 7-mile- (11-km-) long Paseo Piñones Recreational Trail, running along the shore, grants access for pedestrians and cyclists. If you tire of sunning, trails lead into the wetlands inland of the beach. 📍 Map L2

A snorkeling trip off the coast of Culebra

Ousting the Navy

During World War II, the US Navy began using Culebra and Vieques for target practice and amphibious assault training. On “red flag” days, locals were denied access to their own beaches. In the 1970s, they began “sit-ins” on the beach. Others even organized violent attacks on navy facilities. After being elected in 2000, Sila Calderón (the island’s first female governor) campaigned for the navy’s withdrawal, and in 2003, it finally withdrew.

5 Río Grande

This beach resort was once a giant coconut and sugarcane plantation. Today it boasts magnificent golf courses and hotels lining lovely beaches. The river after which the resort is named winds through the nearby marshland and mangroves, which can be explored on boat trips. The town of Río Grande comes alive with music and dance during the Carnaval Ciudad de El Yunque, held here each June. 🗺 *Map M2*

6 Luquillo

The beauty of this beachside town is enhanced by the brooding Sierra Luquillo mountains, which form a dramatic backdrop. The sand here melds into warm, reef-

protected waters that are great for snorkeling. Playa Luquillo has a section known as Mar Sin Barreras, which is equipped for handicapped visitors. Further east, wind-whipped Playa Azul and Playa La Selva are washed by breakers that are good for surfing. 🗺 *Map N2 • Mar Sin Barreras: 787 889 4329; open 8:30am–5pm*

7 Reserva Natural La Cordillera

This group of coral cays, sprinkled across the Atlantic in a chain northeast of Fajardo, protects the nesting sites of seabirds and marine turtles. Dolphins are often seen on boat excursions from Fajardo, and the turquoise waters of the preserve are a snorkeler’s delight. Day Trip to Vieques

Morning

🕒 Start your day early and drive or take a taxi to **Fajardo**, arriving half an hour before the 9:30am ferry departure to **Vieques** (9am on Saturday and Sunday). Alternatively, you can fly to Vieques from San Juan with Vieques Air Link (see p105). In **Isabel Segunda** (see p16) turn left out of the ferry terminal and follow Calle Morropo uphill to the town's lighthouse and the **Siddhia Hutchinson Art Gallery** (see p17). Return to the waterfront and turn right onto Calle Benítez Guzman and head for Plaza Muñoz Rivera. Here, visit the Spanish-Renaissance style **Parroquia Inmaculada Concepción** church, built in 1860, then continue up Calle Fuerte to **Fort Conde Mirasol**, housing the **Vieques Art & History Museum** (see p16), where you can learn about the island's past through interesting exhibits.

Afternoon

Return to the town center and pick up a pre-arranged scooter or Jeep rental. Head south to **Esperanza** (see p16) for a burger or pizza lunch at **Bananas** (see p99). Afterward, drive west, and on Carretera 200, turn left and follow the coast to **Laguna Kiani** (see p17). Take time to explore the mangrove boardwalk before continuing west to **Green Beach** (see p17). Spend the rest of your afternoon snorkeling or simply relax here. Drop in at the island's romantic **Carambola** (see p99) for a candlelit dinner before returning to Isabel Segunda to take the ferry back to Fajardo.

PUERTO RICO'S TOP 10

Left Visitors exploring Vieques Center A hat for sun protection Right Pharmacy

TOP 10 Planning Your Trip

1 Passports and Visas

All visitors who are not US citizens require a passport to enter Puerto Rico, which is part of US territory. Many require a nonimmigrant visa, which should be obtained in advance; Australian, British, and Canadian citizens do not need visas for stays of up to 90 days.  *US State Department: www.travel.state.gov/visa*

2 Insurance

Get insurance for loss or theft of valuables as well as for medical purposes. Visitors intending to go scuba diving or spelunking must ensure that their policy covers these sports.

3 When To Go

The tourist season runs from December to April. This period is drier and cooler than the rest of the year, although January temperatures still average 77°F (26°C). Adventurous travelers may want to take advantage of low prices during the dangerous yet spectacular hurricane season (*see p103*).

4 What To Take

Light cottons and breathable, drip-dry synthetics, along with mosquito repellent, sunscreen, and a hat, are recommended. Also carry along smart-casual clothes for dining and nightclubs, swimwear,

and a light jacket for winter nights or for visits to the mountains.

5 How Long To Stay

Most visitors plan a holiday of a week to ten days, including time in San Juan, which takes three days to explore fully. Vieques and Rincón deserve two days each and Ponce, one day. Try to allow two weeks to take in the entire island, including its beaches and highlights from El Yunque to Arecibo.

6 Getting Married

At least two months' advance planning is required to wed in Puerto Rico. You will need to provide passports or identification cards, original notarized copies of birth certificates, and decrees of divorce or a spouse's death, if applicable. Blood tests and a medical examination by a Puerto Rican doctor are also required. Both parties must visit the Register Office to have documents authenticated and to obtain a marriage license, after which the marriage is official.  *Demographic Registry Office: 787 728 7980*

7 Disabled Travelers

Hotels, restaurants, and public buildings built in recent years have wheelchair access and special bathroom facilities. However, beyond San Juan, few sidewalks have

wheelchair ramps; and obstacles such as pot-holes are bars to easy mobility. Luquillo Beach (*see p96*) has a wheelchair ramp.

8 Traveling With Children

Puerto Ricans adore children. Most hotels allow children under 16 to stay with their parents for free; some may charge an extra-bed rate. Items such as baby food and diapers are easily available here. Children's car seats are not offered in rental cars.

9 Innoculations

Puerto Rico poses no serious health risks in terms of infectious diseases, except for dengue fever, which is transmitted by mosquitoes (*see p109*). No proof of vaccinations is required for travelers. But, it is advisable to have up-to-date innoculations for Hepatitis A and B, tetanus, and typhoid.

10 Further Reading

You'll gain a greater appreciation for Puerto Rico by reading about its fascinating history. Several books regale the struggle for independence and the ongoing effort to shape a post-colonial identity. *When I was Puerto Rican* by Esmeralda Santiago and *Puerto Rico in the American Century* by César Ayala are recommended.

Left **Relaxing on the beach in December** Right **A local church**

TOP 10 General Information

1 Time Zone

Puerto Rico is 1 hour ahead of US Eastern Standard Time (EST) and 4 hours behind Greenwich Mean Time (GMT). There is no Daylight Saving Time.

2 Electricity

The electricity supply works mainly on a 110-volt system. Some outlets are 220 volts – these are usually marked. Plugs are the two-pin type, so visitors from Europe may need adaptors. Power cuts are frequent, but most tourist facilities are backed up by generators.

3 Opening Hours

Shops are usually open 9am–6pm Monday to Saturday; some are also open 11am–5pm on Sunday. Banks open 9am–3:30pm Monday to Friday and 10am–noon on Saturday. Museum hours vary – many are closed on Monday. Most offices and businesses open 8:30am–5:30pm Monday to Friday and close for lunch (noon–1pm).

4 Public Holidays

Puerto Rico recognizes all US federal holidays in addition to its own commonwealth-established ones. All public offices and many businesses stay closed.

5 Religion

Puerto Rico is predominantly a Catholic country, although the

church plays a limited role in daily life. Every town has a patron saint and many Puerto Ricans venerate a preferred saint or saints. Adherents of *santería* (see p43) meld Catholic and African religious traditions. About 15 percent of Puerto Ricans are Protestant. Spiritualism is ingrained, especially among the lower-income classes.

6 Language

Spanish and English are both official languages. Spanish is spoken by everyone, but very few locals speak English.

7 Machismo

Machismo is mostly limited to flirtatious solicitations (often indiscrete or vulgar) to women, but can also include expressions of bravado or even aggression intended to demonstrate male pride.

8 Climate

Puerto Rico is a tropical island and is warm all year round. The best weather occurs from December to April, while the rest of the year is rainier and hotter. Hurricane season is from June to November.

9 Embassies and Consulates

Many countries maintain consulates in San Juan and can provide assistance to travelers with lost or stolen passports, legal issues, or other

emergencies. Canadian and UK consular affairs are handled by offices in Florida. 🇨🇦 *Canadian Consulate: (305) 579 1600*
• *UK Consulate: (305) 374 3500, askmiami@fco.gov.uk*

10 Gays and Lesbians

Gay and lesbian rights are protected by US federal law. The gay community is fairly overt in cosmopolitan San Juan, while the lesbian scene remains largely hidden. The rest of the island is conservative.

TOP 10 Arriving in Puerto Rico

1 By Air from Europe

Virgin Atlantic offers direct flights once a week between London Gatwick and San Juan. Iberia offers direct flights to Puerto Rico from Madrid. Several major international airlines fly from Europe to Miami and New York, where you can take a connecting flight to Puerto Rico.

2 By Air from North America

Several airlines, such as American Airlines, Delta, and Continental, offer direct flights to Puerto Rico from gateways throughout the US. Air Canada also offers direct services from Canada.

3 Airfares

Airfares vary widely, so compare quotes from Internet suppliers, airlines, and travel agents. Some wholesalers and charter-flight companies offer the best airfare and hotel packages.

4 Luis Muñoz Marín International

San Juan's airport, which is the busiest in the Caribbean, is only a short taxi ride from the city's hotel strip. It has two terminals – the Main Terminal and the American Airlines Terminal – both of which together receive direct flights from more than 20 US cities. Luis Muñoz Marín International

Airport is the Caribbean's main hub for connecting flights to other islands. Map U2 • www.san-juan-airport.com

5 Other Airports

Some international flights arrive at San Juan's Isla Grande Airport, close to Old San Juan, Condado, and the cruise-ship port. This airport is mainly used for flights to Vieques (see pp16–17) and Culebra (see pp18–19). A few flights also arrive at airports in Aguadilla (see p78), Mayagüez (see p72), and Ponce (see p82). Isla Grande Airport: Map U2

6 Touts

Hordes of touts often await arriving travelers outside baggage claim, and offer a variety of services such as money exchange, rental cars, and illegal taxis. It is always sensible to decline these offers. Visitors arriving on pre-booked holiday packages are met by bona fide representatives.

7 Changing Money at the Airport

Puerto Rico uses US dollars. If you arrive in possession of Canadian dollars or Euros, the airport is a good place to change money. There are foreign exchange bureaus in the arrival halls at San Juan's airport, as well as an ATM, but this may be empty during high season.

8 Airport Taxis

White tourist taxis are available outside baggage claim at each terminal. They charge set rates according to zones – \$10 to Isla Verde; \$15 to Condado; and \$19 to Old San Juan. Several larger hotels offer shuttle-van service for guests. Journey time from the airport to Old San Juan is 30 to 45 minutes, depending on traffic. Puerto Rico Tourist Taxi • 787 969 3260 • www.cabspr.com

9 Arriving by Sea

San Juan is the home port of more than 20 cruise ships, which depart for cruises around the Caribbean. A large number of other Caribbean cruise ships include San Juan on their itineraries, and stay one or two nights in port. You can catch Ferries del Caribe vessels here from Santo Domingo in the Dominican Republic. Ferries del Caribe • 787 832 4800, 832 4905 • www.ferriesdelcaribe.com

10 Ports of Entry

Official ports of entry for independent sailors are San Juan, Aguadilla, Fajardo, Mayagüez, and Ponce. All arriving vessels must be inspected, and each arriving individual must fill out Declaration Form 6059B, as well as an I-94 form if not in possession of a valid visa.

TOP 10 Getting Around

1 Internal Flights

Cape Air offers regular connections between Luis Muñoz Marín International Airport and Ponce, Vieques, and Mayagüez. Air Sunshine flies to Vieques, while Vieques Air Link flies from Isla Grande Airport to Vieques and Culebra. ☎ *Cape Air*: 800 325 0714; www.capeair.com • *Air Sunshine*: 888 879 8900; www.air sunshine.com • *Vieques Air Link*: 741 8331; www.vieques-island.com

2 Long-Distance Buses

Although large buses serve metropolitan San Juan, there is no scheduled long-distance service using large motorcoaches. Travel between island towns is by small *públicos* (see below).

However, private operators like American Tours of Puerto Rico and Rico Sun Tours offer trips around the island in modern, air-conditioned buses with toilets and reclining seats.

☎ *American Tours of Puerto Rico*: 787 547 1819 • *Rico Sun Tours*: 787 722 2080; www.ricosuntours.com

3 Públicos

Públicos, or *gua-guas* (buses), are privately operated minibuses that are the staple for travel throughout Puerto Rico. They usually depart from each town's main plaza and can be hailed anywhere along their

routes. *Públicos* make frequent stops and are a cheap way to travel locally.

4 City Public Transport

The Metropolitan Bus Authority runs a reliable bus service in San Juan; the brightly colored bus stops are clearly marked “*parada*” (bus stop) and fares are 75c. The rapid-transit *Tren Urbano*, which connects San Juan's business and Bayamón districts, operates from 5:30am to 11:30pm. There are free trolleys in Old San Juan and Isla Verde districts, and in downtown Ponce. Elsewhere, *públicos* provide bus services. ☎ *Metropolitan Bus Authority* • 787 767 7979 • www.dtop.gov.pr/ama/rutas.htm

5 Taxis

Taxis are easily available within San Juan and major cities. Fares within San Juan are zoned. Not all non-zoned taxi drivers use their meters, preferring to charge a set fare. *Linéas* (or *colectivos*) – private taxis in which you share rides with other passengers – operate in many towns.

6 Car Rental

Most major car rental companies have offices at the airport, in San Juan, and in larger cities. It is wise to reserve a car ahead of your arrival. Scooters can be rented on Vieques and Culebra.

7 Driving

Driving in Puerto Rico requires extreme caution. While the island has an extensive road system and good signage, many drivers disregard traffic regulations and towns can get congested. When trying to find a destination, be aware that the Km figure in an address is a distance marker.

8 Walking

Walking is the best way of exploring Old San Juan and Ponce's historic downtown, so remember to wear comfortable shoes. It is advisable to carry drinking water.

9 By Bicycle

The serene islands of Vieques and Culebra, and the Rincón area, are ideal for exploring by bicycle. You can rent one from Vieques Adventure Company. ☎ *Vieques Adventure Company* • 787 692 9162

10 By Boat

The Port Authority's ferries depart Fajardo for the islands of Vieques and Culebra several times daily, but there is no service between Vieques and Culebra. Car ferries also serve the two islands. Private boats can be chartered at marinas. ☎ *Puerto Rican Port Authority* • Fajardo: 800 981 2005 or 800 863 0852; Vieques: 787 741 4761; Culebra: 787 741 3161

3 Local Tour Operators

Found throughout the country, local tour operators are often the most reliable sources

of information about sightseeing and activities related to specific regions and destinations.

4 Websites

There is a huge amount of information about the country available online. Google and other Internet search engines are a useful means of locating any specific information you may need, such as current weather conditions, the cost of flights, or the availability of sporting activities. Try logging on to www.gotopuertorico.com, www.puertoricoday-trips.com, and <http://welcome.topusertorico.org>.

6 English-Language Newspapers

El San Juan Star publishes a daily edition and is available online (www.thesanjuanstar.com). The Vieques Times is published monthly.

7 Local Publications

Several daily Spanish-language newspapers compete, including

El Nuevo Día, *El San Juan Star*, and *Primera Hora*. Several towns also publish their own local newspapers – most are available online.

8 Bookstores

Several bookstores in San Juan, such as Bookworm and Borders, have a good range of guidebooks, maps, and other travel-related literature. Hotel gift stores are also good sources. 📍 *Bookworm: Map W1; Av Ashford, Condado 1129, San Juan; 787 722 3344 • Borders: Map T2; Av Franklin Delano Roosevelt 525, Hato Rey, San Juan; 787 777 0916*

9 Guides

There are many well-informed and qualified guides available in Puerto Rico, although some individuals offering their services can be a nuisance. Ask your hotel concierge or local travel agencies for a recommended and reliable guide. Many taxi drivers also hire themselves out as guides.

10 Libraries

San Juan's Biblioteca Nacional has a vast array of books, maps, and documents, but they are mainly in Spanish. Most of the other towns also have libraries. 📍 *Biblioteca Nacional: Map W6 • Av Ponce de León 500, San Juan • 787 725 1060 • Open 8am–4:30pm*

TOP 10 Banking and Communications

1 The US Dollar

The US dollar (\$) is the local currency, sometimes referred to as the *peso* or *dolar* by locals. The dollar is divided into 100 cents (*centavos* or *chavitos* to locals), with coins in denominations of 1, 5, 10, 25, and 50 cents, and notes of 1, 2, 5, 10, 20, 50, and 100 dollars in circulation.

2 Foreign Currencies

Some tourist entities may accept payment in Canadian dollars and Euros, although these are the exception. Major foreign currencies can be exchanged on the island at banks, *casas de cambios* (see below), and hotel reception desks.

3 Banks and ATMs

Puerto Rico has many US- and foreign-owned, as well as local, banks. Most will change foreign currencies at the official rate. Opening hours are typically 9am–3:30pm, Monday to Friday. Major banks, such as Banco Popular, Banco de San Juan, and Citibank, operate ATMs that accept MasterCard and Visa.

4 Casas de Cambio

These currency exchange bureaus are relatively few. They offer more or less the same rate as banks, usually cash traveler's checks, and have longer hours than banks. The Thomas

Cook Foreign Exchange at Luis Muñoz Marín International Airport and the Caribbean Foreign Exchange in Old San Juan are reliable.

☎ *Thomas Cook Foreign Exchange: Map U2; Luis Muñoz Marín International Airport; 787 791 1960*

• *Caribbean Foreign Exchange: Map U6; Calle Tetuán 201B, Old San Juan; 787 722 8222*

5 Credit Cards

Major credit cards are widely accepted in hotels, restaurants, and tourist-oriented stores, but not in *colmados* (see p112) and other out-of-the-way stores. Credit cards can be used for cash advances at banks, though you may be charged a commission. You can also use them at ATMs, so carry your personal identification number (PIN) before leaving for your trip.

6 Telephones

Puerto Rico has an efficient telephone system. Public phones are ubiquitous and prepaid phone cards are easily available. Calls from hotels can be expensive. To call the island from North America, dial 1, then 787 and the local number; from the UK, dial 00 for international access, followed by 01, then 787 and the local number. All phone numbers within Puerto Rico have a 3-digit area

code, 787. So dial all 10 digits for calls within the island.

7 Cell Phones

AT&T Mobility and Claro (the wireless arm of the Puerto Rico Telephone Company) offer cellular services throughout the island. However, don't count on your cell phone working in some of the relatively remote locations.

8 Post Offices

The US Postal Service extends to Puerto Rico, where US rates apply and service is speedy and efficient. Every town has a post office. Check with the reception staff of your hotel to see if they can forward your mail to the post office.

9 Internet

Many of the larger hotels provide a complimentary Internet service, while others charge a fee. An increasing number of hotels have a WiFi service. Internet cafés are widely available and charge reasonable rates.

10 Television and Radio

Most hotels include cable TV in room rates, with international channels such as CNN and the BBC, along with local Spanish-language ones. Premium channels may be available on a pay-per-view basis. Most radio stations are Spanish language.

TOP 10 Security and Health

1 Emergencies

In an emergency, dial 911 for fire, police, or medical assistance. Hotels can also arrange for a doctor in an emergency. Major disasters, such as hurricanes and floods, are handled by Puerto Rico Emergency Management Agency.

2 Health Services

Local health standards are comparable with those of the US mainland. There are doctors and hospitals in all cities, and clinics in smaller towns. Many large hotels have nurses on staff. Your hotel may also be able to recommend an English-speaking doctor. Invest in insurance for travel, as fees for medical services can be high. Most US health-insurance plans are accepted.

3 Pickpockets

Plenty of tourists get lulled into a false sense of security and are victims of pickpocketing or opportunistic snatch-and-grab theft. Avoid wearing jewelry in public, keep wallets in a secure pouch, and keep your valuables in a hotel safe.

4 Personal Safety

The US State Department issues no special travel advisories for Puerto Rico, where violent crime against tourists is extremely rare. However, muggings have occurred at night on San

Juan's Condado and Isla Verde beaches. Stay alert when walking along the back streets of San Juan and the area around Old San Juan's cemetery and La Perla district. There is scant regard for traffic regulations, so be sure to drive carefully.

5 Harassment

Many visitors may experience some level of harassment in tourist areas, from touts offering services or selling trinkets. Rudeness rarely produces a satisfactory outcome – a firm “no” should suffice.

6 Police

Tourist police patrol Old San Juan, as well as Condado and Isla Verde. Every town has a local police station. Many low-ranking offices do not have English-speaking staff. If you are a victim of theft, or worse, expect a lengthy bureaucratic procedure with *la policía*.

7 Sunstroke

The tropical sun is intense, so make sure you use sunscreen with a high UV factor, plus a hat, sunglasses, and long-sleeved shirts. Avoid the midday sun. See a doctor if, after sun exposure, you feel nauseous, dizzy, or chilled.

8 Women Travelers

Women can receive a fair amount of unwanted attention from Puerto

Rican men. Usually it takes the form of harmless, though sometimes vulgar, comments. Avoid remote beaches and walking alone at night.

9 Prescription Medicines

It is always a good idea to bring along enough prescription medications to last the duration of your stay. Still, pharmacies are ubiquitous in Puerto Rico and there should be no problem getting refills should the need arise.

10 Water and Food Hygiene

Tap water is said to be safe to drink, but try to stick to bottled water. Food hygiene is generally good, but avoid food that has been in the sun or stood too long on a buffet counter.

TOP 10 Things to Avoid

1 Traffic Jams

Rush-hour traffic is notoriously bad in San Juan, which can get appallingly congested, as can almost every other town in Puerto Rico. Traffic jams are common at popular beach resorts, especially on weekends and public holidays. At these times, congestion is particularly bad when re-entering San Juan from the east.

2 Taxi Scams

Tourist taxis in San Juan operate within zones with pre-fixed rates (see p105). Elsewhere on the island, including metropolitan San Juan, the taxis use meters. For longer journeys and sightseeing, you will have to negotiate a fare with the driver before you set off. Most are honest, but there are a few who will attempt to bamboozle you out of large sums. Ask your hotel concierge for an appropriate fare.

3 Running Out of Cash

Banks in Puerto Rico are usually closed on weekends, and ATMs often run out of cash. The *casas de cambio* (see p107) are more flexible, but are relatively few in number. So make sure you are carrying enough cash, especially on weekends or if you are going to the countryside or mountains.

4 Money-Changing Scams

Avoid people offering to exchange foreign currency for US dollars. There are many incidences of tourists being robbed or short-changed by touts and unscrupulous money-changers.

5 Mosquitoes

Although mosquitoes in Puerto Rico do not carry malaria, they can transmit dengue fever – a viral infection for which there is no vaccine. To avoid being bitten, use insect repellent containing DEET and wear light-colored clothing. Long-sleeved shirts and full-length pants also help, as can a ceiling fan above your bed.

6 Sand Fleas

Irritating and minuscule sand fleas, commonly called “no-see-ums”, are a nuisance on beaches around dusk and sometimes at dawn. Their bites itch terribly. Insect repellents rarely work, but Avon Skin-so-Soft is effective, so take some along.

7 Crowded Beaches

If it is a relaxing time you are after, then the popular beaches are best avoided on weekends and public holidays, when they become packed with families and tourists. This is especially true of beaches east of San Juan, which are

disgustingly littered after the crowds depart. Try to go mid-week.

8 Rip Tides

These dangerous, fast-moving undertows are common on beaches that receive high surf. They are difficult to detect and can change location. Always check with locals about tidal conditions before swimming. If caught in an undertow, swim parallel to the beach to escape.

9 Alcohol

Avoid consuming alcohol during the day as it can cause dehydration. If you do indulge, be sure to also drink plenty of water. Never drink if you intend to drive; drink driving is a major problem in Puerto Rico and penalties are severe if you are caught.

10 Drugs

Although Puerto Rico has less of a drugs culture than many Caribbean islands, drug dealers are present in some tourist resorts and nightclubs, and drug trafficking has contributed to an escalating crime wave. Corrupt Puerto Rican police have been implicated in trafficking, yet most police take a very harsh view of drug use. Buying and dealing drugs is both avoidable and dangerous – getting caught will do more than ruin your vacation.

TOP 10 Tours and Special Interests

1 Tours of San Juan

Although the best way to explore San Juan is on foot, free trolleys make sightseeing easier on hot days, although there is no narration. Also popular are Segway tours of the city, which run to 45 minutes or 2 hours and are narrated in English. By night, a guided walking tour with Legends of Puerto Rico brings the past back to life. ☎ *Segway Tours:* www.segwaytourspr.com • *Legends of Puerto Rico:* www.legendsofpr.com

2 Excursions to Vieques & Culebra

Although Vieques (see pp16–17) and Culebra (see pp18–19) deserve more than a short excursion, day trips are a great way of sampling these islands. East Island Excursions offers daily trips to Culebra aboard a high-speed catamaran, and nightly trips to Vieques to see the Bahía de Fosforescente. ☎ *East Island Excursions:* www.eastwindcats.com

3 Day Trips and Activities

Puerto Rico is small enough to explore on day trips from San Juan, and many companies offer excursions. Erin Go Bragh offers snorkeling and sailing trips to the Palominos Islands, which lie to the northwest of Fajardo. Other trips include kayaking in

Laguna Grande, and hiking in El Yunque (see pp14–15). ☎ *Erin Go Bragh:* www.egbc.net • *Kayaking Puerto Rico:* www.kayakingpuertorico.com

4 Spanish-Language Schools

Visitors keen to learn Spanish have plenty of opportunity to do so in Puerto Rico. Several language schools offer programs in San Juan and elsewhere on the island. ☎ *Spanish Abroad:* www.spanishabroad.com/sanjuan.htm

5 Bird-Watching

Puerto Rico is an ideal bird-watching destination. Despite its small size, it is home to some 350 bird species, including 17 endemic species, and 25 species that are endemic to other Caribbean isles (see p37). ☎ *Amazilia Tours:* www.amaziliatours.com

6 Sport Fishing

The waters off Puerto Rico are world-renowned for superb marlin fishing. The Mona Passage is good for dorado, marlin, and tuna. Several charter boats offer sport fishing trips (see p36). ☎ *Parguera Fishing Charters:* www.puertoricofishingcharters.com • *Wild Fly Charters, Vieques:* www.wildflycharters.com

7 Surfing

Puerto Rico offers tremendous surfing year-round, although the best

surfing season is October through mid-April. Rincón is regarded one of the best surf spots in the world, with waves exceeding 30 ft (10 m) (see p36). ☎ *Rincón Surf & Board:* www.surfandboard.com

8 Scuba Diving

Scuba diving off Puerto Rico is an exhilarating experience. Coral reefs stretch along almost 300 miles (500 km) of coastline. The north coast offers spectacular wall dives. Go through a diving company – you'll find several around the island (see p36). ☎ www.pureadventurepuertorico.com • *Culebra:* www.culebradivers.com • *Vieques:* www.blackbeardsports.com • *Isla Desecheo:* www.tainodivers.com

9 Whale-Watching

Humpback whales pass through the Mona Passage in winter. Whale-watching trips set out from Rincón, which has a tailor-made lookout area (see p55). ☎ *Taino Divers:* www.tainodivers.com

10 Gourmet Dining

A renaissance in the local culinary scene in recent years has fused traditional island ingredients with international cooking techniques, resulting in world-class dining. There are plenty of gourmet restaurants throughout the isle, and especially in San Juan (see pp48–9).

Left **A street stall** Center **Públicos** Right **Local souvenirs**

TOP 10 Budget Tips

1 Low-Season Travel

You can save a good deal of money by visiting between June and mid-December. This is the hurricane season, so prices are lower for hotels and car rental, and sometimes for airfares.

2 Street Food

Food prepared at street stalls and beach grills, or in *colmados* (see p112), is usually an excellent bargain. Often a plate of barbecued chicken or pork served with rice, black beans, and *plátanos* will cost less than \$5. Some of the best street fare is at Playa Piñones (see p49). Make sure your meal has been freshly cooked and hasn't been sitting out in the sun for too long.

3 Hagging

Most street stalls and souvenir stores mark up prices beyond what may be reasonable for crafts, necklaces, and other souvenirs. Hagging over a fair price is an accepted way of doing business, and essential to getting a good bargain. Expect to negotiate a reduction of 10–20 percent of the asking price.

4 Avoid Tourist Stores

Shops and souvenir stores in hotels and tourist-oriented malls are often overpriced. Unless the quality is exceptional, you're much better off

buying souvenirs at crafts markets. General items, such as toiletries, will be cheaper at neighborhood *colmados* (see p112).

5 Public Transport

Públicos and *guaguas* (see p105) are a fraction of the price of hiring a car or using taxis, and offer visitors the advantage of getting to mingle with locals. Although not as comfortable as taking your own transport, they are usually reliable and will get you to your destination very inexpensively.

6 Package Tours

Package tours can offer tremendous value and are usually far less expensive than booking airfares, hotels, and perhaps car rental separately yourself. Unlike on escorted group tours, you travel independently on a package tour and can often choose from several all-inclusive options at different prices to suit your budget.

7 Phone Cards

Most hotels charge exorbitant rates for calls made from guest rooms. You can save a considerable amount of money by buying a prepaid phone card in various denominations for use in public phones and sometimes even in hotel rooms. These are available in shops, supermarkets, and drugstores.

8 All-Inclusives

If you plan to spend most of your time at the beach and are not interested in dining around or exploring far and wide, consider checking into an all-inclusive resort hotel. These properties charge a single rate that includes your accommodation, meals, entertainment, and use of the hotel's facilities. Exactly what is included can vary from hotel to hotel, so check the fine print before making your choice.

9 Happy Hours

Many bars and restaurants offer an early-evening happy hour, usually between 6pm and 8pm, when cocktails and other drinks are sold at half price, sometimes accompanied by complimentary snacks. Also look for other specials, such as "Ladies Night," when women receive half-price drinks, two-for-ones, and even free admission to nightclubs.

10 Special Discounts

Surf the Internet for travel discounts. Many airlines and tour companies offer last-minute price reductions, but this may mean you have to leave at short notice. Some museums offer free or discounted entry on certain days. And look for promotional specials, frequently offered by newly opened shops, bars, and restaurants.

Left Fresh fruit and vegetables Right *Lechoneras*

TOP 10 Eating and Accommodation Tips

1 Colmados and Fondas

These brightly painted general stores scattered throughout the country sell pastries, sandwiches, and cheap meals – usually simple local dishes such as *fricase* (stew) or roast chicken with rice and beans. An interesting alternative is to savor a hearty, inexpensive lunch at a *fonda*, a simple workmen's café.

2 Fresh Fruit and Vegetables

There is no shortage of delicious tropical fruit to be enjoyed in Puerto Rico, but be sure to peel or thoroughly wash the food items before eating. Salads and other raw preparations in higher-end establishments are usually safe to eat, but should be avoided in *colmados* and *fondas*.

3 Bills and Tipping

Most upscale restaurants include a 10–15 percent service charge in the bill. This may or may not find its way to the staff serving you, so feel free to leave an additional 10 percent if the service warrants it.

4 Lechoneras

Puerto Ricans are fanatical about pork, their favorite dish, which is best enjoyed at a *lechonera*, (an open-air roadside restaurant, where whole suckling pigs are spit-roasted).

Most of these restaurants are open Friday through Sunday and are popular amongst locals during public holidays.

5 Alcoholic Drinks

Almost all international brands are available in Puerto Rico, but local beers and liquors are as good as any. Try the refreshing lager-style *Criolla*, *Medalla*, and *India* beers. Rums are aged for three ("white" or *carta Blanca*), five ("golden" or *dorado*), and seven or more ("aged" or *añejo*) years – the older the better. A tour of the Bacardi rum distillery (see p62) provides a primer.

6 All-Inclusives

These large resort hotels are ideal for vacationers who prefer all the hotel costs to be included in a single rate (see p111). Most of them offer buffet meals and a choice of one or more à la carte restaurants. They usually offer watersports and entertainment too, and can be a great way to enjoy a beach vacation at bargain rates.

7 Hotel Tax

All regular tourist hotels levy a 9 percent hotel tax, which you will find added to your bill. *Paradores* (see below) charge 7 percent, while resort hotels add an 11 percent tax on room rates.

8 Accommodation Types

Accommodations in San Juan range from charming colonial hotels with period furnishings to international-style modern beach resorts and casino hotels. There are also a few cheap guesthouses and apartments. Large all-inclusives line much of the north coast. Up in the mountains, there are country inns and guesthouses offering cozy, albeit simple, lodgings. Vieques is known for its trendy boutique hotels.

9 Paradores

Paradores are family-owned and operated inns outside San Juan. They range from centuries-old haciendas to small properties in out-of-the-way coastal villages. Although promoted for their intimacy, many are barely distinguishable from soulless motels, so if you plan on staying in one, try to check up on it before making reservations.

10 Reservations

It is advisable to book at least your first few nights prior to your arrival. During high season (see p102), it is wise to reserve all your accommodations well in advance, as the island gets very crowded. You can usually travel around during low season without pre-booking.

This historic wooden plantation-turned-parador has a delightful mountain setting and continues to function as a coffee estate. The rooms are functional but cozy and include four-poster beds and ceiling fans. A rustic restaurant serves tasty meals on the premises and also has entertaining live folk music. Map C4 • Carretera 105 Km 23.5, Maricao • 787 828 2550 • www.haciendajuanita.com • \$\$\$

4 Casa Grande Mountain Retreat

Once a coffee plantation, this bargain-priced mountain resort is wrapped in forest and boasts fabulous mountain vistas. Simply furnished cabins on stilts rise over a lush tropical garden, making for a beautiful setting. A colorful restaurant serves hearty meals. There are good hiking trails nearby. Map E3 • Carretera 612 Km 0.4, Utuado • 787 894 3939 • www.hotelcasa grande.com • \$\$

5 T.J. Ranch

Set on a coffee plantation amid dramatic limestone formations, this ranch has three comfortable cabins and makes a great base for hiking and bird-watching. It has a swimming pool, and serves meals in a thatched bohío (hut). Map E3 • Carretera 146, Arecibo • 787 880 1217 • www.tjranch.com • \$\$\$

6 Parador Villas Sotomayor

Popular with Puerto Rican families, this countryside resort is surrounded by forested mountains and offers horseback riding, forest trails, and a swimming pool. Accommodations are in modern, well-equipped cabins. Map E4 • Carretera 123 Km 36.7, Adjuntas • 787 829 1717 • www.paradorvillas sotomayor.com • \$\$\$

7 Casa Cubuy

A bird-watcher's delight, this simple mountain lodge on the south side of the El Yunque National Forest (see pp14–15) has sparsely furnished rooms that are airy and colorful and have balconies with good views. Breakfasts are included, and dinner is by reservation. Map M3 • Carretera 191, Río Blanco • 787 874 6221 • www.casacubuy.com • \$\$

8 Parador Baños de Coamo

This historic inn is known for its healing mineral pools. The ageing rooms are adequate, but the meals are satisfying and the leafy setting is peaceful. Map H5 • Carretera 546 Km 1, Coamo • 787 825 2186 • \$\$

9 Lago Vista Hotel

The 16 air-conditioned rooms overlooking Lake Guajataca have televisions, but the serenity and great hiking trails are the main lures here. There is also a swimming pool. Map C3 • Carretera 119 Km 22.1, San Sebastián • 787 280 5522 • \$\$

10 Parador El Buen Café Hotel

This is a modern hotel with stylish interiors, a pool, and an excellent restaurant and popular café. Map D1 • Carretera 381 Km 84, Hatillo • 787 898 1000 • www.elbuencafe.com • \$\$\$
