TOP 10 Montréal and Québec City's Highlights

Situated on the mighty St Lawrence River, the sights of these two cities captivate visitors with their history, culture and festivity. Not only were they both major players in the foundation of Canada but their portside locations have kept them at the heart of international commerce, resulting in a harmonious blend of heritage architecture and exciting modern venues that charm all those who come to Canada's "belle province."

1 Parc du Mont-Royal

Looming over Montréal's bustling activity, this mountain park is the most visited attraction in the city (see pp8-11).

2 Basilique Notre-Dame

North America's largest church when constructed in 1829 is still the Gothic Revival gem of Vieux-Montréal (see pp12-13).

3 Parc Olympique

Parc Olympique's many attractions include botanical gardens, an insectarium and sports facilities (see pp14-17).

4 Musée Pointe-à-Callière

The true birthplace of Montréal represents a merging of the city's past history and modern technology. Cutting-edge exhibitions and archeological artifacts allow visitors to experience six centuries of local life (see pp18-19).

5 Musée des Beaux-Arts de Montréal

The oldest and largest Québec museum contains works dating from antiquity to contemporary masters (see pp20-21).

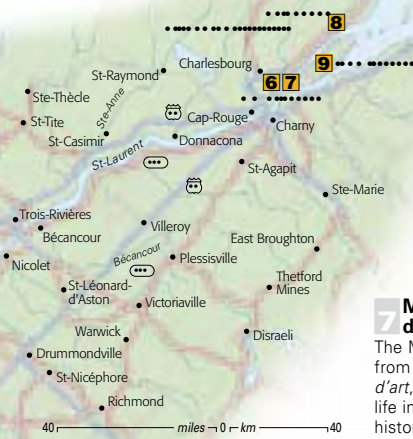

6 La Citadelle, Québec City

Three centuries of military presence continue in this working army base, which is home to a hospital, officers' mess, and the first observatory in Canada (see pp22–3).

7 Musée de la Civilisation de Québec

The MCQ's exhibits include artifacts from the First Nations, Chinese *objets d'art*, and items relating to everyday life in Québec during its 400-year history (see pp24–5).

8 Basilique Sainte-Anne-de-Beaupré

This granite basilica, built between 1923–63, features 240 stained-glass windows and a gleaming mosaic (see pp26–7).

9 Ile d'Orleans

Known as the “cradle of French civilization in North America,” this island of farm communities continues to preserve the traditions of the original settlers (see pp28–9).

10 Les Laurentides

This mountain range has long been the favorite year-round playground for week-enders and vacationers with its pristine lakes, hiking trails and ski slopes (see pp30–31).

TOP 10 Parc du Mont-Royal

The geographic highlight of Montréal are undeniably Mont-Royal's steep slopes. Named by Jacques Cartier in 1535 (see p32), the protected district of Parc du Mont-Royal covers more than 343 acres of forested mountain, providing abundant green spaces, shrubs and flowers, as well as habitats for hundreds of species of birds and other wildlife. Designed in 1876 by Frederick Law Olmsted, Mont-Royal continues to inspire locals as an arboreal delight in the center of their metropolis – activity options, depending on the time of year, include skating, cycling, paddle-boating, tobogganing and snowshoeing. To the northwest of the park is the impressive Oratoire St-Joseph.

Centre de la Montagne

🗨️ If visiting Montréal in winter you can still enjoy a version of the Tam-Tam Festival, as well as a drink, at the nearby El Zaz Bar (see p78).

🚗 Parking fees are high in Parc du Mont-Royal. Park your car inside the grounds of one of the cemeteries and walk to the summit lookout.

Standing 31 m (100 ft) high (right), the original steel cross was erected by Paul de Chomedé, Sieur de Maison-neuve on this site in 1643.

2 Trail Systems

The park has a network of forested corridors, popular with cyclists and runners in summer and cross-country skiers in winter.

3 Lookouts

Belvedere Kondiaronk (below) is the lookout of the Chalet du Mont-Royal. The Camilien Houde lookout faces east over the river. Locals sometimes refer to it as “Lovers’ Lookout.”

4 Cemeteries

Cimetière Notre-Dame-des-Neiges (Catholic) and Cimetière Mont-Royal (non-Catholic) are the two main resting places of the city. Far from sombre, they are adorned with lovely statues, sculptures and luxuriant plantings.

5 Lac aux Castors
The heart of Parc du Mont-Royal is Lac aux Castors. People gather during fair weather to paddle boats (*above*) or to ice skate in winter.

Map of Parc du Mont-Royal

6 Police Stables
Visits to the Police Cavalry Stables are possible, and it is common to see officers on horseback cantering through the park.

7 Maison Smith
Built for Boston merchant Hosea B. Smith in 1858, Maison Smith (*below*) is now home to the Centre de la Montagne exhibitions.

8 Centre de la Montagne
This is the base of a citizen group focusing on the preservation of and education about both the historic and natural legacy of the park.

9 Tam-Tam Festival
Sundays in the park during the summer belong to the exuberant Tam-Tam Festival (*left*). For more than 30 years drummers, musicians, dancers and artisans have met at the Monument Sir George-Étienne Cartier to party.

10 Oratoire St-Joseph
The dome atop this shrine is an overwhelming sight to the west of the park. Pilgrims flock to the oratory (*above*), inspired by tales of miracle cures (*see pp10–11*).

Frederick Law Olmsted

A champion of the City Beautiful movement of landscape architects, Frederick Law Olmsted was born in Hartford, Connecticut in 1822. Best known for his visionary designs of Central Park in New York City, Olmsted's aim was to reject the formal plantations that had previously been in vogue and to complement the natural landscape with his pastoral designs and designated areas for recreation.

A new heritage status protects the Parc du Mont-Royal from commercial development.

TOP 10 Features of Oratoire St-Joseph

1 Brother André
Alfred Bessette, born in 1845, joined the Congregation of the Holy Cross in 1870. Here, as a humble cleric, he assumed the name of Brother André and began working extraordinary curative powers on the sick. He attributed his skills to St Joseph's intervention and petitioned for donations to build the Oratoire.

2 Neo-Classical Architecture
Inspired by the temples of Corinth, architects Dalbé Viau and Alphonse Venne designed the exterior of St Joseph's, but the completion of the project was a collaboration of Lucien Parent, monk Dom Paul Bellot and architect Gérard Notebaert.

3 Musée de St-Joseph
An extensive religious art collection heads the permanent features on display in the

Stained-glass window, Crypt Church

Museum of St Joseph. A fascinating wax figure exhibition depicts the life of the Holy Family in scenarios created by Canadian artist Joseph Guardo.

4 Crypt Church
Created in 1916 at the foot of the basilica, the crypt church has a main altar of Carrara marble. Jean-Charles Charest, a Montréal artist, has renovated the sanctuary with a new tabernacle, lectern, colonnade, and oak chairs. Don't miss the stunning stained-glass windows.

5 300 Stairs
It is common to see a pilgrim struggling up the 300 stairs to the basilica on his knees. Since many climb each year, plans to refurbish the stairs are in place, to the tune of \$8 million.

6 Pilgrims' Pavilion
A convenient overnight hostel adjacent to the parking area contains a souvenir shop and cafeteria. A resident organization also helps arrange personalized religious journeys for the faithful.

7 Votive Chapel
Canes, crutches and other medical aids left behind by cured pilgrims line the walls in this small but inspirational chapel. Visitors can light a devotional candle, then walk past a statue of St Joseph to the room of Brother André's tomb.

8 Brother André's Tomb

Brother André died on January 6, 1937, at the age of 91. A beautiful fresco, created by Henri Charlier, decorates his tomb wall. Also here is a register of millions of pilgrim signatures seeking canonization for the venerable Brother.

9 Altar and Stations of the Cross

The magnificent altar, crucifix and wooden statues of the 12 Apostles are creations of the French artist Henri Charlier. Roger Villiers sculpted the Way of the Cross between 1957–9; the stunning interior mosaic was added to the altar in 1960.

Altar and Crucifix

10 Les Petits Chanteurs du Mont-Royal

Begun in 1956 by the then head of the church Father Brault, the oratory's choir is made up of 170 boys aged between 9 and 17. Their silky vocals embellish more than 60 religious festivities each year, both at the oratory, around the country, and abroad. The boys receive their schooling here when they are not performing.

The History of the Oratoire St-Joseph

The saga of Montréal's mammoth Oratoire St-Joseph began with the construction of a tiny chapel in 1904 by Brother André and friends. However the final structural elements only came together in 1967 – 30 years after Brother André's death. More than 150 m (500 ft) above street level, it is a staggering 60 m (195 ft) from the floor to the peak of the dome – the second largest in the world after St-Peter's in Rome. Reminiscent of Italian Renaissance architecture, the basilica features Corinthian columns, stained-glass masterpieces, and one of the largest carillons in North America (56 bells). More than two million visitors pack the monument each year, with crutches and wheelchairs left behind as evidence of the continuing cures taking place here. Brother André's followers are convinced of his powers and are attempting to secure his canonization. In accordance with the Catholic church, two posthumous miracles are needed to earn a sainthood. In 1982, with the cure of a cancer victim, Pope John Paul II recognized the first miracle; André's followers eagerly await a second.

TOP 10 Basilique Notre-Dame

The most magnificent landmark of Vieux-Montréal is this mammoth Gothic Revival undertaking designed by Irish architect James O'Donnell and built between 1823–9. This thriving Catholic church has a stunning medieval-style interior that features walnut-wood carvings, exquisite stained-glass windows, 24-carat gold stars in a vaulted blue ceiling, as well as one of the largest Casavant organs in North America. Don't miss the fine art paintings in the nave and the impressive Chapelle du Sacré-Coeur hidden behind the altar.

C Claude Postel Chocolatier (75 Notre-Dame Ouest) serves incredible sandwiches, coffee and desserts.

1 Gothic Revival Architecture

Rectangular in shape, contrary to the norms of the day, Notre-Dame features arcades with cross-ribbed vaulting.

2 Stained-Glass Windows

In 1929 Olivier Maurault, a priest and author, conceived the present-day windows, which depict both early religious events as well as scenes from the everyday lives of people of Vieux-Montréal.

3 Le Gros Bourdon

It is possible to hear the amazing chimes of Le Gros Bourdon, the largest bell in North America, some 30 km (18 miles) outside Montréal.

4 Casavant Organ

Joseph Casavant was a Québécois blacksmith and the first significant builder of pipe organs in Canada. He built the famous Notre-Dame organ (*left*) for the basilica in 1891.

6 The Pulpit
 Architect Victor Bourgeau's first known work is the 1844 spiral staircase pulpit (*left*), which some say resembles the tiers of a wedding cake. Set in the middle of the church, it allows the congregation to hear sermons without amplification.

Plan of Basilique Notre-Dame

10 Séminaire St-Sulpice
 Built in 1685 by the Sulpician order, this structure beside the basilica (*below*) is the oldest building in Montréal (*see p55*).

James O'Donnell

Irish architect James O'Donnell was contracted to draw plans and oversee the construction of Basilique Notre-Dame in 1823. A Protestant by birth, O'Donnell's pride in the basilica caused him to convert to Catholicism, allowing him burial inside "his" church. Synthesizing many divergent design elements from contributing architects, he introduced the Gothic Revival style into Canadian architecture.

5 The Altar
 In 1880 local artists Henri Bouriché and Louis-Philippe Hébert created complementary wood sculptings backed by azure for this spectacular altarpiece (*above*).

7 Chapelle du Sacré-Coeur
 Built in 1888, this gem (*above*) hides behind the main altar. Countless marriage ceremonies take place here, inspiring the moniker of "The Wedding Chapel."

8 Daudelin Sculpting
 Sculptor Charles Daudelin's bronze *reredos* (*below*), which hangs behind the Chapelle du Sacré-Coeur, is among his most dramatic works.

9 Famous Weddings
 Many famous couples have tied the knot in Notre-Dame but the most mentioned celebrity wedding is that of recording star Céline Dion in 1994 (*see p39*).

Architect James O'Donnell is buried at the foot of the first column on the side of the churchwarden's pew.

TOP 10 Parc Olympique

One of Montréal's most remarkable attractions, *Parc Olympique* is also one of its most controversial. Built for the 1976 Olympic Games, it remained unfinished until the 1980s, despite a cost of \$1.4 billion, and the retractable roof over the stadium has never fully worked. Nevertheless, visitors can easily spend a full day or two entertained by the varied exhibitions, sights and activities available within this immense quadrilateral. Ride the funicular to the top of the *Tour Montréal* for the most enthralling view of the region.

2 Aréna Maurice-Richard

Named after the Montréal Canadiens hockey legend Maurice "Rocket" Richard, the indoor rink (*above*) continues to promote the sport. The museum "Univers Maurice-Richard" features the scoring ace's memorabilia.

3 Biodome

The Biodome houses dazzling ecological attractions, with indigenous plants and animals of the Tropical Forest, Polar World (*below*) and Laurentian Forest.

4 Insectarium

Quebecer Georges Brossard, known as "the Bug Man," roams the world collecting exotic insects then displays them in this riveting showcase (*above*).

6 Tour Montréal

For the best view of Montréal ride the extraordinary, 2-minute, 76-seat funicular in the Tour Montréal (*above*). An observatory sits atop the world's highest leaning tower, almost 152 m (500 ft) from ground to summit.

10 Village Olympique Condos

An elegant, multi-tiered structure built to house athletes for the 1976 games is now a desirable set of condominiums.

7 Marché Maisonneuve

More than just a taste of fresh market fare, the Marché Maisonneuve also provides a gathering point. Attracting clientele from all over the city and the province, the market is a great spot for people-watching.

5 Jardin Botanique

Founded in 1931 and covering nearly 200 acres, the lush gardens were created by gifted horticulturist Henry Teuscher (*see pp16–17*).

8 Musée Château Dufresne

The Gothic-inspired private residence (*left*), was originally designed and constructed by Parisian architect Jules Rénard and Marius Dufresne between 1915 and 1918. It now welcomes a variety of decorative exhibitions.

Mayor Jean Drapeau

Many agree that the enthusiasm of Jean Drapeau, the mayor of Montréal from 1954–7 and again from 1960–86 (*see p33*), put Montréal on the international map. A lawyer by trade, he was passionate about his city, and while in office oversaw the building of the Métro subway system and the city's cultural venue Place des Arts, brought the World's Fair to town in 1967 and led the successful bid for the 1976 Olympic Games.

Left & Right **Chinese Gardens**

TOP 10 Jardin Botanique Features

1 Greenhouses
A series of greenhouses in the gardens, just past the entrance, provide enough humidity for various botanical environments to thrive, including a rainforest canopy, tropical medicinal plants, and beautiful, brightly colored orchids.

2 Chinese Gardens
A classic example of a Ming Dynasty garden, complete with its own Lac du Rêve (*Lake of Dreams, see below*). This garden covers over 6 acres and is lovingly nurtured by specialist teams from both Montréal and Shanghai. These are the largest Chinese gardens outside China.

3 Lac du Rêve
A lush domain in the center of the Chinese Gardens, where visitors can watch resident geese and ducks, find a comfortable area to relax, or just wander through the landscaped lake area surrounded by rock gardens, bridges and areas for reflection.

Lac du Rêve

4 First Nations Garden
The First Nations (native Canadians) celebrate their magical relationship with the plant kingdom within these 6 acres of gardens filled with interactive terminals, shows and special events. The area is divided up into five different zones: hardwood and softwood forests, an exploration of Nordic life, an interpretation pavilion, and a gathering area.

5 Sukiya Japanese Tea Pavilion
Honoring the traditional Japanese home, architect Hisato Hiraoka has gathered together the artistic ideals of Japanese society within this graceful structure. There is also an art gallery, Zen and bonsai gardens, an exhibition room and a gift shop.

6 Wu Yee-Sun Bonsai Collection
At any time of year, in any kind of weather, the captivating Wu Yee-Sun Collection of miniature bonsai trees is on permanent exhibit inside their greenhouse. This is one of the most impressive and largest collections of its kind in the world.

7 Treehouse
This remarkable interpretation center and interactive exhibition is laid out in four parts: Trees in our History, Anatomy and Growth, Trees and the

Forest, and The Many Uses of Trees. The Treehouse exhibit is located in the northeast sector of the gardens.

8 Ballade
 Since the gardens spread over many acres, take advantage of the popular Ballade minibus circulating continuously throughout the day along the paved pathways. Clearly marked areas within the gardens indicate where buses make regular stops.

9 Libraries
 Two fascinating libraries are situated within the gardens. The public library boasts an extensive

children's section and there is an academic library that is home to numerous scientific books, journals and papers, including studies of botany.

10 Children's Highlights
 Exciting and informative permanent features in the garden are part of the on-going effort to educate Montréal children and bring them closer to nature. Exhibitions that are exclusively for kids include the Youth Garden, Butterflies Go Free, Noah's Ark, the Hallowe'en Mask Competition and the Chlorophyll Room. Each season boasts an additional theme.

History of the Jardin Botanique

In 1932, Montréal's then-mayor, Camillien Houde, conceived of a master plan to put the unemployed to work by building the city's first botanical gardens. He hired architect Lucien Keroack to design the main building, and work began in the midst of a deep economic depression. Owing much to the Christian Brothers religious sect and particularly to Brother Marie-Victorin for his visionary concept, the team invited American landscape architect and botanist Henry Teuscher to establish the permanent collections and design the site. By 1938 the greenhouses were built and Montréal has presented this rich horticultural domain ever since.

Opening the Gardens

When it opened in 1938 the Jardin Botanique was second only to London's Kew Gardens in size. With a team of expert gardeners it continues to thrive, despite the city's harsh winters.

 *In the fall, the Magic of Lanterns festival displays 600 Chinese lanterns in the gardens to celebrate the harvest.*

TOP 10 Musée Pointe-à-Callière

Ascending like a sentinel from the confluence of the St Pierre and St Lawrence rivers, this National Historic Site honors the founding of the city at Place Royale. Within this landmark of stone and brushed steel are three sections: a chic building constructed on top of the ruins of older structures; the archeological crypt; and the renovated Customs House. A self-guided tour system allows each visitor to explore at their own pace, but guides are employed throughout the site to answer questions. These escorts are accomplished storytellers, bringing the history of the city to life.

7 A Customs House and its Architect

Montréal's old Customs House, built between 1836 and 1838, is a Neo-Classical building designed by John Ostell, a local architect. It has been carefully renovated to its original state by the museum.

10 Montréal Love Stories

This series of intimate portraits of the city (*above*) draws on photographs, videos, and first-hand accounts of Montréalers.

History of the Museum

In 1642 Paul de Chomedey, Sieur de Maisonneuve, founded the settlement of Ville-Marie, now Montréal, on this site. More than 350 years later, a series of excavations unearthed the way of life for these newcomers to Nouvelle-France and Musée Pointe-à-Callière opened with over one million artifacts. A permanent archeological dig is now in place in the area.

TOP 10 Musée des Beaux-Arts de Montréal

One of the most impressive museums in North America dominates both sides of stately rue Sherbrooke Ouest. It began life in 1860, when a group of collectors set up the Art Association of Montréal to present exhibitions, establish an art school, assemble a permanent collection of paintings and develop an art library. The members eventually raised finances to construct their own building, now the Michal & Renata Hornstein Pavilion, to house Old Masters and contemporary works. In 1991 the museum expanded into the modern Jean-Noël Desmarais Pavilion (illustrated here), on the south side of the street.

The on-site Café des Beaux-Arts serves delicious but expensive French bistro cuisine (see p72), but there is an inexpensive cafeteria in the same area of the Jean-Noël Desmarais Pavilion.

3 Octobre

An example of James Tissot's control and mastery of space, this 1877 allegorical work is of model Kathleen Irene Newton. It was painted in London after the demise of the Commune of Paris in 1871.

1 Portrait of a Young Woman

A combined use of light, color, texture and setting bring a feeling of intimacy to this 1665 Rembrandt work (above).

2 Apelles Painting the Portrait of Campaspe

Italian artist Tiepolo uses the unusual technique of a painting-within-a-painting in this 1726 work. Notice the artwork hanging on the wall of the studio, which is one of Tiepolo's own, entitled *The Bronze Serpent*.

8 The Wheel

Montréal's best-known contemporary painter, Jean-Paul Riopelle, lets his spatula work its magic on this canvas (1954–5), creating a mosaic of elements, colors and tones (*left*). Riopelle's signature is his chaotic style and some affinity to the brushwork of Cézanne.

9 The Black Star

Paul-Émile Borduas began as a church decorator before attending the École des Beaux-Arts in Montréal and finishing his studies in France. This 1957 painting won a posthumous Guggenheim award in 1960 as the best Canadian painting in a New York gallery, but the work has now returned to the artist's home town.

10 Mauve Twilight

Painted in 1921, this work, in the Michal & Renata Hornstein Pavilion, provides an evocative impression of winter by one of Québec's most loved artists, Ozias Leduc. His ability to capture the light of dusk here confirms his legacy for perfectly representing the provincial landscape.

5 The Tribute Money

Philippe de Champaigne's 1655 work portrays the Biblical tale of the Pharisees in this dramatic religious painting. The figure on the right is said to be a self-portrait and borrows stylistically from Raphael and Valentin.

6 Portrait of the Lawyer Hugo Simons

Otto Dix's artistic freedom is evident in this 1929 portrait of lawyer Hugo Simons. Seen with a halo of copper light, it illustrates the artist's wish to portray his subjects' souls in his works.

7 Venice, Looking out over the Lagoon

A great voyeur of the human landscape, Morrice is known for his departure from centuries of art tradition and for his philosophy of painting for painting's sake, seen in this work.

Museum Guide

There are three pavilions that make up the museum; the Michal and Renata Hornstein Pavilion (Canadian and Inuit art collection), which contains the Liliane and David M, Stewart Pavilion featuring decorative arts. The Jean-Noël Desmarais Pavilion, across the street and connected via a tunnel from Level S2, features European art. Entrance to the museum complex is possible at either address.

TOP 10 La Citadelle, Québec City

Dramatically set atop Cap Diamant, this installation of 10 buildings is the largest military fortification (40 acres) in North America. Overlooking the St Lawrence River, the site was begun by the French in 1750, but much of the striking star-shaped battlement seen today was constructed by the British between 1820 and 1850, built to defend the city from possible invasion from the United States in the 19th century. The fort is an active home to the Royal 22nd Regiment of the Canadian Army and daily military spectacles are staged to entertain visitors during the summer months.

Dalhousie Gate

There are no refreshment facilities inside La Citadelle, but you are welcome to bring a picnic.

The Changing of the Guard takes place daily at 10am from mid-June to September and lasts about 35 minutes.

In 1820, under the British Lieutenant-Colonel Elias Walker Durnford, building of the outer walls of the polygon structure began (*right*). No one could access the Great Lakes or the Atlantic Ocean without coming under the watchful eye of La Citadelle's forces.

2 Dalhousie Gate

Named in honor of Castle Dalhousie in Scotland, this formal entrance provides general access to La Citadelle and is the point at which processions and parades enter the grounds.

3 Changing of the Guard

One of the most entertaining military exercises involves precision marching with a musical escort. It is headed by Batisse the goat, the regiment's mascot.

4 Fortifications

The fortress (*left*) contains the most important elements for a military installation: height over the enemy; 360-degree visibility; difficult access; and durability. Having all of this to its advantage, La Citadelle has never once been attacked by an enemy.

5 Barracks

A large part of the site is given over to housing the troops. Tanks used in past battles by the regiment are also on display (*above*).

Plan of La Citadelle

9 Firing of the Cannon

The dramatic firing of the cannon takes place at the Citadelle every day at noon and at 9:30pm during the summer. It's a fine illustration of the military might the fort once displayed.

10 Museums

The collections unveiled in the two museums located here include everyday items used by soldiers over the centuries, a collection of rare military documents, ceremonial uniforms, antique armaments, precious art and other eclectic items.

6 Chapel

Since army life requires servicemen to work far from home for long periods, every effort was made to include elements of everyday life at the fortification, including a chapel (*above*).

7 Redoubt

Tucked away into sections of the fieldstone walls, cannons protect their flanks without the need for backup support.

8 Governor-General's Residence

Since Samuel de Champlain's tenure in the 1600s the Governor-General has resided here (*below*) during the summer.

Royal 22nd Regiment

Since 1969 the Royal 22nd Régiment's 2nd Battalion has provided the Guard for La Citadelle. This prestigious group was honored for their bravery during the Korean War (1950–53) and for numerous other peacekeeping roles since then. The splendor of Québec City's summer is heightened each day by military ceremonies such as the Changing of the Guard. The pomp of this pageant is highlighted by the scarlet uniforms and the regimental brass band.

Few museums in the world receive the kind of rave reviews given to the MCQ. The exhibitions (two of which are permanent) cover history, culture, sports, science, and intellectual and esoteric themes in a range of interactive ways that entertain and educate visitors. Designed by the celebrated architect Moshe Safdie, creator of Ottawa's National Gallery, the MCQ incorporates the Musée de l'Amérique Française, the Maison Chevalier, the Séminaire de Québec, as well as the Place-Royale Interpretation Center, to produce this vibrant look at local life in all its facets. The main entrance is the rue Dalhousie site.

10 Joseph the Boarder

An enchanting interactive presentation, located in the Jérôme-Demers Pavillon, recalls daily life in Le Petit Séminaire de Québec for "Joseph," a typical waif in the early days of Nouvelle-France.

Separatism

Ever since the British made an offer in 1848 to allow the French to maintain their language within an English-speaking domain, the relationship between what would become the nation of Canada and the province of Québec has been fraught with mistrust. As Canada and Québec continually reached political deadlock, separatist sentiment grew. Many Québécois feel that their province is distinct from the rest of Canada, and so would be better off as a separate nation. In 1980 and 1995, the province held referendums on whether to separate, and both times the vote was a narrow "no."

People of Québec ... Then and Now

Visitors can relive 400 years of Québec's history, meeting figures from yesterday and connecting to a past that is still shaping events of today. Original and archival film clips (*right*) from the National Film Board enliven the exhibit along the way.

TOP 10 Basilique Sainte-Anne-de-Beaupré

The oldest pilgrimage site in North America began life in 1658 as a shrine to this patron saint of Québec and was established as a basilica in 1887. The present church, started in 1923 but only completed in 1963, has a striking interior with sumptuous decoration, including impressive window archways. Hundreds of crutches, canes and medical aids can be seen stacked in pyramids beside the medieval-style entrance, testimony to pilgrim prayer and the healing powers associated with Sainte Anne de Beaupré. Stunning religious statues frame the entrance and line the luxurious gardens, including a Way of the Cross.

3 Candlelight Processions

It is common to witness evening candlelight processions honoring saints and religious holidays; those on July 25 and 26 celebrate Ste Anne.

4 Way of the Cross Bronzes

Life-size bronze statues (above) line the hillside trail beside the basilica. Honouring saints and Apostles, these artworks infuse a Renaissance feeling to the grounds.

Thomas Baillairgé continued his family's legacy as a religious decorator by carving pieces for the basilica, including a statue of St Augustin.

9 Cyclorama de Jérusalem

The world's largest panoramic painting (above) was created in Munich between 1878–82. It was shipped in sections in 1895 and still transfixes visitors with its overview of Jerusalem.

7 Scala Santa

8 Musée de Sainte-Anne

A separate building next to the main shrine features two floors of religious exhibitions focusing on Ste Anne and the 300 years of pilgrimage to this holy site.

Sainte Anne de Beaupré

Records of Ste Anne, mother of the Virgin Mary, begin in the 2nd century and a cult of Ste Anne is referred to as early as the 5th century. She is the patroness of housewives, cabinet-makers, miners and the Province of Québec. She features frequently in works of art, including some by Leonardo da Vinci. Her name derives from the Hebrew *Hannah*, meaning "grace."

5 Memorial Chapel

This votive chapel (right), built in 1878 to commemorate the original church on this site, contains religious memorabilia, rare documents and artifacts.

TOP 10 Ile d'Orléans

A haven of greenery and tranquility, Ile d'Orléans was one of the first European settlements in the New World and is referred to as the cradle of French civilization in North America. Ever since Jacques Cartier arrived here in 1535, the six parishes along this 30-km (18-mile) island have maintained many of the French traditions of the first settlers, and over 600 heritage buildings present a preserved architectural gem. The fertile soil means that the island's produce has become known as the area's open-air market.

No mention of Ile d'Orléans would be complete without reference to the spirit of the province at large, as it was embodied in the artistry of Félix Leclerc (1914–88). The legacy of this prolific singer, songwriter, poet and playwright (*see p38*), and his ability to perfectly express the Québécois sensibility is honored at L'Espace Félix-Leclerc (682, *chemin Royal*, St-Pierre • *Open daily*) where there is a permanent exhibition about his work, as well as a coffee house with live entertainment and a gift shop.

TOP 10 Les Laurentides

Les Laurentides (the Laurentians) are part of a shield of forested peaks enclosed by the Ottawa, St Lawrence and Saguenay rivers, and are best known for their magnificent ski slopes, which roll into sight one hour north of Montréal. First Nations relics indicate Amerindian settlements here over 4,000 years ago, and since the 19th century the region has been a rich agricultural zone and famous for hunting, trapping and fishing in its 6,000 lakes and ponds. Visitors can enjoy the historic Francophone villages, cycle and hike on numerous trails in summer, or sample the luxury of modern ski resorts in winter.

6 Val-David

"Jackrabbit" Johannsen
 Born in Norway in 1875, Herman "Jackrabbit" Johannsen settled in the Montréal area with his wife and children in 1928. First Nations residents apparently gave him his nickname after watching him moving mysteriously and swiftly across the snow. This remarkable man, who lived an active outdoor life until the age of 111, put the Laurentian Mountains on the global ski map and brought cross-country skiing to Canada.

TOP 10 Moments in History

1 First Nations
Iroquoian and nomadic Algonquian peoples had lived in Québec for thousands of years when the first Europeans arrived. “Kebec” is an Algonquian word meaning “place where the river narrows.”

2 Jacques Cartier
French explorer Cartier followed Basque fishing routes up the St Lawrence River, claiming “discovery” of Canada for King François I of France in 1534. He continued up the river in 1535 to land at the village of Hochelaga, where he named its mountain Mont Royal (see pp8–9).

3 Samuel de Champlain
French settlement began in 1608 when Samuel de Champlain (1567–1635) arrived in the region. The position of Québec City, protected atop Cap Diamant, became the driving force of the settlement, together with newly found riches of the fur trade.

Samuel de Champlain

4 British Takeover
The struggle between the French and British in Europe continued in the New World. In 1759, after a summer-long stand-off, British General James Wolfe won claim to the province during the 30-minute siege of Québec City on the Plains of Abraham. However, in 1774 the French were granted language and religion rights (see p25).

5 The Creation of Canada
After the Constitutional Act (1791) separated the colony into Upper Canada (southern Ontario) and Lower Canada (southern Québec), British Lord Durham was sent to solve the on-going problems between the English and French halves. He declared the Union Act of 1841, which fused the two sides under a single English-speaking parliament and effectively marginalized the French. By 1848, the English were forced to accept the use of French to avoid a backlash. On July 1, 1867, Québec and Ontario joined with Nova Scotia and New Brunswick to form the Dominion of Canada.

6 The Dark Years
Well into the 20th century the Roman Catholic church held considerable political sway in Québec. Maurice Duplessis’ right-wing Union Nationale (1936–39 & 1944–59) used the church’s moral influence to gain votes and accepted \$100-million-worth of graft.

7 The Quiet Revolution

The collusion of church and state led to widespread resentment among Québécois. With the death of Duplessis, liberal sentiment grew and a lively intellectual scene developed. In 1960, the Liberal Party was elected, leading to province-wide social reforms and economic development.

8 The October Crisis

Due to continuing political deadlock with Canada, support for the separatist movement among Québécois was growing. But disaster struck in October 1970 when the radical separatist Front de Libération du Québec (FLQ) kidnapped two high-ranking politicians, murdering one of them.

René Lévesque

9 Parti Québécois

René Lévesque's separatist Parti Québécois (PQ) was in power from 1976 to 1985 and ensured French-language dominance in Québec with Bill 101, alarming the province's Anglophone minority.

10 Oui ou Non?

In 1995, the PQ held a referendum in Québec on the separatist question – should the province split from Canada? The “no” side won by 50.5 percent. Despite the narrow defeat, support for separatism has dwindled in recent times.

TOP 10 Cultural Québécois

1 Gabrielle Roy
Born in Manitoba to a French mother, and the youngest of 11 children, Roy (1909–83) escaped her family's poverty and moved to Québec in 1939, where she began her career as a respected and prolific French-speaking novelist. Her first work, *Bonheur d'occasion* (*The Tin Flute*), was published in 1945, winning her the Prix Fémina award and the first of three coveted Governor General's awards.

2 Émile Nelligan
Nelligan (1879–1941) was a romantic figurehead who ushered French-Canadian poetry into a new epoch and is revered by Quebecers as their beloved literary spokesmen. In 1897 Nelligan joined the École Littéraire de Montréal and caused a triumphant public reaction to the reading of his poem "La Romance du Vin." In later years Nelligan's sanity deteriorated and he spent his last days in an asylum.

Émile Nelligan

3 Mary Travers
Travers (1894–1941), born to an impoverished family on the Gaspé Peninsula, was a natural entertainer and began her career at family soirées playing jigs on the fiddle and spoons. Known as "La Bolduc," she rose during the Great Depression to become the first popular singer-songwriter from Québec. A new generation of Quebecers has recently discovered her musical traditions.

4 Paul-Émile Borduas
The painter Borduas (1905–60) is one of Québec's most legendary artists and also one of its greatest political activists. Born in St-Hilaire, just outside Montréal, he made his name when he criticized the established social and political norms in 1948 by writing a scathing manifesto entitled *Refus Global*. He was a founding member of the abstract Automatistes school of art, which eventually included Jean-Paul Riopelle.

5 Félix Leclerc
Leclerc (1914–88) worked as a radio announcer, actor and comedian, but he is best remembered as a consummate storyteller, singer and songwriter, penning works about the Canadian countryside, solitude, and love. His monument is found on Ile d'Orléans, and a statue of him has been erected in his honor in Parc Lafontaine in Montreal (see p36).

Oscar Peterson

6 Oscar Peterson
 Peterson (b.1925) entered an amateur talent contest aged 14 in his home town Montréal – an event that he went on to win and which inspired him to leave high school and dedicate his life to jazz. However he was only given permission to do so by his father providing he worked to be the best jazz pianist in the world. Peterson succeeded beyond anyone's imagination: five unequalled decades of recordings are a testament to his virtuosity and have made him one of the greats of this musical genre.

7 Mordecai Richler
 The Montréal novelist, essayist and critic (1931–2001) was known for his sarcastic wit and biting opposition to Québec's separatist elements. His most popular book, *The Apprenticeship of Duddy Kravitz* (1959), was adapted for film, launching Richard Dreyfuss to Hollywood stardom in 1974. Richler is best known for writing about greed and the human condition, as in *St Urbain's Horseman* (1971) and *Barney's Version* (1998) but he also wrote a number of humorous essays.

8 Robert Lepage
 The first North American to direct a Shakespeare play at London's Royal National Theatre, Lepage (b.1957) is one of the most successful and daring writer/directors in the visual arts world. He has won every available Canadian award for his brilliant theatrical staging and continues to expand his creativity as a filmmaker.

9 Cirque du Soleil
 This circus troupe began life as street performers in La Malbaie, east of Québec City. Using an inventive mixture of world music, acrobatic brilliance and dazzling costumes, these entertainers have now conquered the world with their unique brand of magic. 10 Céline Dion
 Dion (b.1968) is one of 14 children born into a musical family in Charlemagne. A demo tape made as a 12-year-old led to an agent, René Angélil, a recording contract and eventually to her and Angélil's marriage. Today she enjoys vast popularity as one of the world's finest singers.

Vieux-Montréal & Vieux-Port

THIS ENCHANTING AREA, ESTABLISHED IN 1642, is the most rewarding spot to begin a tour of the city of Montréal. Its ancient churches, cobblestone streets, horse-drawn calèches and the bustling international port characterize this fascinating neighborhood. Vieux-Montréal epitomizes the romance, culture and joie-de-vivre of the metropolis, while the activity of mega-freighters and palatial cruise boats in the Vieux-Port reveals that Montréal is the shipping gateway to the Great Lakes. The old quarter combines high-tech novelty with old-world charm as well as some of the city's best dining options. Plan to spend several days exploring the craft shops, museums, cultural exhibitions and French bistros while savoring the European-style hospitality presented in a vivacious Québécois manner.

Basilique Notre-Dame

1 Basilique Notre-Dame

2 Musée Pointe-à-Callière
This striking modern building, married with the more ancient Place Royale setting, vibrates with activity throughout the year, as visitors digest one cultural exhibition treat after another on display inside and outside this museum (see pp18–19).

3 Séminaire St-Sulpice
Erected between 1684 and 1687 as the home of the Sulpician religious order, the St Sulpice Seminary is the oldest surviving building in Montréal. Chapelle Notre-Dame-de-Bon-Secours

Because of the cobblestone streets in Vieux-Montréal, make sure you wear comfortable shoes while exploring.

The French Arrival and the Fur Trade

The original Huron village of Hochelaga (meaning “where the rivers meet”) provided the French explorers with an ideal location from which to settle the new continent and the key staging area for exploration of the rest of North America. It also allowed access to the Huron fur-trading networks, resulting in an enormously profitable fur trade between Canada and Europe.

6 Hôtel de Ville

Montréal’s town hall was a gracious Second Empire-style edifice built between 1872 and 1878 by architect Henri-Maurice Perrault (1828–1903). Damaged by fire in 1922 it was rebuilt a year later in Beaux-Arts style, inaugurated in 1926 and is still used for its original function. It is possible to visit the interior and City Council sessions, open to the public on Monday nights at 7pm. Hôtel de Ville

7 Musée Château Ramezay

This elegant stone home was originally constructed to house the Governor of Montréal, Claude de Ramezay (1657–1724) and his 16 children. Once the Ramezay family departed it was thereafter known as the Maison des Castors (beavers) because it was home to the Compagnie des Indes (West Indies Company) and their burgeoning fur trade with Europe. In 1775 General Richard Montgomery lived here with his band of rebellious Americans while they made a failed attempt to capture the city for the US. It has been a museum since 1895, with artifacts illustrating the early settlement of Québec, from tools to uniforms to historic documents. Of particular note is the Nantes Salon, lavishly decorated by 18th-century French architect, Germain Boffrand (see p35). ☎ 280 rue Notre-Dame Est • Map L3 • (514) 861 3708 • Open Jun–Sep: 10am–6pm daily; Oct– May: 10am–4:30pm Tue–Sun • Dis. access • Adm • www.chateauramezay.qc.ca

Today it is a smart shopping center, and its designer boutiques, art exhibitions and souvenir shops attract a continuing influx of visitors under its shining dome (see p34).

Cartier was one of the Fathers of Canadian Confederation and his impeccable home, in which he lived from 1848 to 1871, provides an insight into the mores of his social class at that time. Parc du Mont-Royal

Biodôme, Parc Olympique

1 Parc du Mont-Royal
 Mont Royal, after which Montréal is named, defines the city's personality with its year-round outdoor attractions, multi-ethnic cemetery and lush, rolling breadth overlooking the St Lawrence River. Parc du Mont-Royal has attained the distinction of being the only place in Québec to receive both historic and natural heritage status from the government, which means that it is protected forever as a green space for all to enjoy (see pp8–11).

2 Parc Olympique
 This astonishing attraction offers exhilarating activities for all age groups. From the dizzying heights of the world's highest leaning tower, the Tour de Montréal atop the Stade Olympique; through the jungle environment of the Biodôme, home to numerous indigenous wild plants and animals; and to the 200 beautiful acres of the Jardin Botanique – you can easily spend a full day or two exploring this area (see pp14–17).

3 Rue Saint-Denis
 Architectural treasures, street poets, clothing stores and a plethora of restaurants

and cafés are the main attractions on this street. From Old Montréal's Carré Viger north to Carré Saint-Louis, the Victorian architecture seems to blend effortlessly with the designer stores, hip-hop music culture and the buzzing youthful vitality that is the essence of this area.
 📍 Map E2

4 Boulevard Saint-Laurent
 East meets west at this long boulevard, commonly referred to as "the Main". Beginning at the waterfront, it designates the symbolic dividing line between the Anglophone west side and the Francophone east side of the city, although contemporary Montréal finds the division all but vanished these days. Here you'll find designer boutiques, chic cafés and *sushi* bars, gourmet restaurants and up-to-the-minute nightclubs sometimes stacked two and three high, underlining the street's international party reputation. As for shopping, you can buy almost anything you desire here, from cheap clothing to food, antiquarian books, high-tech equipment, diamonds, old newspapers, woodcarvings and other crafts, kitchenware – even gravestones. 📍 Map D2

Maison de la Culture

Montréal has one of the most prized cultural networks in the world, evident in a system of venues called Maison de la Culture (house of culture) where music, art and symposia are offered to the public for free or at minimal cost. The best example is the Chapelle Historique du Bon-Pasteur at 100 rue Sherbrooke Est, which has become a concert hall.

5 Le Plateau Mont-Royal

Plateau Mont-Royal begins to blossom at rue Sherbrooke and boulevard Saint-Laurent and spreads northward to avenue Laurier and east to Parc Lafontaine. This architecturally rich neighborhood was made up of separate villages before being absorbed by the City of Montréal. Ornate duplexes abound on tree-lined streets, where you can see exterior staircases, wrought-iron banisters and fine woodwork. The area shines day or night with colorful clubs, shops, markets and restaurants. 📍 *Map E2*

Le Plateau Mont-Royal

6 Avenue du Mont-Royal

This street has vitality and panache, reflected in its bevy of eclectic eateries, curiosity shops and cafés but mostly in the laid-back attitude of its residents. Bargain shops nestle beside haute couture boutiques, while markets sell everything from hip fashion to ethnic cuisine. 📍 *Map D2*

Tam Tam Festival, Avenue du Parc

7 Avenue du Parc

Starting at rue Sherbrooke heading north, this riotous thoroughfare slices through the principal neighborhoods of McGill Ghetto, Parc Mont-Royal, Le Plateau Mont-Royal, Mile End and Park Extension. It is possible to spend a whole day on this street alone, starting with breakfast at Chez Cora's, enjoying the mountain's Tam-Tam drum festival (Sundays only), sampling an authentic Greek, Lebanese or Italian lunch, shopping for bargains or custom-made leather coats, stopping for a swim at the YMCA, enjoying a drink while listening to live African music, then ending the day with a show at the Rialto Theatre. 📍 *Map D2*

• Cora's: 3465 ave du Parc • YMCA: 5550 ave du Parc

8 Outremont

Founded in 1695, this area, meaning "beyond the mountain", is the predominantly French-speaking wealthy residential quarter. It features some of the most luxurious mansions in the city, and the main thoroughfares of avenue Laurier and rue Bernard west of avenue du Parc are peppered with expensive

fashion boutiques, exclusive hair salons, and hip eateries serving a clientele more akin to Paris than North America. Don't miss one of the country's finest *fromageries* (cheese-makers), Fromagerie Yannick or the rich cakes at Pâtisserie de Gascogne. The area is one of the few areas in the city where you can actually get lost due to the meandering streets, so keep a mental note of your route. 🗺️ *Map C1* • *Fromagerie Yannick: 1218 rue Bernard* • *Pâtisserie de Gascogne: 237 ave Laurier*

9 Little Italy

Italian Canadians provide another spice of life to Montréal's ethnic blend and make up the largest immigrant community, tracing their presence in the city back to the early 19th century. Boulevard Saint-Laurent provides the Italian version of café society in a stream of cafés and restaurants, but Little Italy proper is defined by the borders of rue Jean-Talon, rue Saint-Zotique, rue Marconi and avenue Drolet. Here you can indulge in the most authentic pasta, pizza and strong *espresso* coffee.

🚇 *Métro Jean-Talon*

10 Marché Jean-Talon

A walk through the alluring Marché Jean-Talon tempts the senses with a profusion of fresh market fare, imported Italian gourmet luxuries and homemade marvels from traditional local kitchens. Fresh produce is brought to market by dozens of farmers from outlying regions, together with discerning local importers. Also inside the market area is the Marché des Saveurs du Québec, which departs from the Italian theme and presents a line up of specialties from Québec Province. 🚇 *Métro Jean-Talon*

A Day's Walk Around Mont-Royal

Take the No. 11 bus from Mont-Royal Métro station up **avenue du Mont-Royal** and you will be able to see the **Parc Olympique** (see pp14–17) to the east. Disembark at **Lac aux Castors** (see p9) and walk around the lakeside trail to see resident ducks and geese. Follow the trail, veering to your left, to chemin Olmsted, which leads you past sculptures of the International Sculpture Symposium. Continue to **Maison Smith** (see pp14–17), and take in the wonderful exhibit presented by Les amis de la montagne (Friends of the Mountain).

Return to chemin Olmsted and follow the trail left to the commemorative Olmsted plaque embedded in rock and then on to the main chalet and **Kondiaronk Lookout** (see p8). This is the most outstanding viewpoint of the city. Return to the path behind the chalet, turn right and a little further on climb the path on your left to the foot of **La Croix** (see p8), the most recognized symbol of Montréal.

Return to Maison Smith to take the bus back to Mont-Royal Métro station then continue east along avenue du Mont-Royal on foot. This street buzzes with commotion and you can choose from a feast of tantalizing cafés for lunch.

You can either spend the afternoon enjoying some of the best shopping in the area on ave Duluth, or relax, weather permitting, in the lovely **Parc Lafontaine** (see p36).

ON FRIDAY NIGHTS AND SATURDAY MORNINGS *Montréal's bridges are crowded with residents traveling out of town to enjoy the vast array of activities possible in the countryside surrounding the city. Whether for an afternoon, overnight or long weekend, les Laurentides (the Laurentian mountains) and the villages and hills of Cantons de l'Est (the Eastern Townships) are where Montrealers have traditionally ventured to hike in summer or ski in winter. River traffic through the locks at Sainte-Anne-de-Bellevue also buzzes with yachters and boaters heading west on the Ottawa River or east to Trois-Rivières, Québec City and on to the Atlantic Ocean. Ski slope, Les Laurentides

1 Les Laurentides

Only an hour from the congestion of Montréal, the stunning Laurentian mountains north of the city provide an astounding list of activities. In summer there are endless opportunities to swim, fish, hunt, raft, horse-ride, play golf, mountain climb, or just relax in the sunny rural setting. Winter brings the chance to ski (downhill or cross-country), go tobogganing or snowboarding, or ice climb (see pp30–31).

2 Outaouais

This historic area of the province, west of Montréal, was not settled by white men until the early 19th century, and it remains a largely undeveloped region of lakes and forests. Don't miss Oméga Safari Park, just outside Montebello with its 1,500 acres inhabited by roaming bison, wapitis, black bear, boar and wolves, then continue on to the Parc National de Plaisance along the Ottawa River, to see flocks of Canada geese. In Montebello itself Manoir Louis-

3 Hudson and Rigaud

A favorite jaunt west from Montréal has traditionally included the communities of Hudson and Rigaud, hugging the mountains along the pastoral Ottawa River. Hudson, with its history of British settlement and fur trading, has a prevalence of historic mansions set on magnificent estates and an abundance of antiques shops, art galleries, and cafés. Its landscape is a popular destination for equestrians, while its riverside setting draws a keen sailing crowd. In contrast, the village of Rigaud is more of a French area, maintaining its Gallic legacy in elegant churches, convents, guesthouses and family-run farms. 📍 *Map N6*

4 1000 Islands

These islands are one of Montréal's great escapes and one of Canada's premier tourist areas, accessible either by car or train to Brockville. About two hours west of the border of Ontario and Québec, 1000 Islands actually covers 1,865 islands running the 80-km (50-mile) span from Brockville to Kingston, formed by metamorphic rock at the end of the last Ice Age. St Lawrence Islands National Park is the jewel in the crown. Camp sites are available on 11 of the islands. 📍 *Rte No. 401 • Boat trips: St Lawrence Cruise Lines 1-800 267 7868 • www.stlawrencecruiselines.com*

5 Deux-Montagnes This community, 30 minutes' drive from Montréal, was first settled by the Sulpician Order during the French Regime, and the fresh produce of this region, including the famous Oka cheese, is a carry-over from the agricultural traditions begun by the priests. Parc National d'Oka offers camping, kayaking, hiking and a sandy beach. 📍 *Map N6*

6 Lanaudière From the St Lawrence River Valley rising to the Laurentian lowland plateau, there's a multitude of forests, lakes, rivers and farmland to explore, all within a few hours of Montréal. The Festival de Lanaudière, Canada's most renowned classical music festival, takes place from the end of June to early August, with concerts staged at outdoor venues and heritage churches in Joliette. 📍 *Map P5 • www.tourisme-lanaudiere.qc.ca*

Bridges of Montréal

Getting on and off the island city of Montréal can be daunting. Pay due respect to the French "pont" (bridge) signage, because once you are on a bridge, you must continue across it before you have the chance to turn around. There are a total of 15 bridges and one tunnel providing access to the city.

7 Montérégie To reach this huge region of plains, forests and history, drive across the Pont Champlain following the signs for highway 10 eastward. Then take highway 133 (also called Chemin des Patriotes after the soldiers who fought the British here in

1837) toward Sorel, the fourth oldest city in Canada. Boat trips are possible around the town's many islands. Of major note in the region, which is known for its apple orchards and cider-making, is Fort Chambly in Saint-Denis. This well-preserved 18th-century fortress was built to defend the French from both Dutch and British attack. It is one of many similar historic forts found in the area. 📍 *Map P5 • www.tourisme-monteregie.qc.ca • Fort Chambly: 2 rue Richelieu, St-Denis; Open Mar–Nov: 10am–6pm daily; Adm*

8 Parc National du Canada de la Mauricie One of Canada's most spectacular areas of rivers, lakes, mountains and wildlife, La Mauricie National Park is only a two-hour drive from downtown Montréal or Québec City. It is accessible all year round, and is a perennial favorite with campers and outdoor enthusiasts. It is particularly popular with anglers, with trout and pike found in abundance in Lac Wapizagonke. 📍 *Map P4 • Open May–Nov • Dis. access • Adm • www.pc.gc.ca*

that swept through the entire town in 1908. Only remnants of the original wall survive. Today the town is known as one of the main providers of pulp and paper in the world. Dominating the landscape is the Monastère des Ursulines, a lovely church built by Ursuline nuns, surrounded by a public park. Cafés, bistros and restaurants abound on rue des Forges. 📍 *Map Q5*

Morning

📍 Begin by taking Route 15, the Laurentian Autoroute, north to Exit 76, then join Route 117 north to the village of **Val-David** (see p31). At the Municipalité de Val-David (2501 rue de l'Eglise) you can obtain a map and detailed information about the region.

📍 Walk down rue de l'Eglise to visit the Mille et Un Pots gallery and gift shop (2435 rue de l'Eglise). Afternoon

After lunch, explore the **Piste de la P'tit Train du Nord** (see p48), a green swath of protected trails snaking 200 km (125 miles) through the Laurentides on the old mountain train path. The defunct railroad line is perfect for hiking, cycling and walking in summer and cross-country skiing in winter. If cycling is your preference, Phénix Sports (2444 rue de l'Eglise) rents bikes.

📍 Return to Val-David and, if you have the energy, shop for unusual Christmas decorations at Village du Père Noël (987 rue Morin), open all year. Then enjoy a traditional Québécois dinner at **Restaurant Le Petit Poucet** (see p 87).

When hiking the Piste de la P'tit Train du Nord make sure you wear good walking shoes and carry plenty of water.

Left La Citadelle Right Marché du Vieux-Port

Québec City

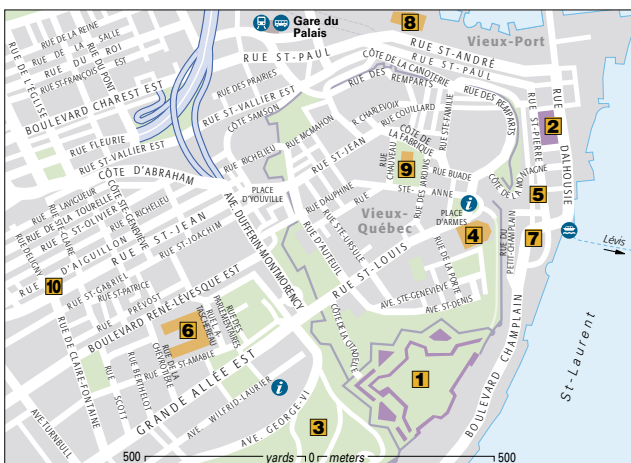

EUROPEANS FIRST SETTLED HERE IN 1609, and throughout its 400-year history Québec City has been the focus of political struggle between the British and the French – a battle that still rages today in this home of French separatism. Yet despite this turmoil, with its beautiful riverside setting, heritage sites, and cobblestone streets – all of which earned it World Heritage status in 1985 – the city is a traveler’s dream. Poised upon the Cap Diamant escarpment overlooking both the St Lawrence River and les Laurentides, the city is home to a Francophone population rich in cultural pride and exuberance, magnificent architecture, preserved churches and monuments, fine cuisine and numerous opportunities for outdoor adventure.

Quartier Petit-Champlain

1 La Citadelle

Strategically perched on the precipice of Cap Diamant with a full 360-degree view, this powerful bastion would daunt the bravest of enemies approaching the riverside city. All you need to do is attend one of its summertime cannon-firing demonstrations to appreciate the persuasive power of this mighty fortress (see pp22–3).

2 Musée de la civilisation de Québec

Architect Moïse Safdie mirrored the surrounding neighborhood by incorporating the French Regime style in his design for this interesting building. Inside, however, it is another story – a futuristic world complete with a range of interactive exhibitions, as well as displays of folk art, religious icons, antique furniture in period settings, and everyday items that illustrate life in the city during its 400-year history. There are also collaborative exhibitions at Place Royale and the Musée de l'Amérique française, the additional space allowing for a more comprehensive program covering multiple themes and generations (see pp24–5).

Musée de la Civilisation de Québec façade

Military Drill Hall, Parc des Champs-de-Bataille

3 Parc des Champs-de-Bataille

Located inside a former jail now called the Baillairgé Pavilion, the Battlefields Park Interpretation Center presents an inventive agenda to illustrate one of North America's most historic sites. The highlight is a multimedia show recounting the battles of 1759 and 1760 that took place here, leading to a French defeat by the British (see p32). An imposing mural by Québec artist Aline Martineau also illustrates the establishment of the park in the 1930s and how it has changed over the 20th century (see p37). 📍 Map K6 • Open 10am–5:30pm Tue–Sun • Adm

4 Château Frontenac

The most photographed landmark in the city, this imposing hotel with its green copper roof is an architectural jewel designed by architect Bruce Price as a French-style château. Since it opened in 1893, the hotel has welcomed the rich, the famous and the noble through its doors and into its plush salons. Guided tours are available (see p112).

Trompe-l'Oeil

Trompe-l'oeil means “to deceive the eye” and if you are in the Quartier Saint-Roch district of the city (near the train station) you can see a marvelous example of this art tradition on the columns on rue Charest Est. Combining the energetic talents of street graffiti artists under the guidance of a trained painter, a project evolved creating *trompe l'oeil* paintings to decorate cement highway pillars. The results are astounding and have led to the graffiti artists forming their own legitimate company.

5 Place Royale

The site of Nouvelle-France’s first settlement, built by Samuel de Champlain in 1608, has been the hub of the city’s cultural activities throughout its history. Shipbuilders, merchants, clergy and everyday citizens once gathered here to conduct commerce, celebrate harvests, marry, drink and bury their dead. Today, festivals such as Les Fêtes de la Nouvelle-France (see p43) rekindle the days of the early settlers with theatrical performances incorporating period costumes and traditional music. Don’t miss Église Notre-Dame-des-Victoires with its paintings by Van Dyck depicting French victory over the British in 1690.  Map M5

Place Royale

6 Observatoire de la capitale

From the 31st floor of the Capital Observatory you can enjoy spectacular views of the entire region. Adding to the experience are the taped interpretation guides offering information about the city in French, English and Spanish. Many city tours begin or end here.  1037 rue de la Chevrotière • Map J6 • Open 10am–5pm daily (closed Mon mid-Oct–mid-Jun) • Dis. access • Adm

7 Quartier Petit-Champlain

Home to artisans in the 17th century and dockworkers in the 19th century, the houses in this area have now been renovated and adapted into a range of eclectic gift shops, turning what is the oldest part of the city into today’s liveliest quarter. Maple butter, French macramé, and sculpted cherrywood cribs are just a few of the many unusual treats you can purchase here. Along the way you can eat and drink in the bars and cafés lining the pedestrianized streets.  Map M5

8 Marché du Vieux-Port

The Bassin Louise is the home of the Old Town’s fresh produce market, where farmers from Ile d’Orléans (see pp28–9) and other outlying areas bring their harvest to tempt appetites and inspire local chefs. Don’t be afraid to ask for a sample before you buy, especially at Le Fromageur cheese stall. Inside the green-roofed building is a café, where you can savor more of the local delights.  160 quai St-André • Map L4

9 Place de l'Hôtel de Ville

In the 18th century this square was the site of the Notre-Dame market and is still a popular gathering place for locals. During the summer it is often jammed with visitors who come to enjoy free music concerts and performances by local actors. The Romanesque architecture, as seen in the Hôtel de Ville (town hall) immediately beside the square, lends the area an imposing air. 🗺 *Map L5*

Porte Saint-Jean

10 Faubourg Saint-Jean-Baptiste

Built as a military defence against the British in the 18th century, the striking stone gate (Porte Saint-Jean) is now a tourist draw from which visitors can access and walk for 4 km (3 miles) along the city's ramparts. The area around the gate, also known as Quartier Montcalm, has an intense concentration of Québécois specialty merchants, as well as designer boutiques, cultural outlets and nightclubs. Bring your appetite too, because this zone is famous for its bistros and restaurants serving fine French cuisine. 🗺 *Map H5*

A Day Exploring the Old Town

Morning

Start your day at **Château Frontenac** (see p89) for a breathtaking view of the St Lawrence River, Basse-Ville, Vieux-Port and **Ile d'Orléans** (see pp28–9) in the distance. Immediately beside the hotel runs **Terrasse-Dufferin** (see p93), a boardwalk clinging to the rock escarpment complete with ornate Parisian-style street lamps. After taking in the exhilarating surroundings, stroll through the Jardins des Gouverneurs and look for monuments to Wolfe and Montcalm, generals in the Battle of the Plains of Abraham (see p32).

Go back along Terrasse-Dufferin to **Quartier Petit-Champlain**, the oldest merchant district in North America, with a dazzling variety of boutiques and souvenir shops.

Enjoy a mouthwatering seafood lunch at **Le Marie-Clarisse** (see p99).

Afternoon

If you want to stretch your legs after lunch, follow the natural flow of the land to the waterfront, head left along rue Dalhousie and the Vieux-Port and turn left at rue St-André. Here you'll find the delights of **Marché du Vieux-Port**, where you could easily spend the rest of the afternoon, sampling the local treats.

For an early evening drink, there is no better spot to finish your tour than the Aviatric Club bar/restaurant in the elegant train station (450 rue de la Gare-du-Palais • Map K4).

TOP 10 Planning Your Trip

1 When To Go

Early summer and fall are the best times to visit Québec, when the climate is more temperate. However, if you are interested in the variety of winter sports on offer in the province plan your visit in October to November or January to March.

2 Peak Seasons

Christmas can be magical in both cities, but as a result they are crowded with tourists who come to celebrate amid the fairy lights and the snow. June and July are the main months for the region's renowned festivals (see pp42–3), so these months are also frenetic, but fun. Québec City draws the crowds to its Carnaval each February (see pp44–5).

3 What to Pack

The term “weather extremes” might have been invented in Québec, where residents and visitors alike comment on variations from hour to hour. Temperatures range from 40° C (105° F) in summer to -40° C (-40° F) during winter ice storms. Packing rain gear is *de rigueur* and wearing layers of clothes that can be taken on or off is the most sensible option at any time of year.

4 Passports & Visas

American citizens need only photo ID to enter Canada, but all other visitors must have a valid passport that extends beyond the length of the trip. You may stay in the country for up to six months, providing your passport covers this period. US and EU citizens need no visa to enter Canada, but other nationalities should check at the Canadian Embassy or Consulate in their home country for up-to-date regulations.

5 Travel Insurance

Health care is expensive in North America so it is essential to take out travel insurance prior to departure to avoid paying high fees should you fall ill during your trip. Make sure the insurance also covers travel cancellations as well as loss of valuables should you be the victim of theft.

6 Airlines

More than 50 airlines serve Montréal and Québec City, but the scheduled airline with the most international flights is Air Canada. The charter company Air Transat offers cheaper options (see p106).

7 Customs

You are forbidden to bring certain food products, such as fruit, into Canada from abroad and sniffer dogs may operate at airports to check your luggage. Visitors over the age of 18 may import 200 cigarettes, 50 cigars, one liter of spirits and 1.5 liters of wine.

8 Time Zones

Québec is 5 hours behind Greenwich Mean Time (GMT) – the same time zone as New York City. When it is midday in Montréal, it will be 5pm in London, 9am in Los Angeles and 3am in Sydney.

9 Electricity

The whole of North America operates on a 110-volt, 60-cycle electrical system, with two- or three-pronged plugs. Equipment manufactured in other countries will need an adaptor.

10 Maps

Maps of both cities as well as a Montréal Métro and bus service map are available from tourist offices.

Left **Airport taxi** Right **Cobblestone streets, Montréal**

TOP 10 Things to Avoid

1 Airport Taxis

The airport taxi system is convenient but the airport bus, operated by Aéroports de Montréal (ADM), is much cheaper, running to the center of the city from 7am until 1am. There is also a shuttle in Québec City.

2 Bridges at Rush-Hour

The best way to deal with rush-hour traffic on the 11 commuter bridges in Montréal is to avoid it. From 4:30pm to 6:30pm traffic is at a standstill. In the morning, wait until after 9:30am before driving. Québec City's concern is the Pierre-Laporte and Ile d'Orléans bridges. The same advice applies to these.

3 Driving in Cities

Unless driving through a maze of construction re-routings, one-way streets, closed-due-to-festival signs and pumped-up summer traffic is your idea of a good time, do yourself a favor and use public transportation, taxis, walk or rent a bike. In winter you also have the ice, snow banks, poor visibility and less street parking to consider.

4 High-Heel Shoes in Vieux-Montréal

A word of warning to fashionistas: walking through the ancient cobbled streets of Old Town areas in high-

heeled footwear is a sure way of canceling the next day of activities. Make sure you wear sturdy, comfortable footwear.

5 Airport Bureaux de Change

The rates at airport exchangers are famously poor the world over. It is always preferable to deal with specialists in currency exchange in the cities themselves.

6 Pickpockets

A pickpocket looks like any other person, so be watchful of characters bumping into you – it could be a thief at work. A favorite trick of pickpockets is to work the crowds during the area's many festivals so be particularly careful at these events.

7 Dangerous areas

Montréal and Québec City are famously safe cities but there are areas to avoid. Stay away from Pascal Street in Montréal Nord, east of boulevard Pie-IX, as well as rue Ontario Est – plan your visit during daylight. The Côtes-des-Neiges neighborhood, especially Barclay Avenue, is also a no-go area at night but fine during the day. Strip clubs abound in the province and seedier elements are constant in these establishments. Québec City is very safe but common sense must be exercised.

8 Airport Con Artists

Montréal International Airport has had its share of organized gang-related con artists preying on the public. While authorities have stepped up security, be aware of your possessions at all times. One of the favorite ruses is to distract your attention while stealing your luggage. They customarily work in teams of two or three, so monitor your luggage attentively at all times.

9 Street Beggars

Montréal and Québec City have street beggars who congregate in high-traffic areas and outside SAQ stores, the province-run alcohol outlets. However, the province is a world leader in providing hostel facilities, free meals, medical services and halfway houses for the homeless, so beggars do have other options beyond your cash donation, which may be worth bearing in mind.

10 Hotel Telephone Calls

Avoid long-distance calls charged directly to hotel bills – they are at least three times the price of using a phone card. Buy one of the pre-paid phone cards available at convenience stores and newsstands. The other option is to contact the international operator of your contact country.

TOP 10 Getting to Montréal & Québec City

1 By Air to Montréal

Visitors arriving by air will land at Pierre Elliott Trudeau International Airport, where transportation to central Montréal can be arranged. 4 By Cruise Ship to Montréal

5 By Cruise Ship to Québec City

A brand new cruise terminal is welcoming the floating hotels into the Vieux-Port. Traditionally, the cruise season extends from April to October. ☎ www.portquebec.ca

6 By Road

To reach Montréal by car use either Hwy 401 from southern Ontario, which becomes Hwy 20 at the Québec border, and cross the Pont Galipeau bridge, or take Hwy 40 from Ottawa which crosses the Pont Ile aux Tourtes. The Cantons de l'Est auto-route (Hwy 10) is fed by US freeways 91 and 93, with other US East Coast travelers using Hwy 15 – both of these lead to Pont Champlain. Québec City visitors can choose either Hwy 20 or Hwy 40, both from Montréal, or Hwy 138 if traveling to Québec City from the east.

7 By Hydrofoil

One of the most exciting and scenic ways of arriving in either city is aboard the hydrofoil called Les Dauphins du St-Laurent. This craft also stops at Trois-Rivières in both directions (see p82). ☎ *Les Dauphins du St-Laurent: www.dauphins.ca*

8 By Ferry to Montréal

Since Montréal is an island city, shuttle boats (*navettes*) are in use, but only in fair weather, which fluctuates according to the winter icepack. A shuttle service is available from the South Shore community of Longueuil, generally from the end of May until mid-October. ☎ *Navettes: (514) 281 8000*

TOP 10 Getting Around Montréal & Québec City

1 Montréal Métro

The best way around Montréal is by Métro, which operates from 5:30am until 1am. Québec City has no Métro. 📞 www.metrodemontreal.com

2 By Bus

Montréal's bus/Métro system acts as a single network seven days a week. A single fare allows access to the entire system. Buses also run efficiently in Québec City. 📞 *Montréal buses:* www.stm.info • *Québec City buses:* (418) 627 2511; www.stcuq.qc.ca

3 Tickets

The same tickets are valid on both the Métro and buses in Montréal. If you plan to use public transportation frequently during your stay, it is worthwhile investing in a one-day *Carte Touristique* for \$7.00 or a three-day pass for \$14.00 and you will have unlimited access to the major areas. These cards are available at the Berri-UQAM and Bonaventure Métro stations and, during the summer, at the Sherbrooke, Mont-Royal, Pie-IX, Viau, Jean-Talon and Longueuil stations too.

4 By Car

The Province of Québec has a reputation of being a combination of fast drivers, one-way streets, complicated parking signs, short-lived meters and over-priced

parking lots. Overnight indoor parking or taking taxis are both worth the investment while staying in either city.

5 On Foot

Both cities are walker-friendly, providing many wonderful streets to wander along and places to stop for a break. There are clearly marked walking trails but they share space with cyclists and sometimes in-line skaters, so be careful, but courteous.

6 Cycling

Cyclists abound throughout Québec on the city streets, bike paths and in the parks. With over 350 km (215 miles) of paths around Montréal too, there is no shortage of surface. Ça Roule is a rental and repair shop. 📞 *Ça Roule:* 27 rue de la Commune Est • (514) 866 0633 • www.caroulemontreal.com

7 Taxis

For under \$10 you can get from one place to another in the downtown core of both cities, rush-hour traffic notwithstanding.

8 Calèche Rides

In Montréal, *calèche* rides (horse-drawn carriages) are available at Place d'Armes, Place Jacques-Cartier, at the foot of boulevard St-Laurent or by calling Lucky Luc. In Québec

City, call Calèches du Vieux-Québec or hail one on any of the old town streets. It's a romantic, if expensive, way to get around. TOP 10 Banking and Communications

1 Currency

Quebecers use the Canadian dollar (\$) which is made up of 100 cents (¢). A 5 cent piece is called a nickel, a 10 cent piece a dime, and a 25 cent piece a quarter. The \$1 coin has a loon (a type of waterfowl) on it so is known as a loonie; the \$2 coin is known as a toonie. French Canadians refer to *sous* meaning penny or *piastres* for dollar. Paper money comes in 5, 10, 20, 50, 100 and 1,000-dollar denominations.

2 Bureaux de Change

These money-changing shops cash checks and exchange currencies provided you have sufficient identification. For cash currency exchanges they sometimes provide better rates than banks. You can find them at airports, hotels and on popular boulevards and squares.

3 Caisses Populaires

In the earlier 1900s Quebecers opened the first credit union in North America called a *caisses populaire*, or people's bank. Today, while not as numerous as banks, they are more amiable and give attractive rates.

4 Credit and Debit Cards

Quebecers recognize all major credit cards issued by legitimate financial entities throughout the

world, but prefer cash, as there are charges associated with plastic. Bank debit cards are common at convenience stores, markets, bistros, cafés and restaurants. Check before you leave home that your debit card uses the Interac, Plus or Cirrus systems.

5 Traveler's Checks

Traveler's checks are accepted throughout Québec, but if you are traveling to isolated or rural areas, ask in advance to verify their acceptance. Otherwise you should have no real problems cashing American Express, Travelex, Visa or other major brand traveler's checks in either of the city's hotels, restaurants and stores.

6 Newspapers

Québec has a wealth of newspapers available at specialty stands. Local papers include *The Montréal Gazette* (daily) and Québec City's weekly *Chronicle-Telegraph* in English. French papers include *Le Devoir*, *La Presse*, *Le Journal de Montréal*, *Le Journal de Québec* and *Le Soleil*.

7 Television and Radio

Quebecers have the Canadian networks CBC (government-run), CTV and Global in English, and SRC, TQS, TVA and Télé-Québec in French.

Radio stations are CBC-FM at 93.5 & 95.1 in Montréal and 106.3 in Québec, CJAD 800 AM Talk Radio for English Montréal and INFO 690 AM for French. FM 94.3 CHYZ Radio Laval and CJMF 93.3 FM Classic Rock are active French stations in Québec City and Radio X CHOI at 98.1 FM broadcasts French and English music.

8 Tourist Papers and Listings Magazines

Tourisme Montréal publishes the official Tourist Guide each year available at many outlets. Free weeklies list most entertainment activities in both cities: *The Mirror* and *The Hour* (English) and *Voir & Ici* (French) are found in stores, restaurants and street boxes.

TOP 10 Budget Tips

1 Tickets and Free Entry

The Montréal Métro subway system offers free travel on New Year's Day, Christmas Day and St-Jean Baptiste (June 24). Tickets for performing arts events can be purchased direct from the venues or via Admission Network. Some clubs offer free admission incentives for the first group of patrons – call the relevant venue for details. 📞 *Admission Network: (514) 790 1245; www.admission.com*

2 Free Entertainment

In summer in both cities there are street performers who display their juggling or musical talents free of charge. Shakespeare in the Park entertains crowds around Montréal; check the free weekly newspapers for schedules (see p108). The Vieux-Port areas in the two cities regularly present outdoor concerts, fireworks displays and colorful demonstrations free of charge.

3 Discounts and Passes

The best time to obtain discounts and passes is the “shoulder” season, outside the summer or winter tourist rush. To stimulate attendance, businesses will often cut the price of a tour, hotel room or show if you ask ahead of time.

4 Cheap Food

Québec is famous for cheap food outlets, from *casse-croûtes* (snack bars) and *patates frites* (French fry) stands, to hot dog and hamburger joints. Ethnic food has boomed with Thai, Vietnamese and Chinese eateries such as Juste Nouilles offering lunch specials for under \$5. The rule of thumb in restaurants across all price ranges is to eat your main meal at lunch time to save money.

5 Cheap Accommodation

The cheapest accommodations are youth hostels (see p115). The Université du Québec à Montréal has a lavish new *auberge* able to handle singles, doubles or groups (see p116). Local motels are also good value.

6 Friperies

Budget-conscious shopping is offered at friperies (secondhand clothiers), selling fashions from every era and style at cheap prices. Rue St-Denis, avenue Mont-Royal, rue Ste-Catherine Est and boulevard St-Laurent are the streets to scout in Montréal.

7 Maisons de la Culture

Montréal's secret for frugal entertainment is the Maison de la Culture network, a series of venues offering free or

inexpensive performances by artists throughout Montréal districts. The events cover all styles of performing arts, even photographic and art exhibitions.

8 Free Times at Museums

Free admission is available to the Musée des Beaux-Arts every day (see pp20–21), and to the Musée d'Art Contemporain de Montréal (see p66) on Wednesday evenings from 6pm. On UNESCO's International Museum Day (late May), 28 Montréal museums open their doors free of charge from 9am until 6pm and provide a free shuttle bus service.

9 Other Savings

Use toll-free 1-800 reservations systems for accommodations, flights, tours and transportation once in Canada. Do not be afraid to ask for discounts and negotiate deals if you plan paying by cash.

10 Club Discounts

If you are a member of an automobile club (AAA), ecotourism network (Sierra Club), hostel organization (HIHOSTEL) or credit card family (Amex/VISA), the chances are you will save a minimum of 10–20 per cent on your car hire, accommodations and travel charges. Check with your club before you leave.

TOP 10 Eating and Accommodations Tips

1 Types of Dishes and Restaurants

Montréal and Québec City offer travelers a dynamic range of eating choices – diners may choose from a vast selection including delicacies from Afghanistan, Tibet, Algeria, Thailand, the Philippines, Turkey, Poland, San Salvador, Cuba and many other countries. Local favorites include bagels, Montréal smoked meat, and *poutine* (French fries smothered in gravy with cheese).

2 Children's Meals

It is common to find children's portions in menu selections – if not, ask your waiter if they would consider offering one to you. Most will gladly comply, not wanting to lose your business. Of course chains such as McDonald's and Burger King are always popular with kids. Some family restaurants even advertise free meals for children under five.

3 Tax

The provincial and federal governments impose hefty taxes on top of goods and services in Québec, amounting to 15 per cent. A few merchants include these taxes in their price tags but most do not, so always bear in mind that you will pay more at the cash register. For visitors,

however, federal tax (GST) is refundable on most purchases. You can pick up refund forms at airports, train stations and bus terminals.

4 Table d'Hôte Specials

Throughout the Province of Québec, *table d'hôte* menus show up at both lunch and dinner sittings. These menus are fixed-price deals, serving either a soup of the day or salad to start, followed by a choice of principal dishes, then a dessert and coffee or tea. It is the most economical way to dine in Québec.

5 Vegetarians

A number of restaurants offer dishes suited to vegetarians, and there are specialty eateries serving only vegetarian fare such as Le Commensal (chain), Govinda Jaya Jaya at 263 rue Duluth, and Kilo Prix at 201 rue St-Viateur in Montréal. Vegetarians may have fewer choices in more rural locations.

6 A La Carte Express

This centralized delivery system provides an amazing service, offering access to dozens of restaurants, many of which do not have their own delivery service. They deliver throughout the tourist areas of Montréal. ☎ *A La Carte Express: (514) 933 7000*

7 Tipping

In Québec service personnel earn only minimum rates and depend on tips for the larger part of their wages. This does not excuse poor service but is a consideration at gratuity time. Customary tipping in Québec is between 15–20 per cent of the pre-tax total of the bill.

8 Smoking Laws

Laws of Québec prohibit smoking in public places, including bars, restaurants and the workplace, unless there is a separately ventilated space. Most establishments designate a separate section for smokers.

9 Alcohol

Bars and restaurants serve alcohol during hours of operation, usually until 3am. For private consumption, alcohol must be purchased at supermarkets, *dépanneurs* (convenience stores) or, for a wider selection, at *Société des Alcools du Québec* (SAQ) outlets, which are found in both cities.

10 Hotel Ratings

All hotels in Québec are required to have a star classification from the Minister of Tourism. This indicates the facilities available, from basic in 1-star establishments, to luxury features, such as pools and Jacuzzis, in 5-star hotels.
